IMPORTANT INFORMATION AND DISCLAIMERS

THIS PROSPECTUS CONTAINS IMPORTANT INFORMATION ABOUT THE ISSUER AND THE COMMERCIAL PAPER AND BONDS ISSUED UNDER THIS PROGRAMME. PROSPECTIVE INVESTORS ARE ADVISED TO CAREFULLY READ THIS DOCUMENT AND CONSULT THEIR PROFESSIONAL INVESTMENT ADVISORS AND DEALERS TO ASCERTAIN THE SOUNDNESS OF THEIR CHOICE TO INVEST IN THE COMMERCIAL PAPER AND BONDS ISSUED UNDER THIS PROGRAMME PRIOR TO MAKING A PURCHASE

Cocoa Capital Plc (the Issuer or the Company) is a public company limited by shares incorporated under the Companies Act (as defined). The establishment of the Issuer was sponsored by Ghana Cocoa Board/COCOBOD (as defined) for the purpose of, among others, issuing debt securities to purchase cocoa beans and to refinance COCOBOD's Legacy Debt (as defined). COCOBOD is the sole shareholder of the Issuer. It is managed by KPMG (as the Corporate Manager) under the terms of the Management Services Agreement (as defined).

Pursuant to its mandate, the Issuer has established this Note issuance programme to raise an aggregate amount of GHS16,300,000,000 (the Programme) to support COCOBOD's cocoa beans purchase programme and to redeem COCOBOD's Legacy Debt. Under the Programme, the Issuer may, from time to time, issue Notes (as defined) denominated in any currency as specified in an Applicable Pricing Supplement (as defined) subject to the approval of the Bank of Ghana (in the case of issuance of Notes denominated in a foreign currency). The maximum aggregate principal amount of all and Notes (as defined), from time to time, outstanding under the Programme will not exceed the equivalent of GHS 16,300,000,000.

The Applicable Pricing Supplement which pertains to the Notes of such Series (as defined) or Tranche (as defined) shall contain the final offer price, aggregate principal amount and interest (if any) payable in respect of such Notes and all other terms and conditions not contained herein which are applicable to each Series or each Tranche. Each Applicable Pricing Supplement shall be subject to the approval of the SEC (as defined).

This prospectus (the Prospectus) provides, among others, the terms and conditions of the Notes and the risk factors relating to the Notes and the Issuer.

A copy of this Prospectus has also been delivered to the ORC (as defined) for filing as required under section 308(6) of the Companies Act. The ORC has not checked (and will not check) the accuracy of the statements made in this Prospectus and accepts no responsibility thereof or for the financial soundness of the Issuer or the value of the Notes.

Provisional approval has been obtained from the GSE (as defined) for permission to list and trade the Notes on the Ghana Fixed Income Market of the GSE (GFIM). Such approval is granted subject to the Issuer fulfilling all listing requirements.

Neither the SEC, nor the GSE, nor the ORC assumes any responsibility for the correctness of any statements made, opinions expressed or reports contained in this Prospectus. Neither the SEC, nor the GSE, nor the ORC has verified the accuracy and truth of the contents of this Prospectus or any other documents submitted to it, and the SEC, the GSE and the ORC will not be liable for any claim of any kind whatsoever. Approval of the issue and/or listing of the Commercial Papers and Bonds by the SEC or the GSE is not to be taken as an indication of the merits of the Issuer or of any issue of the Notes.

The contents of this Prospectus do not constitute, and are not to be construed as, legal, business or tax advice. Each investor should consult his/her/its own independent legal advisor, financial advisor or tax advisor for legal, financial and/or tax advice in relation to the purchase of the Notes.

Prospective investors should also pay particular attention to the factors described under Section 8 (Risk Factors) in this Prospectus. The Commercial Paper shall only be sold to Qualified Investors as defined.

A. GENERAL INFORMATION

The Issuer accepts responsibility for the information contained in this Prospectus and the Applicable Pricing Supplement for each Tranche or Series issued under the Programme. To the best of the knowledge of the Issuer (having taken all reasonable care to ensure that such is the case), the information contained in this Prospectus is in accordance with the facts as at the date hereof and does not omit anything likely to affect the import of such information.

This prospectus has been seen and approved by us, the Directors of the Issuer, and we collectively and individually accept full responsibility for the accuracy of the information given and after making all reasonable inquiries and to the best of our knowledge and belief there are no facts, the omission of which would make any statement in the document referred to above misleading.

To the best of the knowledge and belief of the Joint Lead Managers (as defined), the Co-Sponsoring Brokers (as defined), the Note Trustee (as defined), the Reporting Accountant (as defined) and the Legal Advisors (as defined) (or any of their respective directors, Affiliates, Advisors or agents), the Prospectus constitutes full and fair disclosure of all material facts about the Programme and the Issuer.

The distribution of this Prospectus and the offer or sale of the Notes in certain jurisdictions may be restricted by law. Neither the Issuer nor the Joint Lead Managers nor the Dealers (as defined) represents that this Prospectus may be lawfully distributed, or that any of the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer which is intended to permit an offering of any of the Notes or distribution of this Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except in circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Prospectus or any Notes may come must inform themselves about, and observe, any such restrictions.

This Prospectus does not constitute an offer and may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction or in any circumstances in which such an offer or solicitation is not authorised or is unlawful. The Issuer, the Joint Lead Managers and the Co-Sponsoring Brokers accept no responsibility for any violation by any person of any such restrictions.

Before deciding whether to subscribe for the Notes, an investor should consider whether the Notes are a suitable investment. Investors should consult suitable professional advisors and rely exclusively on the information contained in this Prospectus when making a decision as to whether to purchase the Notes. No person is authorised to give any information or make any representation not contained in this Prospectus or any Applicable Pricing Supplement in connection with the Programme, and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Joint Lead Managers and Co-Sponsoring Brokers.

The information contained in this Prospectus is accurate only as of the date of the Prospectus, regardless of the time of delivery of this Prospectus or any offering or sale of the Notes. In the event that this Prospectus is delivered to or comes into the possession of any investor at any time after the date hereof, it is for, and the responsibility of, the investor to ascertain whether any supplement or amendment of the information herein contained has been made or issued, or

whether updated information is available. Such updated information can be obtained from the registered offices of the Issuer, the Note Trustee and the Joint Lead Managers at all times. Reliance on this Prospectus at any time subsequent to the date hereof without reference to any such updated information subsequent to the date of the Prospectus shall be at the investor's risk.

This Prospectus is to be read in conjunction with all documents specifically stated to be incorporated or referred to herein and should be read and understood on the basis that such other documents are incorporated in and form part of this Prospectus under Section 4 (Incorporation of Documents by Reference) hereof.

All payments in respect of the Notes will be subject to deduction for, or on account of, taxes in Ghana, as described in Condition 8 of the Conditions (as defined).

B. SUPPLEMENTS TO THE PROSPECTUS

In the event of any occurrence of a significant factor after the issuance of the Prospectus or a material mistake or inaccuracy relating to the information included in the Prospectus, the Issuer shall prepare a supplement to this Prospectus to address such significant factor or material inaccuracy. The Issuer may also publish a new prospectus for use in connection with any subsequent issue of Notes. Such supplement or new prospectus will be subject to the approval of the SEC.

C. PRESENTATION OF FINANCIAL INFORMATION

Unless otherwise indicated, the financial information regarding the Issuer set forth in this Prospectus has been derived from the historical and projected financial information set out under Section 10 (*Summary of Financial Model, Reports and Forecasts*) and Appendix E (*Reporting Accountant's Report*) of this Prospectus and reviewed by the Reporting Accountant (as defined). The financial reports and forecasts have been reviewed by PricewaterhouseCoopers Ghana (**PwC**). Based on its review, PwC confirms that:

(a) In relation to COCOBOD's historical financial information for the period 30 September 2021 to 30 September 2025, PwC concludes that nothing has come to its attention that causes it to believe that the historical information does not present fairly in all material respects the financial position for the period under review and the financial performance for the period then ended, in accordance with IFRS Accounting Standards.

(b) In relation to the forecasts and projections, PwC concludes that nothing has come to its attention that causes it to believe that the assumptions do not provide a reasonable basis for the projections. Further, in PwC's opinion, the prospective financial information, so far as the accounting policies and calculations are concerned, have been properly compiled on the basis of the assumptions made by the Issuer Board and are presented on a basis consistent with the accounting policies adopted by the Issuer.

D. ROUNDING

Some numerical figures included in this Prospectus may have been subject to rounding adjustments. Accordingly, numerical figures shown as totals in certain figures may not be an arithmetic aggregation of the figures that precede them.

E. FORWARD-LOOKING STATEMENTS

This Prospectus includes "forward-looking statements" that reflect the Issuer's intentions, beliefs or current expectations and projections about its future results, operations, financial condition, liquidity, performance, prospects, anticipated growth, strategies, plans, opportunities, trends and the market in which it operates.

These forward-looking statements are based on numerous assumptions regarding the Issuer's present and future business and the environment in which it expects to operate in the future.

Forward-looking statements are subject to known and unknown risks, uncertainties, assumptions and other factors that could cause the Issuer's actual results, operations, financial condition, liquidity, performance, prospects, anticipated growth, strategies, plans or opportunities, as well as those of the markets it serves or intends to serve, to differ materially from those expressed in, or suggested by, forward-looking statements contained in this Prospectus.

The forward-looking statements speak only as of the date of this Prospectus. The Issuer expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in its expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. An investor should not place undue reliance on any forward-looking statements and is cautioned that any forward-looking statements are not guarantees of future results, performance or achievements of the Issuer.

F. TRANSACTION ADVISORS

Absa Bank Ghana LTD (**Absa**) is acting as the Joint Lead Manager (as defined), Bond Debt Service Account Bank (as defined) and Operations Account Bank (as defined) for the Programme. Absa consents to act in the specified capacities and to its name being stated in this Prospectus. Neither Absa nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

CalBank PLC (**CalBank**) is acting as the Joint Lead Manager and Bond Subscription Account Bank (as defined) for the Programme. CalBank consents to act in the specified capacities and to its name being stated in this Prospectus. Neither CalBank nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

GCB Bank PLC (**GCB**) is acting as the Joint Lead Manager, Commercial Paper (CP) Proceeds Utilization Account Bank (as defined), Bond Proceeds Utilization Account Bank (as defined), CP Collections Escrow Account Bank (as defined), Bond Collections Escrow Account Bank (as defined) and Bond Buffer Account Bank (as defined) for the Programme. GCB consents to act in the specified capacities and to its name being stated in this Prospectus. Neither GCB nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

Stanbic Bank LTD (**Stanbic**) is acting as the Joint Lead Manager, CP Subscription Account Bank (as defined) and CP Debt Service Account Bank (as defined) for the Programme. Stanbic consents to act in the specified capacities and to its name being stated in this Prospectus. Neither Stanbic nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

Fincap Securities Ltd (**Fincap**) is acting as the Joint Lead Manager and Co-Sponsoring Broker for the Programme. Fincap consents to act in the specified capacities and to its name being stated in this Prospectus. Neither Fincap nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

One Africa Securities Limited (**One Africa**) is acting as the Joint Lead Manager and Co-Sponsoring Broker for the Programme. One Africa consents to act in the specified capacities and to its name being stated in this Prospectus. Neither One Africa nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

Central Securities Depository (GH) LTD (**CSD**) is acting as Registrar (as defined), Transfer Agent (as defined) and Calculation Agent (as defined) in respect of the Programme. The CSD consents

to act in the specified capacities and to its name being stated in this Prospectus. Neither the CSD nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

KPMG is acting as Corporate Manager in respect of the Issuer. KPMG consents to act in the specified capacity and to its name being stated in this Prospectus. Neither KPMG nor any of its partners, principals or employees has any material direct or indirect economic or financial interest in the Issuer.

PwC is acting as Reporting Accountant to the Issuer in respect of the Programme. PwC consents to act in the specified capacity and to its name being stated in this Prospectus and confirms that it has not withdrawn its consent to any statement or report prepared by it being included in this Prospectus (in the form and context in which it is included). As indicated above, PwC has reviewed the financial reports and forecasts set out under Section 10 (Summary of Financial Model, Reports and Forecasts) and Appendix E (Reporting Accountants Report) of this Prospectus. Neither PwC nor any of its partners, principals or employees has any material direct or indirect economic or financial interest in the Issuer.

Beacon Credit Rating Agency (**Beacon Ratings**) is acting as Credit Rating Agency to the Issuer for the Programme. Beacon Ratings consents to act in the specified capacities and to its name being stated in this Prospectus and confirms that it has not withdrawn its consent to any statement or report prepared by it being included in this Prospectus (in the form and context in which it is included). Beacon Ratings has prepared the Credit Rating Report (as defined below) set out under Appendix C (Credit Rating Report) of this Prospectus. Neither Beacon Ratings nor any of its employees or principals has any material direct or indirect economic or financial interest in the Issuer.

Sory&Partners@Law (**Sory&Partners**) is acting as Legal Advisors to the Issuer in respect of the Programme. Sory&Partners consents to act in the specified capacity and to its name being stated in this Prospectus and confirms that it has not withdrawn its consent to any statement or report prepared by it being included in this Prospectus (in the form and context in which it is included). Sory&Partners has prepared the Legal Compliance Letter (as defined below) set out under Appendix D (Legal Compliance Letter) of this Prospectus. Neither Sory&Partners nor any of its partners or employees has any material direct or indirect economic or financial interest in the Issuer.

G. DIRECTORS' RESPONSIBILITY STATEMENT

The Issuer and the Issuer Board (as defined) accept responsibility for the information contained in this Prospectus.

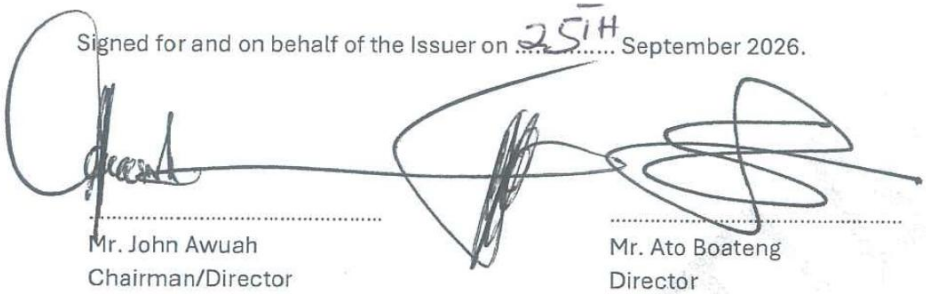

This Prospectus has been reviewed and approved by the Issuer Board, who, collectively and individually, accept full responsibility for the accuracy of the information given and, after making all reasonable inquiries and to the best of their knowledge and belief, confirm that there are no facts, the omission of which would make any statement in the document referred to above misleading. The financial forecast of the Issuer contained in this Prospectus has been reviewed and approved by the Issuer Board after making all reasonable inquiries.

No Director (as defined) has been involved in any of the following events: (a) a petition under bankruptcy or insolvency laws in any jurisdiction filed against such person or any partnership in which he/she is/was a partner or any corporation of which he/she is/was a director or chief executive officer (b) conviction of such person for fraud, misappropriation or breach of trust or any other similar offence and (c) such person being the subject of any order, judgement or ruling of

any court of competent jurisdiction or administrative body preventing him/her from acting as an investment advisor, dealer's representative, investment representative, a director of a financial institution or engaging in any type of business or professional activity.

None of the Directors intends to take part in the offer under the Programme. The Issuer Board warrants that no takeover offer has been made in respect of the shares of the Issuer over the past or current financial year.

Signed for and on behalf of the Issuer on 25th September 2026.

DEFINITIONS

Unless inconsistent with the context or separately defined in this Prospectus or an Applicable Pricing Supplement, the following expressions used in this document and which form a key part of the Conditions, shall have the following meanings ascribed to them in this Prospectus and any Applicable Pricing Supplement of any subsequent Series or Tranches issued under this Programme:

Term	Definition
Affiliates	means, in relation to a corporate body, its subsidiary, its holding company, or any other subsidiary or holding company of its holding company, and Affiliate shall be construed accordingly
Agency Agreement	means the agency agreement dated on or about the date of this Prospectus entered between the Issuer, the Lead Note Trustee and Co-Note Trustee, the Paying Agents and the CSD, in relation to the Notes (and as amended, restated and/or supplemented from time to time)
Applicable Law	means any law or regulation of any governmental or other regulatory authority which governs the Programme, the Conditions and the Notes (in accordance with which the same are to be construed) or any relevant person, and Applicable Laws shall be construed accordingly
Applicable Pricing Supplement	means the pricing supplement issued in relation to each Series or Tranche (substantially in the form set out in Appendices A1 and A2 (Form of Applicable Pricing Supplement) to this Prospectus as a supplement to this Prospectus, giving details of that particular Series or Tranche and the Conditions applicable to each Note in that Series or Tranche in so far as such terms and conditions are different from these Conditions
Assigned Cocoa Contracts/Receivables	means the assigned related receivables arising from the selected executed forward contracts under the Assignment Agreement executed between CMC, COCOBOD and the Issuer, wherein agreed cocoa-sale receivable rights are made available to the Issuer or Trustees.
Assignment Agreement	means the assignment agreement dated on or about the date of this Prospectus and entered between COCOBOD, the Issuer and the CMC, under which CMC will assign the related receivables arising from the selected executed forward contracts.
Auditors	means Deloitte & Touche, the statutory auditors of the Issuer as at the date of the Prospectus
Bond	means a Bond issued under an Applicable Pricing Supplement to this Programme, and Bonds shall be construed accordingly
Bond Buffer Account	means the GHS denominated Bond Buffer Account set up with the Bond Buffer Account Bank in the name of the Issuer: (a) into which shall be paid all (i) the residue of the deposits in the Bond Collections Escrow Account (after transfers in the Bond DSA during any DSA Funding Period) up to an amount equal to 0.2x the Debt Service Amount and (ii) receivables from the permitted investment of the funds therein (b) and from which transfers shall be made by the Bond Buffer Account Bank (i) into the Bond DSA in respect of any Debt Service Amount during a DSA Funding Period, (ii) for disbursements towards any Early Redemption or Liability Management, and (iii) for permitted investments, and which account shall be managed under the terms of the Issuer Accounts Agreement
Bond Buffer Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means GCB which is acting as the account holding bank for the Bond Buffer Account

Bond Collections Escrow Account	means the GHS denominated account set up with the Bond Collections Escrow Account Bank in the name of the Issuer:(a) into which shall be paid the cash proceeds from the assigned COCOBOD Receivables(b) and from which transfers shall be made by the Bond Collections Escrow Account Bank into the Bond DSA, the Bond Buffer Account and the Operations Account, and which account shall be managed under the terms of the Issuer Accounts Agreement
Bond Collections Escrow Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means GCB which is acting as the account holding bank for the Bond Collections Escrow Account
Bond Debt Service Account (DSA)	means the GHS denominated Bond Debt Service Account set up with the Bond Debt Service Account Bank in the name of the Issuer: (a) into which shall be paid all (i) transfers from the Bond Collections Escrow Account and (where necessary) the Bond Buffer Account to satisfy the Debt Service Amount during a DSA Funding Period, (ii) receivables from the permitted investment of the funds therein (b) and from which transfers shall be made by the Bond DSA (i) into the Bond Trust Account in respect of Note repayments, and (ii) for permitted investments, and which account shall be managed under the terms of the Issuer Accounts Agreement
Bond Debt Service Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means Absa Bank which is acting as the account holding bank for the Bond Debt Service Account
Bond DSA Funding Period	means each period of 30 calendar days ending on a Note Repayment Date
Bond Paying Agent	unless otherwise set out in an Applicable Pricing Supplement, means CalBank PLC
Bond Proceeds Utilisation Account	means the GHS-denominated account established with the Bond Proceeds Utilisation Account Bank in the name of the Issuer, into which the Bond Subscription Account Bank shall transfer the proceeds of the Bond issuance and from which the Bond Proceeds Utilisation Account Bank shall make disbursements towards the redemption of the COCOBOD Legacy Debt.
Bond Proceeds Utilisation Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means GCB which is acting as the account holding bank for the Bond Proceeds Utilisation Account
Bond Subscription Account	means the GHS denominated account set up with the Bond Subscription Account Bank where all amounts raised from each Series or Tranche will be deposited until transferred to the Bond Proceeds Utilisation Account
Bond Subscription Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means CalBank PLC which is acting as the account holding bank for the Bond Subscription Account
Bond Trust Account	means the trust account set up by the Bond Paying Agent for the receipt of all Note repayment funds from the Bond Debt Service Account and for disbursement of all Note repayments to the relevant Noteholders
Bond Trust Account Bank	unless otherwise set out in an Applicable Pricing Supplement, means CalBank PLC which is acting as the account holding bank for the Bond Trust Account

PFM Act	means the Public Financial Management Act, 2016 (Act 921), as amended or any statutory modification or re-enactment thereof
PFM Regulations	means the Public Financial Management Regulations, 2019 (L.I.2378), as amended or any statutory modification or re-enactment thereof
Preceding Business Day Convention	means a Business Day Convention specified in Condition 5.2.2 below
Principal Amount	means the face value of the Notes.
Programme	means the GHS16,300,000,000 Note issuance programme established by the Issuer (and as amended from time to time), under which the Issuer may, from time to time, issue Notes denominated in the Currency and having such maturity as may be set forth in the Applicable Pricing Supplement.
Programme Assets	means the Assigned Cocoa Contracts/Receivables, monies standing to the credit of the Issuer Accounts and other property designated as Programme Assets under the Programme Documents.
Programme Documents	means this Prospectus, each Applicable Pricing Supplement, the Trust Deed, the Agency Agreement, the Collections Escrow Account Agreement, the Management Services Agreement, the Issuer Accounts Agreement, the Assignment Agreement, each Financing Agreement, each Note Purchase Agreement and any other document designated as such, and Programme Document shall be construed accordingly
Programme Funding Agreement	means the agreement under which the Issuer applies or advances net issue proceeds to COCOBOD for approved cocoa-purchase financing, refinancing and related permitted purposes.
Prospectus	means this prospectus issued by the Issuer on the date stated hereon (as amended, restated and/or supplemented from time to time).
Qualified Investor	Means "Qualified Investor" as defined in the Securities Industry (Conduct of Business) Guidelines 2020
Redemption	means Redemption by Instalments, Final Redemption or Early Redemption (as the case may be).
Redemption Amount	means the Instalment Amount, the Early Redemption Amount or the Final Redemption Amount (as set forth in the Applicable Pricing Supplement)
Redemption by Instalments	means the redemption of a Note by instalments prior to its due date. Redemption by instalment does not apply to Commercial Papers under the Programme
Redemption Date	means the date upon which the Issuer undertakes a Redemption (as set forth in the Applicable Pricing Supplement).

Reference Rate	means the benchmark interest rate so specified in the Applicable Pricing Supplement for each Series or Tranche of Floating Rate Notes to be issued under the Programme
Register	means the register of the Noteholders maintained by the CSD in electronic form
Registrar	unless otherwise set out in an Applicable Pricing Supplement, means the CSD appointed as registrar for the Programme under the Agency Agreement.
Relevant Time	means the time on the Interest Determination Date, (if any) specified in the Applicable Pricing Supplement for calculating the Interest Rate and Interest payable on a Note
Reporting Accountants	means PricewaterhouseCooper GHANA, which is acting as the reporting accountants for the Programme.
SEC	means the Securities and Exchange Commission of Ghana
SEC Regulations	means the Securities and Exchange Commission Regulations, 2003 (L.I. 1728) or any statutory modification or re-enactment thereof.
Securities Industry Act	means the Securities Industry Act of Ghana, 2016 (Act 929) or any statutory modification or re-enactment thereof.
Series	means a series of Notes having one or more Issue Dates and identical terms as to the Maturity Date, Interest and Redemption (except that, among Series, the Issue Dates, Issue Price, Interest Commencement Dates, Interest Payment Dates and amounts of the first interest payment and related matters may differ)
Series Meeting	means a meeting of Noteholders of a particular Series and Series Meetings shall be construed accordingly.
Series Noteholders	means all holders of Notes under a particular Series, from time to time, and recorded as such in the Register and Series Noteholder shall be construed accordingly.
Series Notes	means the Notes under a particular Series
Special Resolution	means a resolution passed at a Series Meeting, Tranche Meeting, Joint Series Meeting or a Joint Tranche Meeting (as the case may be) duly convened and held in accordance with Condition 10.1 and the Trust Deed) by the affirmative vote of, at least, 75% of the relevant Tranche Notes, the relevant Series Notes or all Notes (as the case may be) held by the relevant Noteholders present at such Meeting.
Sponsor	means Ghana Cocoa Board or COCOBOD, acting in the capacity described in the Programme Documents.
Subscription Accounts	means the account set up with the CP Subscription Account Bank and the Bond Subscription Account Bank where all amounts raised from each Series or Tranche will be deposited until transferred to the CP Proceeds Utilization Account and Bond Proceeds Utilization Account, respectively
Taxes	has the meaning provided for in Condition 8 below.
Test Date	means, in relation to confirming the DSCR, the date falling twenty (20) Business Days immediately preceding such Repayment Date
Trailing Twelve Months or TTM	means, in relation to any date, the period of twelve consecutive calendar months ending on or immediately prior to that date, or such other twelve-month period may be expressly specified in the relevant section of this prospectus.
Tranche	means a tranche of a Series which are identical in all respects (except for Issue Date, Issue Price, tranche amount, Interest Commencement Date and amount of first Interest Payment).

Tranche Meeting	means a meeting of Noteholders of a particular Tranche, and Tranche Meetings shall be construed accordingly.
Tranche Noteholders	means all holders of Notes under a particular Tranche, from time to time, and recorded as such in the Register, and Tranche Noteholder shall be construed accordingly.
Tranche Notes	means the Notes under a particular Tranche.
Transfer Agent	unless otherwise set out in an Applicable Pricing Supplement, means the CSD, which is acting as the transfer agent for the Programme under the Agency Agreement.
Transfer Form	has the meaning provided for in Condition 2.4.1. below.
Trust Account	means the trust account set up by the Paying Agents for the receipt of all Note Repayment funds from the Debt Service Account and for disbursement of all Note Repayments to the relevant Noteholders.
Trust Deed	means the trust deed dated on or about the date of this Prospectus and entered into between the Issuer and the Note Trustees (as amended, restated and/or supplemented from time to time).
Written Resolution	means a resolution in writing signed or confirmed in writing by (or on behalf of) Tranche Noteholders, Series Noteholders or all Noteholders (as the case may be) of, at least, 75% of the outstanding aggregate of the total Principal Amount of the relevant Tranche Notes, the relevant Series Notes or all Notes (as the case may be).

1 OVERVIEW OF TRANSACTIONS UNDER THE PROGRAMME

1.1. BACKGROUND

The Issuer is a special purpose vehicle established by COCOBOD to raise funding to support COCOBOD's cocoa beans purchase programme and to refinance COCOBOD's Legacy Debt, through the issuance and listing of Notes under the Programme.

KPMG has been appointed, under the Management Services Agreement, to act as the Corporate Manager of the Issuer.

1.2. SUMMARY OF THE PROGRAMME

1.2.1. Establishment of the Programme

The Issuer has established the Programme to raise funding of up to GHS 16,300,000,000 for both Commercial Papers and Bonds to support COCOBOD's cocoa beans purchase programme and to refinance COCOBOD's Legacy Debt. See Section 2.1 (Legal Basis for Programme) below.

The Notes will be issued in one or more Series or Tranches by the Issuer under the Programme. The Notes may be Commercial Papers or Bonds, and the Bonds shall be either Floating Rate or Fixed Rate (as indicated in the Applicable Pricing Supplement). The Notes will be listed on GFIM or any other stock exchange as may be specified in an Applicable Pricing Supplement.

All Notes in a Series shall have the same maturity date and identical terms (except that the Issue Dates, Issue Price, Interest Commencement Date, amounts of the first interest payment and related matters may be different). Notes in each Series may be issued in one or more Tranches. The terms of each Tranche (save for the Issue Date, Issue Price, tranche amount, Interest Commencement Date and amount of first Interest payment) shall be identical in all respects. The Accounts for the deposit of all amounts raised from each Series or Tranche until payment details applicable to each Series and Tranche will be specified in the Applicable Pricing Supplement, which shall be submitted to the SEC for approval.

1.2.2. Use of Note Proceeds

The Issuer has entered into the Issuer Accounts Agreement with the Note Subscription Account Banks for the purpose of setting up and operating the Subscription Accounts for the deposit of all amounts raised from each Series or Tranche until payment to the CP and Bond Proceeds Utilisation Accounts.

The Issuer shall utilise the proceeds from each Series or Tranche in the following manner:

(a) first, disbursement by the CP and or Bond Proceeds Utilisation Account Bank for payment of any expenses related to the Series or Tranche or the Programme (as the case may be) (and as set out under Section 2.4 (Programme Expenses) below); and

(b) second:

(i) in the case of the CP Proceeds Utilisation Account, disbursement of the net proceeds by the CP Proceeds Utilisation Account Bank to COCOBOD for seed fund distribution to LBCs against bank guarantees and payment of delivered cocoa beans from LBCs against Cocoa Taken Over Receipts (CTORs) issued by CMC. Up to 86% of net proceeds will be applied to cocoa purchase and

(ii) in the case of the Bond Proceeds Utilisation Account, disbursement of the net proceeds by the Bond Proceeds Utilisation Account Bank directly for the redemption of

COCOBOD's Legacy Debt. Up to 14 % of net proceeds will be used to redeem COCOBOD Legacy Debt.

The details of the use of the proceeds are set out under Section 2.3 (*Use of Proceeds*) below.

1.2.3. Conditions of the Notes

Section 13 (*Conditions*) contains the terms and conditions of the Notes, which are governed by Ghanaian law. The Conditions include key terms such as the status of the Notes, mechanisms for payments under the Notes, Redemption, taxation, financial covenants, Events of Default and enforcement of the Notes.

The final Issue Price, aggregate Principal Amount and Interest and any other terms and conditions not contained in the Conditions (which are applicable to any Series or Tranche) will be agreed between the Issuer, the Joint Lead Managers and, if applicable, the relevant Dealer(s) at the time of issuance in accordance with prevailing market conditions, and will be set forth in the Applicable Pricing Supplement issued in respect of the Series or Tranches.

1.2.4. The Note Trustees

The Issuer has appointed the Note Trustees, under the Trust Deed, as trustees for the protection and enforcement of the rights of the Noteholders under the Conditions. Under certain circumstances, the Note Trustees can be required (subject to it being indemnified and/or secured to its satisfaction) by a Special Resolution or a Written Resolution to exercise its powers under the Trust Deed or if so requested in writing by Noteholders holding, at least, 51% in aggregate of the Principal Amount of the relevant Tranche Notes, the relevant Series Notes or all Notes then outstanding.

1.2.5. Sale and Subscription for the Notes

Section 11 (*Book-Entry Arrangements*) and Section 12 (*GFIM Listing Arrangements & Settlement*) sets out the details on, among others, the sale of the Notes, the application procedure and payment for the Notes, and the trading and settlement procedures for the Notes. Also see Section 14 (*Form of Application*)

1.2.6. Repayment under the Notes

All the payment terms of the Notes are contained in Section 13 (*Conditions*) and the Applicable Pricing Supplement. Also see "*Repayment*" under Section 3 (*Summary of The Programme*).

All Note Repayments will be primarily funded by Assigned Cocoa Contracts/Receivables (to be deposited in the CP and Bond Collection Escrow Accounts). Other sources of funding for payments will be any returns on investments of funds in the respective Debt Service Accounts and Bond Buffer Account, as the case may be. All amounts for such payments will be transferred from the Debt Service Accounts to the Trust Account for onward disbursements by the Paying Agents in accordance with Condition 7 (Payments).

The Paying Agents are responsible for processing and effecting all payments under the Commercial Papers and Bonds in accordance with Condition 7 (*Payments*) and the terms of the Agency Agreement. The Calculation Agent is also responsible for calculating any Interest payable under the Notes and any Interest Rate for the Floating Rate Notes in accordance with Condition 5 (*Interest*) and the terms of the Agency Agreement.

1.2.7. Financial Covenants

The Issuer shall maintain the Debt Service Coverage Ratio during each Debt Service Coverage Ratio Period and for as long as any of the Commercial Papers and Bonds remains outstanding. An Applicable Pricing Supplement may contain any additional financial covenants as may be determined by the Issuer.

1.3. UNDERLYING TRANSACTIONS

1.3.1. Assignment of Assigned Cocoa Contracts/Receivables

The Issuer, COCOBOD and CMC with consent and acknowledgement of the Note Trustees have entered into the Assignment Agreement, under which CMC, a subsidiary of COCOBD has irrevocably assigned its rights to selected cocoa contracts/receivables to the Issuer, the value of which shall at all times be a minimum of 1.2x of any amounts outstanding for any Series or Tranche issued by the Issuer.

1.3.2. Account Structure

The Issuer, the Account Banks and the Note Trustees have entered into the Issuer Accounts Agreement, under which the Issuer has appointed the Account Banks, in relation to the relevant Issuer Accounts.

The terms of the use of, and controls on, the Issuer Accounts are set out under the Issuer Accounts Agreement and summarised under "Issuer Accounts Structure" of Section 3 (*Summary of The Programme*).

1.4. PROGRAMME DOCUMENTS

The Notes are subject to the provisions of the Programme Documents. The Noteholders are bound by, and are deemed to have knowledge of, all the provisions of the Programme Documents. Copies of all the Programme Documents will be available for inspection during usual business hours at the offices of the Note Trustees and (where possible) on the website of the Issuer at https://Cocoacapitalplc.com.

2 LEGAL BASIS AND RATIONALE FOR THE PROGRAMME

2.1 LEGAL BASIS FOR THE PROGRAMME

The Programme and the listing of Notes on the GFIM have been approved by the Issuer Board by written resolutions passed on 4th September 2026.

The sole shareholder of the Issuer has also approved the Programme and the issuance and listing of Notes on GFIM by written resolution passed on 14th September 2026.

The Programme is also consistent with the powers and objects of Ghana Cocoa Board (acting as the sole shareholder and sponsor of the Issuer) under the Ghana Cocoa Board Act, 2026 (Act 1182) to provide finance for the purchase of cocoa beans.

2.2 RATIONALE FOR THE PROGRAMME

The Issuer has established the Programme to raise debt financing of up to GHS16,300,000,000 to support COCOBOD's cocoa beans purchase programme and to redeem COCOBOD's Legacy Debt (as at the date of the Prospectus) to an issuance limit which is subject to review on the basis of improved cashflows from receivables and favourable market conditions, including lower interest rates.

2.3 USE OF PROCEEDS

The proceeds from each Series or Tranche of the Notes shall be in the Commercial Paper (CP) Subscription Account or the Bond Subscription Account until all the conditions precedent (set out in the Trust Deed) have been satisfied by the Issuer and the SEC has approved the release of the funds into the CP Subscription Account or the Bond Subscription Account, whereupon the CP Subscription Account Bank or the Bond Subscription Account Bank shall transfer the funds into the CP Proceeds Utilisation Account or Bond Proceeds Utilisation Account, as applicable.

The funds in the CP and/or Bond Proceeds Utilisation Account shall be utilised in the following manner:

(a) first, disbursement by the CP and/or Bond Proceeds Utilisation Account Bank for payment of any expenses related to the Series or Tranche or the Programme (as the case may be) (and as set out under Section 2.4 (Programme Expenses) below); and

(b) second:

(i) in the case of the CP Proceeds Utilisation Account, disbursement of the net proceeds by the CP Proceeds Utilisation Account Bank to COCOBOD for seed fund distribution to LBCs against bank guarantees and payment of delivered cocoa beans from LBCs against Cocoa Taken Over Receipts (CTORs) issued by CMC. About 86% of net proceeds will be applied to cocoa bean purchases; and

(ii) in the case of the Bond Proceeds Utilisation Account, disbursement of the net proceeds by the Bond Proceeds Utilisation Account Bank directly for the redemption of COCOBOD's Legacy Debt. About 14% of net proceeds will be used to redeem COCOBOD Legacy Debt.

Use of Net Proceeds	Proportion of Net Proceeds
Redemption of COCOBOD Legacy Debt	14%
Purchase of Cocoa Beans	86%
Total	**100%**

Where the Issuer procures any bridge funding prior to the issuance of any CPs or Bonds, the proceeds of such CPs or Bonds as the case may be shall first be applied, in whole or in part, towards the repayment of such bridge funding, with any remaining proceeds thereafter applied towards the relevant use of proceeds set out above. Any such bridge funding shall be consistent with the permitted uses of proceeds under the Programme, and details thereof shall be disclosed in the relevant Applicable Pricing Supplement.

2.4 PROGRAMME EXPENSES

The expenses related to the Programme will be borne by Cocoa Capital PLC and are as follows:

No	Item	Amount in GHS	% of Programme
1.	**Advisory Fees**		
1.1	Arrangers Fees	81,500,000	0.5000%
1.2	Credit Rating Agency Fee	4,500,000	0.0276%
1.3	Legal Advisors Fee	2,000,000	0.0123%
1.4	Reporting Accountant Fee	648,300	0.0040%
1.5	Corporate Manager	2,300,000	0.0141%
	Sub Total	**90,948,300**	**0.5580%**
2.	**Regulatory Fees**		
2.1	GSE Application Fee	4,210,833	0.0258%
2.2	SEC Fee	6,712,500	0.0412%
2.3	CSD Fees	4,654,000	0.0286%
	Sub Total	**15,577,333**	**0.0956%**
3.	**Other Costs**		
3.1	Roadshow, Printing, Miscellaneous	1,000,000	0.0061%
	Sub Total	**1,000,000**	**0.0061%**
	GRAND TOTAL	**107,525,633**	**0.6597%**

3 SUMMARY OF THE PROGRAMME

The following is qualified in its entirety by the remainder of this Prospectus and, in relation to the terms and conditions of any particular Series or Tranche under an Applicable Pricing Supplement:

Factor	Summary Description
Issuer	Cocoa Capital PLC, which is issuing the Notes under the Programme. The Issuer was incorporated as a special purpose vehicle in Ghana as a public limited liability company on 7th August 2026 with registration number PL000180826 to, among others, issue debt securities for the purpose of redeeming COCOBOD Legacy Debt and for the purchase of cocoa beans. The day-to-day activities of the Issuer are managed by the Corporate Manager under the terms of the Management Services Agreement
Description	Note issuance programme to redeem the COCOBOD Legacy Debt and to purchase cocoa beans. The COCOBOD Legacy Debt have been (or will be) financed by the Issuer under the Financing Agreements. The Issuer shall repay the obligations over the duration of the Programme. See *Section 2.3* ***(Use of Proceeds)*** and "***Note Proceeds Flow Structure"*** below The Noteholders will be repaid primarily with Assigned Cocoa Contracts/Receivables. The cocoa receivables have been assigned to the Issuer by CMC, a subsidiary of the Sponsor under the Assignment Agreement. The Collections Escrow Accounts have been set up for the collection, management and disbursements of the COCOBOD Receivables in accordance with the terms of the Issuer Accounts Agreement. ***See "Transaction Structure" and "Accounts Flow Structure" below.***
Risk Factors	There are certain factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme. These are set out under Section 8 ***(Risk Factors)*** and include risks related to the Issuer, its business and the Ghanaian economy.
Programme Size	Up to GHS 16,300,000,000 maximum aggregate Principal Amount of CP and Bonds outstanding at any one time. The Issuer may increase this aggregate nominal amount of the Notes that may be issued under this Programme, subject to subject to MoF no objection and the approval of the SEC. Subject to any Applicable Laws and the relevant corporate approvals, the Issuer may, without consent of the Noteholders increase the aggregate nominal amount of the Notes that may be issued under the Programme by issuing a supplementary prospectus thereof to holders in accordance with the Conditions. Upon the issuance of such a supplementary prospectus, all references in the Prospectus or any other agreement, deed or document in relation to the Programme to the aggregate amount of the Notes, shall be and shall be deemed to be references to the increased aggregate nominal amount.
Use of Proceeds	The Issuer shall use the net proceeds from any Series or Tranche to support COCOBOD's cocoa beans purchase programme and to redeem COCOBOD's Legacy Debt. See Section 2.3 (***Use of Proceeds***).

Factor	Summary Description
Note Proceeds Flow Structure	The flow of funds in relation to any Series or Tranche will be as follows: (i) Noteholders pay the relevant consideration for the Notes into the CP Subscription Account and Bond Subscription Account and the CSD credits the relevant amount of Notes to the accounts of the Noteholders (ii) after all conditions precedent to disbursement (set out under the Trust Deed) have been met by the Issuer, the funds in Subscription Accounts will be transferred to the CP Proceeds Utilisation Account and Bond Proceeds Utilisation Account respectively. The funds in the Proceeds Utilisation Account will be utilized as follows: *first*: (i) The CP and Bond Utilisation Account Banks for the payment of any expenses related to the issuance of the Series or Tranche or the Programme ; and *second*: (i) In the case of the CP Proceeds Utilisation Account, disbursement of the net proceeds by the CP Proceeds Utilisation Account Bank to onward payment to the LBCs for cocoa beans delivered, subject to confirmation by CMC; (ii) in the case of the Bond Proceeds Utilisation Account, disbursement of the net proceeds by the Bond Proceeds Utilisation Account Bank directly for the redemption of COCOBOD's Legacy Debt.
Cocoa Receivables Flow Structure	(i) The Sponsor has irrevocably Assigned Cocoa Contracts/Receivables to the Issuer under the Assignment Agreement. The assignment is valid for as long as any amounts remain outstanding under any final Series or Tranche issued by the Issuer. (ii) Cash proceeds from the Assigned Cocoa Contracts/Receivables are transferred into the CP Collections Escrow Account and Bond Collections Escrow Account and the Operations Account (a) The Assigned Cocoa Contracts/Receivables deposited in the Collections Escrow Account shall be utilised as follows: (b) first, transfer amounts required to achieve the Debt Service Amount into the CP and Bond DSA. Payments of any Interest, Instalment Amount, Principal Amount or Redemption Amount shall be made from the Bond DSA to the trust account of the Paying Bank in accordance with Condition 7 (*Payments*). (c) *second,* transfer of net deposits of up to an amount equal to 0.2x the Debt Service Amount into the Bond Buffer Account after the relevant transfers to the CP DSA and Bond DSA (d) *third*, transfer of a maximum of 0.1296% of the deposits to the Operations Account for the Issuer's administrative expenses

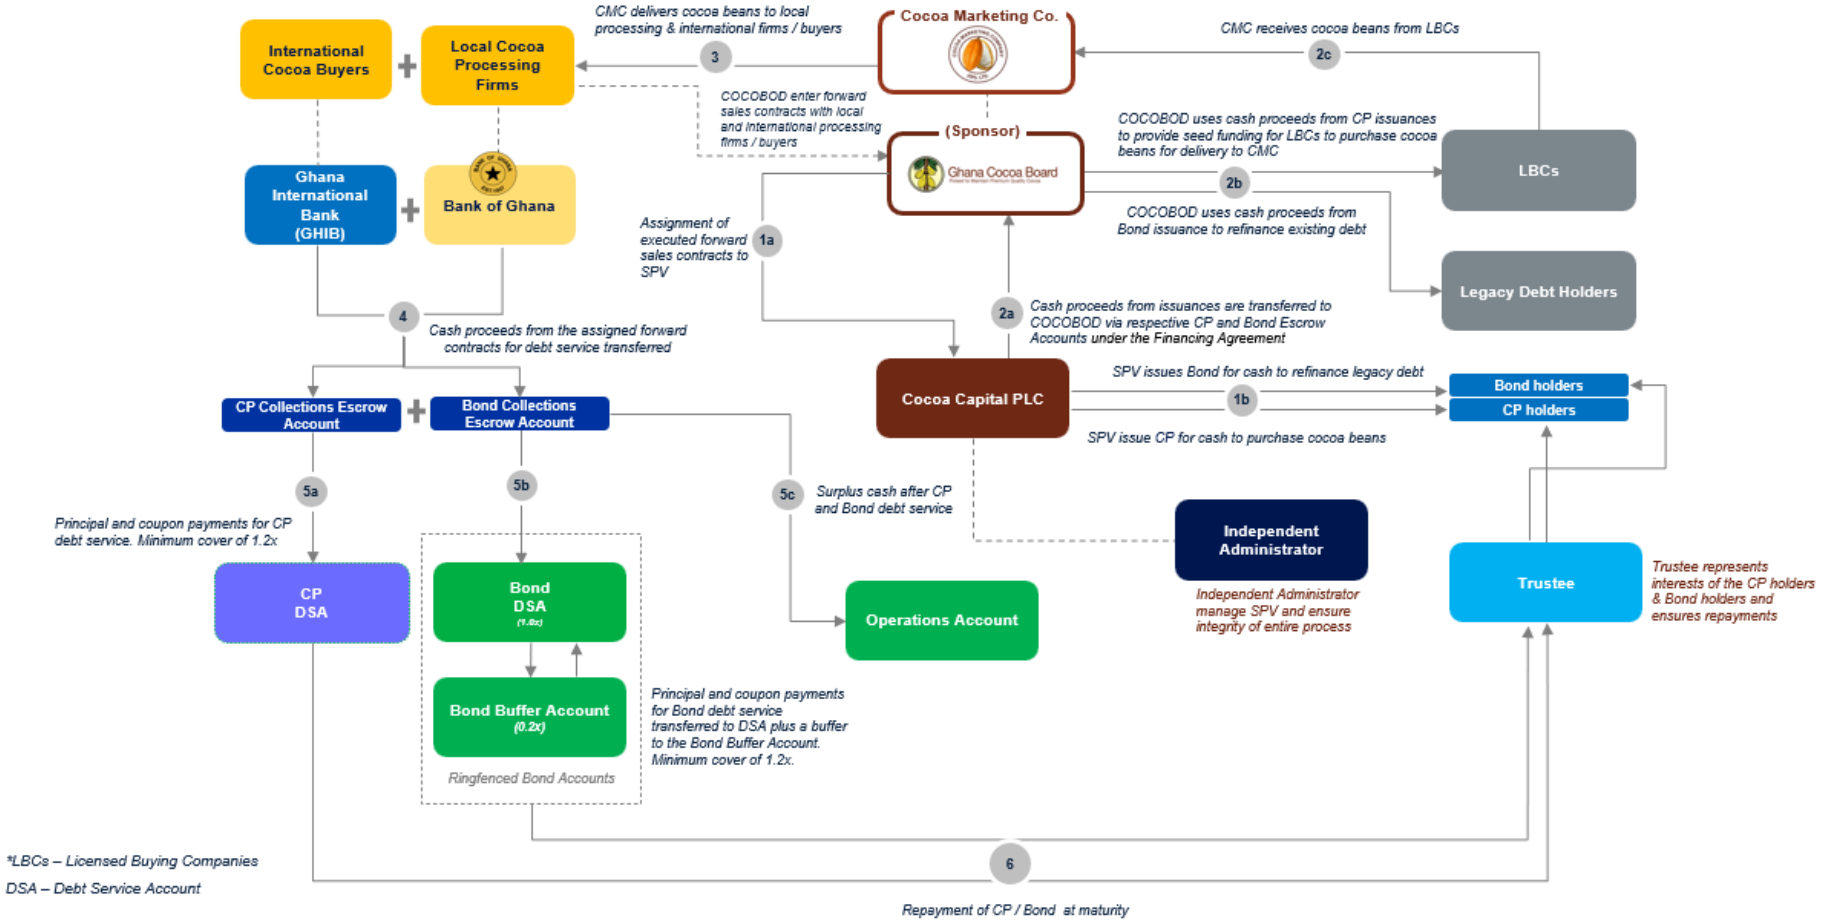

Factor	Summary Description
Issuer Accounts Structure	As long as any Note remains outstanding, the Issuer shall keep and maintain the following Issuer Accounts in accordance with the Issue Accounts Agreements: (i) **the Collections Escrow Account** – for the receipt of the Assigned Cocoa Contracts/Receivables into CP Collections Escrow Account and Bond Collections Escrow Account. (ii) **the Debt Service Account** – during the DSA Funding Period, the Debt Service Account will be funded from (A) the Collections Escrow Account to satisfy the relevant Debt Service Amount, and (B) returns from the permitted investments of the funds in the Debt Service Account (iii) **the Bond Buffer Account** – will be funded from the residue of the deposits in the Collections Escrow Account after transfers have been made into the Debt Service Account (during any DSA Funding Period, where necessary) up to an amount equal to 0.2x the Debt Service Amount (iv) **the Operations Account** – for the retention of up to 0.1296% of the outstanding Notes for the Issuer's administrative expenses will be funded after the Debt Service Accounts. (v) **Investments – CP DSA and Bond DSA** The CP DSA Bank and the Bond DSA Bank are authorised by the Issuer to invest the funds that exceed the amount required for the next due CP and Bond Repayment in the permitted investments as defined under the Issuer Accounts Agreement (which include treasury bills of the Government of Ghana with no more than 6 months maturity period and repurchase agreements backed by GoG Securities) under the terms of the Issuer Accounts Agreement. The CP DSA Bank and the Bond DSA Bank are not permitted to make any losses on the permitted investments and so cannot sell any investment either before maturity or below the relevant par value. The Debt Service Account Bank can only sell before maturity or below par if instructed by the Issuer for purposes of satisfying a Debt Service Shortfall. (vi) **Investments – Bond Buffer Account** The Bond Buffer Bank is authorised by the Issuer to invest the funds in the permitted investments as defined under the Issuer Accounts Agreement (which include treasury bills of the Government of Ghana with no more than 6 months maturity period and repurchase agreements backed by GoG Securities) under the terms of the Issuer Accounts Agreement. The Bond Buffer Account Bank is not permitted to make any losses on the permitted investments and so cannot sell any investment either before maturity or below the relevant par value. The Buffer Account Bank can only sell before maturity or below par if instructed by the Issuer for purposes of satisfying a Debt Service Shortfall. The Issuer shall have no accounts other than the Issuer Accounts in accordance with the terms of the Issuer Accounts Agreement and this Prospectus

Factor	Summary Description
Debt Service Coverage Ratio	The Issuer is required to maintain the Debt Service Coverage Ratio at all times and for as long as any of the CPs and Bonds remains outstanding
Repayment	(i) Payment of Interest, Principal Amount, Instalment Amount, Redemption Amount (or any other payments under the Notes) will be paid on the relevant Interest Payment Date, Instalment Amount or Redemption Date (ii) All such repayments will be primarily funded by Cocoa Receivables. Other sources of funding for payments will be any returns on investments of funds in the Bond Buffer Account (iii) The disbursements for repayments will be made from the CP DSA and Bond DSA, as the case may be, by the CP DSA Bank and Bond DSA Bank to the trust account of the Paying Bank from the 14th calendar day before any Interest Payment Date, Instalment Amount or Redemption Date. The Paying Bank will then make onward disbursements to Noteholders in accordance with Condition 7 (*Payments*) In the event of any Debt Service Shortfall, the Debt Service Unfunded Amount can be transferred from the Bond Buffer Account upon the instructions of the Corporate Manager.
Issue Price	Notes may be issued at an issue price on a fully paid basis or discounted basis as specified in the Applicable Pricing Supplement. The price and amount to be issued by the Issuer, at any time, will be determined by Issuer and the relevant transaction parties at the time of issue in accordance with prevailing market conditions at time of issue
Currency of Notes	GHS or any foreign currency as may be specified in the Applicable Pricing Supplement. The primary currency of the Notes shall be GHS. The Issuer may, however, issue Notes denominated in any foreign currency subject to the receipt of all necessary regulatory approvals from the Bank of Ghana and compliance with conditions under the foreign exchange laws of Ghana Each Series or Tranche denominated in a currency subject to certain Applicable Laws will only be issued in circumstances which comply with such Applicable Laws from time to time
Denomination of Notes	The Notes may be issued in such denominations as may be agreed between the Issuer and the relevant Dealer(s) and as specified in the Applicable Pricing Supplement or such other minimum denomination of each as may be allowed or required from time to time by the SEC or any Applicable Laws
Status of Notes	The Notes will be Senior Notes and shall be Fixed Rate Notes or Floating Rate Notes (as indicated in the Applicable Pricing Supplement). See Condition 3 of the Conditions
Fixed Rate Notes	Fixed interest will be payable on such date or dates as specified in the Applicable Pricing Supplement and, on redemption, will be calculated on the basis of such Day Count Fraction as specified in the Applicable Pricing Supplement

Factor	Summary Description
Floating Rate Notes	Floating Rate Notes will bear interest at a rate determined on the basis of a Reference Rate or benchmark and as adjusted for any applicable margin, or as may be agreed among the Issuer, the Managers and the relevant parties and specified in the Applicable Pricing Supplement The margin (if any) relating to such floating rate will be specified in the Applicable Pricing Supplement for each Series or Tranche of Floating Rate Notes. Floating Rate Notes may also have a Maximum Interest Rate, a Minimum Interest Rate or both Interest on Floating Rate Notes in respect of each Interest Period will be payable on such Interest Payment Dates, and will be calculated on the basis of such Day Count Fraction, as specified in the Applicable Pricing Supplement
Amortised Note	Principal is repaid in instalments over the tenor of the note as specified in the APS. Interest and principal will be payable on such dates as specified in the Applicable Pricing Supplement
Form and Delivery of Notes	The Notes shall be in registered form and held electronically on the Central Securities Depository
Register	The Register will be maintained electronically in a book entry form on the Central Securities Depository System The Register will be held and updated by the CSD, which shall record each Series and Tranche, the number of Notes in each Series and Tranche held by each Noteholder and the names and addresses and bank account details of each Noteholder
Distribution of Notes	Subject to Applicable Laws, the Notes may be distributed by way of private placement or public offer and, in each case, on a syndicated or non-syndicated basis
Selling Restrictions	The Notes will be marketed and sold primarily in Ghana. Notes that will be marketed and/or sold outside of Ghana will be specified in the Applicable Pricing Supplement and the Issuer and the Dealers shall comply with the Applicable Laws. For a description of certain restrictions on offers, sales and deliveries of Notes and on distribution of offering material, see Section 15 (*Subscription and Sale Information*) below
Listing	Notes issued under the Programme will be listed on the GFIM or any other stock exchange as may specified in an Applicable Pricing Supplement Trading in the Notes is subject to the trading, clearing and settlement rules of the GFIM or relevant stock exchange specified in an Applicable Pricing Supplement
Rating	The Issuer has been assigned a rating of "A" from Beacon Rating Agency. Pursuant to the GSE Commercial Paper Issuance & Admission Rules, either the Issuer or the specific issue itself/programme shall be rated by a rating agency registered, licensed or authorised by the SEC. Details of any subsequent ratings applicable to a particular Series or Tranche will be set out in the Applicable Pricing Supplement. Credit ratings assigned to Notes do not necessarily mean that the Notes are a suitable investment. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time by the rating agency. Similar ratings on different types of Notes do not necessarily mean the same thing. The ratings do not address the marketability of any Notes or any market price. Any change in the credit ratings of Notes or the Issuer could adversely affect the prices that a subsequent purchaser will be willing to pay for the Notes. The significance of each rating should be analysed independently from any other rating
Negative Pledge	See Condition 4 of the Conditions

Factor	Summary Description
Book Closure Period	The Register will be closed 5 Business Days prior to each Interest Payment Date each year until the Redemption Date or for such other periods as the Issuer may determine, subject to the prior approval of the SEC
Last Day to Register	17:00 GMT on the last Business Day before the first day of a Closure Period
Interest Payment Date	The date of payment of interest on a Note (as set out in the Applicable Pricing Supplement)
Interest Periods	May be monthly, quarterly, semi-annually or such other periods deemed appropriate and as set out in Applicable Pricing Supplement
Redemption	The Bonds shall be subject to Early Redemption or Optional Redemption and, as stated in the Applicable Pricing Supplement, be redeemed in whole or in part, at the Principal Amount thereof plus accrued Interest, if any, at the relevant Maturity Date
Taxation	The Issuer is a Ghana resident for tax purposes. All payments of principal and interest in respect of the Notes will be made in compliance with income tax laws of Ghana. Currently, the Issuer is required by the Income Tax Act to withhold tax at the rate of 8% on all interest payments to Noteholders, except where the Noteholders are exempted by Applicable Law. Noteholders are advised to seek professional tax advice concerning their specific tax obligations relating to investing in the Notes
Events of Default	Events of Default in respect of the Notes include, but are not limited to, the events set out in Condition 17 of the Conditions
Maturity	The maturity of the Notes shall be specified in the Applicable Pricing Supplement in accordance with such minimum or maximum maturities as may be allowed or required from time to time by the SEC (or equivalent body) or any Applicable Laws
Programme Expiry	The Programme will expire 5 years from the date of this Prospectus. All Notes issued prior to the expiry of the Programme will be valid and remain contractual obligations of the Issuer after expiration
Lead Note Trustee	CAL
Co-Note Trustee	GCB
Commercial Paper Subscription Account	Stanbic
Bond Subscription Account	CalBank
Commercial Paper Proceeds Utilization Account	GCB
Bond Proceeds Utilization Account	GCB
Commercial Paper Collections Escrow Account	GCB
Bond Collections Escrow Account	GCB
Commercial Paper DSA	Stanbic
Bond DSA	Absa
Bond Buffer Account	GCB
Operations Account	Absa
Cost and Expense of the Programme	The total cost and expense of the Programme is not expected to exceed 1% of the total proceeds of the Notes. The Issuer will bear all costs relating to the Programme. The cost of the Programme is summarised under Section 2.4 (***Programme Expense***)

Transaction Structure

Structure Process Flow

1a. CMC assigns selected cocoa contracts (from Blue Chip Buyers) and the related receivables to Cocoa Capital PLC through a legally enforceable Assignment Agreement between COCOBOD, Cocoa Capital PLC and CMC.

1b.

- Cocoa Capital PLC issues CPs and Bonds to investors for the purchase of cocoa beans and refinancing of existing debt obligations respectively
- Investors subscribe to the CPs /Bonds and provide cash to the Issuer in exchange

2a. The cash proceeds from the CP and Bond issuances are first domiciled in a receiving escrow account and subsequently transferred to Cocoa Capital PLC after SEC approval of offer report

2b. Pursuant to the Financing Agreement dated on/about the date of this Prospectus:

- Net cash proceeds from CP issuances are transferred to COCOBOD for (i) Seed Fund Distribution to LBCs against Bank Guarantees from qualified LBCs; and (ii) for onward payment of delivered cocoa beans from LBCs against Cocoa Taken Over Receipts (CTORs) issued by CMC
- Net cash proceeds from Bond issuances are transferred to COCOBOD through a Financing Agreement for onward payment of Legacy Debt

2c. CMC takes receipt of cocoa beans from LBCs

3. CMC ships purchased cocoa beans to local & international processing firms / buyers

4. Cash proceeds from the Assigned Cocoa Contracts/Receivables (from Ghana International Bank and Bank of Ghana) are paid into a dedicated Collections Escrow Account to cater for debt service for both CPs and Bonds

5a Amounts required to meet CP obligations are transferred from the CP Collections Escrow Account into the CP Debt Service Account (CP DSA). Cocoa Capital PLC will maintain a minimum Debt Service Coverage Ratio (DSCR) of 1.2x, providing an additional layer of investor protection and payment certainty

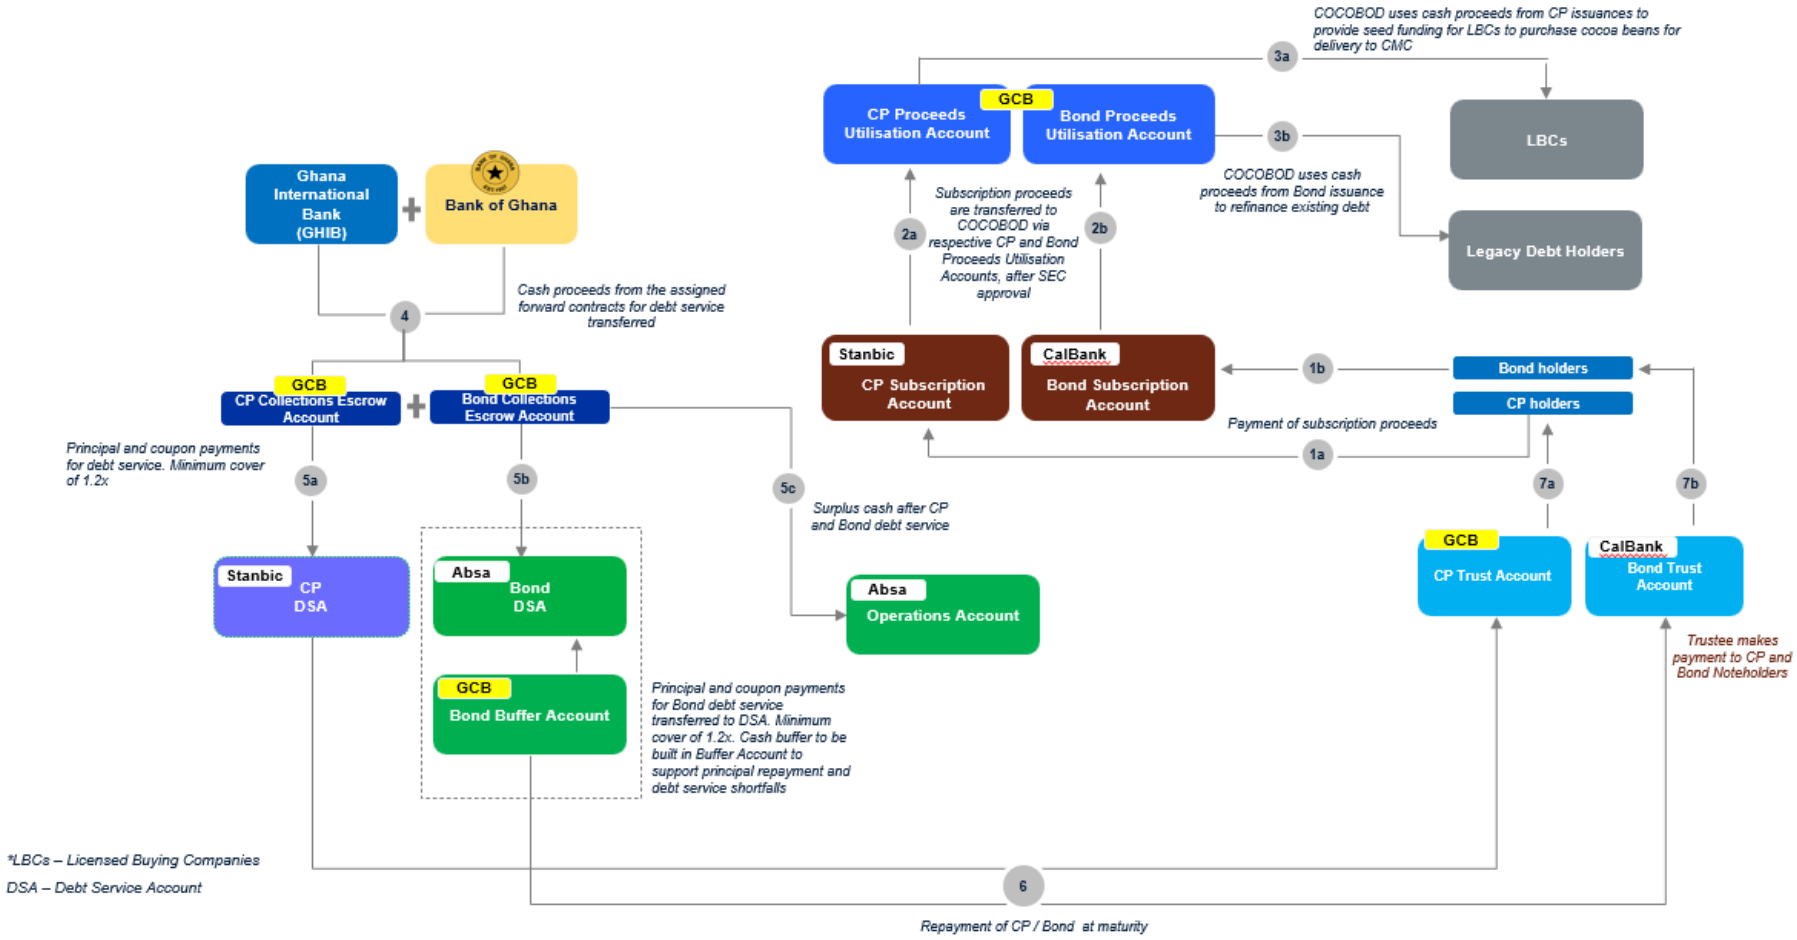

5b

- Amounts required to meet scheduled Bond obligations are transferred from the Bond Collections Escrow Account into the Bond Debt Service Account (Bond DSA) and Bond Buffer Account. Cocoa Capital PLC will maintain a minimum Debt Service Coverage Ratio (DSCR) of 1.2x in respect of both accounts
- The Bond DSA will be funded with 1.0x of the required annual Debt Service Amount i.e. two coupon payments plus the amortisation amount of the principal due. The Bond Buffer Account will be funded with 0.2x of the Debt Service Amount

5c After all debt service obligations have been met and subject to the consent of the Lead Note Trustee and Co-NoteTrustee, any remaining surplus cash in the CP DSA and CP and Bond Collections Escrow Accounts is transferred to the Operations Account of Cocoa Capital PLC for onward transfer to COCOBOD.

6 At maturity, funds accumulated in the CP DSA & Bond DSA are used to repay the principal and interest due to the CP holders and Bond holders respectively.

Account Bank Flow Structure

Account Process Flow

1. Subscription of Notes

Investors subscribe separately to the Commercial Paper (CP) and Bonds.

- Subscription proceeds for the CPs are credited into the CP Subscription Account (CP SA).
- Subscription proceeds for the Bonds are credited into the Bond Subscription Account (Bond SA).

2. Release of Subscription Proceeds

Following SEC approval and satisfaction of all Conditions Precedent:

- proceeds in the CP Subscription Account are transferred to the CP Proceeds Utilisation Account; and
- proceeds in the Bond Subscription Account are transferred to the Bond Proceeds Utilisation Account.

3. Application of Proceeds

Funds in the respective Proceeds Utilisation Accounts are first applied towards approved transaction expenses. The remaining net proceeds are then transferred to COCOBOD to be applied towards:

- Seed Fund Distribution to LBCs against Bank Guarantees from qualified LBCs
- Payment of delivered cocoa beans from LBCs against Cocoa Taken Over Receipts (CTORs) issued by CMC
- Payment of Legacy Debt

4. Collection of Assigned Receivables

Assigned related receivables arising from the selected executed forward contracts are credited into the Collection Escrow Account, which serves as the primary account through which transaction collections are received and applied.

5a Funding of the CP Debt Service Account

Receivables designated to CP debt service are applied to fund the CP Debt Service Account (CP DSA) to meet scheduled interest and principal obligations, maintaining a minimum debt service coverage ratio of 1.2x.

5b **Funding of the Bond Debt Service Account and Bond Buffer Account**

- Receivables designated to Bond debt service are applied to fund the Bond Debt Service Account (Bond DSA) and Bond Buffer Account to meet scheduled interest and principal obligations while maintaining a minimum Debt Service Coverage Ratio of 1.2x in respect of both accounts
- The Bond DSA will be funded with 1.0x of the required Debt Service Amount i.e. two coupon payments plus the amortization amount of the principal due. The Bond Buffer Account will be funded with 0.2x of the Debt Service Amount
- Where required, funds in the Bond Buffer Account may be utilised to support the Bond DSA in the event of a debt service shortfall

5c **Release of Excess Funds**

Following satisfaction of all applicable debt service obligations and maintenance of the required reserve balances, surplus collections are transferred to the Operations Account for onward release to COCOBOD, subject to the Trustees' approval.

6 **Transfer to Trust Accounts**

Funds are transferred from the respective CP Debt Service Account and Bond Debt Service Account to the corresponding CP Trust Account and Bond Trust Account prior to each applicable Payment Date, in accordance with the Transaction Documents.

7a & 7b **Payment to CP and Bond holders**

On each Payment Date, the Trustees makes payment of the scheduled interest and principal to the CP Noteholders and Bondholders from the respective CP Trust Account and Bond Trust Account on behalf of Cocoa Capital PLC.

4 INCORPORATION OF DOCUMENTS BY REFERENCE

4.1. INCORPORATED DOCUMENTS

The following documents are incorporated by reference and form part of the Prospectus. The content of these documents shall, where appropriate, modify and supersede the contents of this Prospectus:

(a) all supplements to the Prospectus circulated or published by the Issuer from time to time;
(b) the Trust Deed;
(c) the Agency Agreement;
(d) the Issuer Accounts Agreement;
(e) Escrow Account Agreement;
(f) the Assignment Agreement;
(g) the Management Services Agreement;
(h) each Financing Agreement;
(i) each Applicable Pricing Supplement relating to any Series or Tranche issued or published under this Prospectus;
(j) the report of the Rating Agency
(k) the report of the Reporting Accountants dated 31st August 2026; and
(l) the audited Statement of Affairs of the Issuer.

4.2. DOCUMENTS FOR INSPECTION

As long as any Notes are outstanding, certified copies of the following documents will be available for inspection by Noteholders, on request, at the principal place of business of the Corporate Manager or the offices of the Note Trustees on Business Days and during normal business hours:

(a) the Issuer Constitution and the incorporation documents of the Issuer;
(b) the board and shareholder resolutions of the Issuer approving the Programme;
(c) the Prospectus;
(d) the most recently published audited annual financial statements of the Issuer and the most recently published unaudited interim financial;
(e) the annual reports of COCOBOD (covering 2021 to 2024) already provided to the Issuer by COCOBOD and each subsequent annual report of COCOBOD (including the report for 2025) as and when provided to the Issuer by COCOBOD;
(f) the Global Note Certificate for each Series or Tranche held by the Note Trustees on behalf of Noteholders; and/or;
(g) any document listed under Section 4.1 (Incorporated Documents) above;

5 OVERVIEW OF GHANA

5.1. GENERAL OVERVIEW

The macroeconomic trajectory of Ghana has been influenced and shaped by a multiplicity of factors. The country recorded major challenges over the past decade which included rising public debt, price volatility, high inflation and energy crises which exposed the economy to shocks. These setbacks were triggered by the COVID-19 pandemic which eventually caused the GDP growth of the country to drastically fall to 0.5% in 2020 from 6.5% in 2019. However, the economy began to recover in 2021 with GDP growth increasing to 5.4% against the Government's revised target of 4.4%.

In July 2022, the Government of Ghana formally announced its decision to seek a financial bailout from the International Monetary Fund (IMF). As part of the conditions for the 3-year USD 3 billion bailout, Ghana was required to restructure its public debt to create fiscal space and reduce the debt burden. In December 2022, Ghana launched a Domestic Debt Exchange Program (DDEP) as part of broader efforts to achieve debt sustainability. The program involved exchanging existing domestic bonds for longer-tenor bonds with lower interest rates. The DDEP, which was completed in February 2023, resulted in a significant reduction in domestic debt service costs. In addition to the domestic exchange, Ghana entered into negotiations with external creditors to restructure its foreign debt. Ghana continues to make steady progress in meeting its obligations under the DDEP. In February 2026, the government paid GHS10 billion in interest to holders of restructured domestic bonds, marking the sixth coupon settlement under the programme and the second consecutive settlement paid fully in cash, without a payment-in-kind component.

The economy maintained its strong momentum in early 2026, expanding by 6.4% year-on-year in the first quarter, compared with 5.8% in the fourth quarter of 2025. Growth was broad-based: industry expanded by 6.9%, supported by a rebound in mining and quarrying and resilient manufacturing activity, while the services sector grew by 7.1%, driven by retail trade, information and communications technology, and transport.

In May 2026, Ghana reached a staff-level agreement with the IMF on the sixth and final review of its USD3 billion Extended Credit Facility programme. The IMF reported that the programme had delivered substantial macroeconomic stabilisation, including significantly lower inflation, stronger international reserves, improved confidence in the Ghana Cedi and progress in restoring debt sustainability.

Ghana's fiscal and debt dynamics have also improved, with a fiscal deficit of 0.4% of GDP in the first half of 2026, following lower-than-expected government expenditure and improved revenue collection in the first quarter. Public debt declined significantly from 61.6% of GDP at the end of 2024 to 44.7% by the end of 2025, supported by contained fiscal deficits, primary surpluses and sustained nominal GDP growth. Continued IMF oversight under the non-financing Policy Coordination Instrument post the successful closure of the Extended Credit Facility, enhanced revenue mobilisation and favourable domestic financing conditions, should help preserve these gains. However, energy-sector liabilities and potential fiscal slippages remain important risks.

Looking ahead, the sustained growth momentum is expected to support continued monetary easing, stronger private sector activity, and gradual restoration of investor confidence, barring external shocks.

5.2. POLITICAL BACKGROUND

For more than three decades, the Republic of Ghana has maintained a strong record of political stability, democratic governance and adherence to the rule of law, providing a stable and predictable environment for economic activity and investment. Ghana's political and institutional framework is founded on the 1992 Constitution, which established the Fourth Republic and

defined the country as a unitary republic. Since the Constitution came into force, Ghana has maintained constitutional governance, conducted regular elections and experienced peaceful transfers of political power. The country's system of government draws on features of both the Westminster and United States models and is organised around three distinct branches: the Executive, the Legislature and the Judiciary. Their respective powers are governed by constitutional checks and balances designed to support accountability and institutional stability.

5.3. HISTORICAL ECONOMIC PERFORMANCE

Ghana's economic development has historically been closely linked to agriculture and the export of primary commodities, particularly cocoa, gold and timber. For much of the post-independence period, changes in the prices and production volumes of these commodities significantly influenced economic growth, export earnings, fiscal revenues and foreign-exchange availability. This structure supported periods of strong expansion during commodity booms but also left the economy vulnerable to adverse movements in global prices and disruptions to domestic production.

Cocoa has played a particularly important role in Ghana's economic development. Ghana was the world's largest cocoa producer in the early 1960s, producing approximately 450,000 tonnes annually. Production subsequently declined and reached a low of about 159,000 tonnes during the 1983/84 crop season, reflecting the effects of drought, bushfires, ageing farms and weak producer incentives[1]. Output later recovered following improvements in producer prices, farming practices, extension services and government support. Nevertheless, the cocoa industry remains exposed to weather-related shocks, ageing trees, disease, smuggling and price volatility. These vulnerabilities continue to have implications for agricultural growth and foreign-exchange earnings.

A major turning point in Ghana's economic history occurred in 1983 with the introduction of the Economic Recovery Programme, supported by the International Monetary Fund and the World Bank. The programme was implemented in response to severe macroeconomic instability, including inflation above 100%, persistent fiscal and external imbalances and declining economic output. The reforms included exchange-rate liberalisation, fiscal adjustment, trade reforms, the restructuring of state-owned enterprises and measures intended to restore incentives for agricultural and industrial production.

Economic activity expanded more consistently during the 1990s and 2000s, supported by structural reforms, increased private-sector participation, greater political stability and generally favourable commodity prices. Another significant structural change followed the discovery of commercially viable oil and gas reserves in 2007 and the commencement of production from the Jubilee Field in December 2010. Crude oil production increased from approximately 23.8 million barrels in 2011 to a peak of about 71.4 million barrels in 2019, supported by production from the Jubilee, TEN and Sankofa fields.[2] The commencement of oil production contributed to real GDP growth of approximately 14% in 2011, one of the highest growth rates recorded globally at the time.

Oil production has weakened since its 2019 peak, limiting the sector's contribution to economic expansion and export growth. Ghana's recent economic performance has consequently become increasingly dependent on non-oil activities, including services, agriculture, manufacturing and gold mining. A modest recovery in crude oil production is expected from new Jubilee Field wells in 2026, while export growth in 2027 may be moderated by subdued oil output and near-term

[1] Source: *Ministry of Finance (2026 Mid-Year Fiscal Policy Review and Debt Management Reports);*
[2] *Ministry of Finance 2020 annual report on the petroleum funds., IMF Report Nov 2000: IV Cocoa Reforms:*

constraints on cocoa production, partly offset by continued growth in gold and other non-oil exports. Gold production, by contrast, is expected to remain strong, supported by high international prices and the formalisation of parts of the small-scale mining industry.

The structure of Ghana's economy has also changed substantially over time. Agriculture, which once dominated national output, has gradually been overtaken by the services sector. Services growth has recently been supported by wholesale and retail trade, information and communication technology, transport, finance and other market-based activities. In the first quarter of 2026, services expanded by 7.1% year on year, while industrial-sector growth accelerated to 6.9%, driven principally by a rebound in mining and quarrying and resilient manufacturing activity. Primary-sector growth slowed to 3.8%, reflecting softer activity in cocoa and fishing. These developments have reinforced the economy's gradual transition towards services and industry. However, the composition of Ghana's exports remains concentrated in gold, cocoa and oil, leaving external performance vulnerable to commodity prices, production levels and climate-related conditions.

Over the longer term, Ghana's growth prospects remain positive. According to Fitch[3], average annual real GDP is forecasted to grow by approximately 4.6% over 2026–2035, supported by a young and expanding labour force, urbanisation, private consumption and continued growth in finance and ICT.

5.4. MONETARY & FISCAL DEVELOPMENTS

5.4.1. Inflation

Inflation increased sharply during the early stages of the COVID-19 pandemic. In April 2020, headline inflation rose to 10.6%, partly reflecting panic buying and stockpiling ahead of the three-week lockdown. Food inflation increased to 14.4% from 8.4% in March 2020 as supply disruptions and heightened demand placed upward pressure on prices.

Following the initial pandemic-related increase, consumer price inflation declined into 2021 and reached 7.5% in May. The moderation was supported by favourable base effects and the prevailing monetary policy stance. Inflation subsequently rose during the second half of 2021 as exchange-rate pressures, rising fuel prices and higher transport costs intensified.

Price pressures worsened substantially in 2022. The Russia-Ukraine conflict disrupted international supply chains and contributed to higher global food, fuel and fertiliser prices. Domestic pressures were amplified by the sharp depreciation of the Ghana Cedi, fiscal and debt concerns and declining investor confidence. Headline inflation increased from 12.6% in December 2021 to 29.8% in June 2022 and 31.7% in July.

Inflation continued rising during the second half of 2022, reaching 50.3% in November and peaking at 54.1% in December. The increase significantly weakened household purchasing power, raised operating costs for businesses and contributed to a substantial tightening of monetary policy. BOG responded through policy-rate increases and measures intended to absorb excess liquidity and stabilise inflation expectations.

Inflation moderated during 2023 as monetary conditions tightened, the rate of currency depreciation slowed, and favourable base effects emerged. The downward trend continued into the first half of 2024, with headline inflation falling to 20.9% in July. However, price pressures subsequently strengthened, and year-end inflation rose to 23.8% in December 2024.

The disinflation process accelerated significantly in 2025. Year-on-year inflation declined for 12 consecutive months, reaching 5.4% in December from 6.3% in November. This improvement

[3] BMI, *Ghana Country Risk Report: Quarterly Report, Forecasts to 2035* (Fitch Solutions Group Limited, June 2026

reflected tight monetary policy, fiscal consolidation, easing external price pressures and the strong appreciation of the Ghana Cedi.

Headline inflation continued to decline during the first quarter of 2026, falling from 3.8% in January to 3.3% in February and 3.2% in March. However, this downward trend began to reverse during the second quarter. Inflation increased modestly to 5.3% in June 2026 as some of the favourable effects of the Ghana Cedi's earlier appreciation began to fade. The trend moderated in July, with headline inflation declining to 4.6%, indicating a renewed easing in price pressures. That easing proved short-lived, however, as headline inflation rose to 5.0% in August, an increase of 0.4%. The increase was driven mainly by non-food items, which climbed to 6.8% and accounted for 70.9% of overall inflation.

5.4.2. Monetary Policy

In response to mounting inflationary and exchange-rate pressures, the Bank of Ghana raised the Monetary Policy Rate by 100 basis points, from 13.5% to 14.5% in November 2021. This was the first policy-rate increase since 2015 and marked a shift away from the accommodative stance adopted during the earlier stages of the pandemic.

The tightening cycle accelerated in 2022. In March, the Bank raised the policy rate by 250 basis points after inflation reached 15.7% in February, well above the medium-term target band of 8% ± 2%. As inflation increased to 23.6% in April and the Ghana Cedi came under greater depreciation pressure, the policy rate was raised to 19.0% in May. It was subsequently increased to 22.0% in August, following the rise in inflation to 31.7% in July.

The Bank of Ghana ("BOG") adopted an increasingly restrictive stance during the remainder of 2022 and early 2023 as inflation and currency pressures intensified. Following the peak in inflation at 54.1% in December 2022, the policy rate was increased to 28.0% in January 2023. A further increase brought the rate to 29.5% in March, despite early signs that inflation had begun to moderate. The policy rate was later raised to 30.0% and maintained at that level between July and December 2023.

As inflationary pressures eased, BOG began a cautious monetary easing cycle. The policy rate was reduced by 100 basis points to 29.0% in January 2024 and by a further 200 basis points to 27.0% in September. Policy easing accelerated during 2025 as inflation declined, the Ghana Cedi strengthened and macroeconomic conditions stabilised. By December 2025, the Monetary Policy Rate had fallen to 18.0%, representing a cumulative reduction of 900 basis points from its December 2024 level.

BOG continued reducing the policy rate in early 2026. It lowered the rate by 150 basis points to 14.0% on 18 March 2026, from 15.5% in February. The reduction was supported by inflation remaining below the central bank's medium-term target band and by the improved macroeconomic environment.

At its 20 May 2026 meeting, however, BOG maintained the policy rate at 14.0%, effectively pausing the easing cycle. It also increased the dynamic Cash Reserve Ratio to 20%, signalling a somewhat more cautious stance towards liquidity and emerging inflation risks. By that point, BOG had implemented a cumulative 1,400 basis points of policy-rate reductions since mid-2025.

Continued strength in Ghana's external buffers may help contain exchange-rate and inflation pressures. High gold prices and strong international reserves provide the central bank with capacity to supply foreign exchange when the Ghana Cedi approaches the weaker end of this range. However, policymakers are also expected to resist excessive appreciation to preserve export competitiveness.

Overall, Ghana's monetary policy has moved from aggressive tightening during the 2022–2023 inflation crisis to substantial easing during 2024–2026. The current pause of the policy rate at

14.0% reflects the need to balance improved inflation conditions against the risk of renewed domestic and external price pressures.

5.4.3. Exchange Rate

The Ghanaian Cedi's performance between 2021 and 2026 was shaped by changing domestic economic conditions and developments in the global economy. In 2021, the currency remained relatively stable, depreciating moderately against major international currencies, particularly the US dollar. This stability was largely supported by sustained foreign direct investment inflows and remittances, which strengthened Ghana's foreign exchange reserves. However, pressure on the currency intensified during the second half of the year as global supply chain disruptions and rising commodity prices increased demand for foreign currency. Renewed concerns about Ghana's fiscal position also prompted foreign portfolio outflows, further weakening the Ghana Cedi. Consequently, the GHS recorded a full-year depreciation of 4.09% against the US dollar.

Conditions deteriorated considerably in 2022, placing the Ghana Cedi under severe pressure. The global economic environment weakened following the Russia-Ukraine war, which triggered sharp increases in energy and food prices. These external pressures, combined with Ghana's widening fiscal deficit and rising public debt, resulted in a significant depreciation of the currency. By the end of 2022, the GHS had lost more than 30% of its value against the US dollar, making it one of the world's worst-performing currencies during the year. In response, BOG introduced aggressive monetary policy measures, including substantial increases in the Monetary Policy Rate, to contain inflationary pressures and stabilise the currency.

The performance of the GHS improved during 2023 and throughout 2024, although underlying challenges persisted. The Government's debt restructuring initiatives, including the completion of the Domestic Debt Exchange Programme, helped restore a degree of macroeconomic stability. These measures, together with a more favourable global economic environment, contributed to a moderation in the pace of depreciation. The Ghana Cedi subsequently strengthened somewhat from a yearly low of approximately GHS 16.3 to the US dollar, ending 2024 at GHS 14.7.

In 2025, the GHS recorded its first annual appreciation against all major trading currencies in several years. As of 31 December 2025, the Ghana Cedi had appreciated by 40.7% against the US dollar, 30.9% against the British pound, and 24.0% against the euro. This represented a significant turnaround from the corresponding depreciations of 19.2%, 17.8%, and 13.7% respectively, recorded in 2024. The strong performance was supported by improved export receipts, tighter fiscal discipline under the IMF-supported programme, a strengthened foreign reserve position, and interventions by BOG.

During the first quarter of 2026, the Ghanaian cedi recorded a moderate depreciation against its major trading currencies, including the US dollar, euro, and pound sterling. Nevertheless, the currency continued to benefit from improving macroeconomic conditions, including declining inflation, a prudent monetary policy stance, and stronger external buffers. Despite these improvements, the exchange rate remained vulnerable to external shocks, shifts in global risk sentiments, commodity price fluctuations, and changes in international capital flows.

During the second quarter of 2026, the Ghana cedi experienced moderate depreciation against the US dollar, although it recovered part of its losses toward the end of the period. Bank of Ghana data show that the end-period interbank exchange rate moved from GHS10.9980 per US dollar at the end of March to GHS11.1900 in April and GHS11.7300 in May, before improving to GHS11.3500 at the end of June. This represented an overall depreciation of approximately 3.2% during the quarter. On a monthly-average basis, the exchange rate was GHS11.0664 in April, GHS11.4498 in May and GHS11.4068 in June, resulting in a second-quarter average of approximately GHS11.3077. The end-June recovery indicates that, despite foreign-exchange pressures during

the quarter, improved market conditions and stronger external buffers provided some support to the Ghana Cedi.

Table 1 – GHS performance trend

	2019	2020	2021	2022	2023	2024	2025	July 2026 [4]

5.4.4. Credit Rating

Ghana's sovereign credit profile came under significant pressure in 2022, reflecting a deterioration in the country's fiscal position, heightened external vulnerabilities and increasingly constrained access to financing. Fitch downgraded Ghana from B to B- in January 2022 and subsequently lowered the rating through CCC and CC to C by December 2022, before assigning Restricted Default to Ghana's foreign-currency issuer rating in February 2023 following a missed Eurobond coupon payment. Moody's downgraded Ghana from B3 to Caa1 in February 2022, citing liquidity and debt challenges, weak revenue generation and tight external funding conditions, while S&P downgraded Ghana to CCC+/C from B-/B in August 2022 amid intensifying financing and external pressures.

Rating actions in 2023 were largely influenced by Ghana's debt restructuring programme. Fitch kept Ghana's foreign-currency rating at Restricted Default while upgrading the local-currency issuer rating to CCC from RD after the completion of domestic debt exchanges. Moody's upgraded Ghana's local-currency long-term issuer rating from Ca to Caa3 in June 2023 following the domestic debt restructuring and the start of IMF programme support, although default risks remained elevated pending settlement of unrestructured debt.

Sovereign rating pressures eased during 2024 as Ghana advanced its debt restructuring initiatives. Fitch affirmed Ghana's foreign-currency rating at RD and local-currency rating at CCC in July 2024, before upgrading the local-currency rating to CCC+ in October following completion of the Eurobond exchange. S&P affirmed Ghana's foreign-currency rating at SD/SD and local-currency rating at CCC+/C after the Eurobond exchange, while Moody's upgraded Ghana's local and foreign currency issuer ratings to Caa2 and revised the outlook to positive.

Ghana's sovereign credit profile improved further in 2025 as debt restructuring progressed and macroeconomic conditions strengthened. Fitch upgraded Ghana's foreign-currency issuer rating to B- from RD in June 2025, Moody's upgraded Ghana to Caa1 in October 2025, and S&P raised Ghana's sovereign ratings to B-/B from CCC+/C in November 2025.

The positive rating momentum continued into 2026. On 10 April 2026, Moody's revised Ghana's rating outlook from stable to positive, while S&P affirmed the country's 'B-' rating with a stable outlook in March 2026. Most recently, on 8 May 2026, Fitch upgraded Ghana's Long-Term Foreign-

[4] Bank of Ghana Summary of Economic and Financial Data Report, as of 17/07/2026

Currency Issuer Default Rating from 'B-' to 'B' and assigned a positive outlook. Fitch attributed the upgrade to a substantial reduction in public debt relative to GDP, robust economic growth, sustained fiscal consolidation, an appreciation of the Ghana Cedi and a marked increase in international reserves, which collectively reduced the country's external liquidity risks.

These rating actions also reflected improvements in domestic financing conditions, lower borrowing costs and a significant moderation in inflationary pressures. Notwithstanding these developments, credit ratings are subject to ongoing review and may be revised, suspended or withdrawn at any time by the relevant rating agency. A credit rating does not constitute a recommendation to buy, sell or hold any securities.

5.4.5. Public debt and debt restructuring exercises

The Domestic Debt Exchange Programme was a central component of Ghana's broader public debt restructuring. The programme was implemented through a series of exchange offers covering different categories of domestic debt and investor groups. The first phase was announced in November 2022 and principally covered domestic, local-currency sovereign bonds held by institutional investors and collective investment schemes, with individual bondholders initially excluded. Under the exchange, eligible instruments were replaced with new Government of Ghana bonds carrying lower coupon rates and extended maturities ranging from 2027 to 2038. In January 2023, the scope of eligible instruments was expanded to include selected bonds issued by state-owned entities, including Daakye Trust PLC and ESLA PLC. Pension funds remained outside the scope of this phase pending the development of a separate exchange offer tailored to their long-term investment obligations. The first phase was completed in February 2023, with 84.91% of eligible bonds tendered. The exchange altered the timing and cost of the Government's domestic debt-service obligations and contributed to the financing assurances required under the IMF-supported programme.

Following the completion of the first phase, the Government launched a further stage of the DDEP on 14 July 2023, comprising two concurrent exchange offers covering domestic USD-denominated bonds and cocoa bills issued by the Ghana Cocoa Board. The first offer covered domestic USD-denominated treasury bonds with an aggregate face value of USD 808.99 million. Eligible instruments were exchanged for new bonds maturing in 2027 and 2028, with extended tenors and lower coupon rates. Investors tendered bonds with an aggregate face value of USD 741.73 million, representing a participation rate of 91.69%. The second offer covered cocoa bills with an aggregate eligible face value of GHS 7.91 billion. These instruments were exchanged for five new cocoa bonds maturing between 2024 and 2028. Approximately GHS 7.70 billion of eligible cocoa bills were tendered, representing a participation rate of 97.38%. Both exchange offers were settled on 4 September 2023.

A separate exchange was subsequently structured for pension funds, reflecting their long-term investment mandates and importance to the domestic financial system. The exchange covered eligible sovereign bonds and bonds issued by ESLA PLC and Daakye Trust PLC, with an aggregate eligible face value of GHS 31.01 billion. Eligible instruments were exchanged for new 2023-GC-1 and 2023-GC-2 bonds maturing in 2027 and 2028, respectively, at an exchange ratio of 115%. The offer also included interest-only bonds bearing a coupon of 10.0%, payable semi-annually. The pension fund exchange recorded a participation rate of 95.32%, with GHS 29.57 billion of eligible instruments tendered. Its completion brought the principal domestic exchange offers undertaken as part of Ghana's debt restructuring programme to a close.

Taken together, the exchange offers substantially changed the maturity and debt-service profile of Ghana's domestic public debt. The extension of maturities and adjustment of coupon obligations reduced immediate redemption requirements and supported the Government's broader fiscal and macroeconomic stabilisation programme. By the end of 2025, Ghana's public debt-to-GDP ratio had reportedly declined to 45.3%, compared with 61.8% previously, placing it below the applicable medium-term target. This improvement reflected the combined effects of

the debt restructuring, fiscal developments, economic growth, exchange-rate movements and other macroeconomic factors and should not, therefore, be attributed solely to the DDEP.

The improvement in Ghana's debt and macroeconomic indicators was subsequently reflected in sovereign rating actions during 2025 and in positive or stable outlook assessments by international credit rating agencies in early 2026. Among the factors cited were improvements in debt sustainability, declining inflation and more favourable domestic financing conditions. However, the historical performance and outcomes described above should not be regarded as an assurance of future performance. Ghana's public debt and sovereign credit profile remain exposed to fiscal, economic, market and external risks, including interest-rate movements, exchange-rate fluctuations, commodity-price volatility and changes in domestic and international financing conditions.

5.4.6. Medium-Term Debt Strategy And 2026 Budget Statement

Following the completion of the domestic and external debt restructuring processes, the Government of Ghana's medium-term debt management strategy is directed towards restoring and maintaining public debt sustainability, reducing refinancing and interest rate risks, and supporting macroeconomic stability and inclusive economic growth. The strategy is set out in the Government's 2026–2029 Medium-Term Debt Management Strategy (MTDS), published by the Ministry of Finance, and is underpinned by the statutory debt management objectives established under Ghana's Public Financial Management framework.

The revised macroeconomic objectives and targets for the 2026–2029 medium-term period include:

- average overall real GDP growth of 4.9%;
- average non-oil real GDP growth of 5.0%;
- end-period inflation within the target band of 8.0% ± 2.0%;
- an average primary surplus, on a commitment basis, of 1.5% of GDP from 2026 onwards
- gross international reserves sufficient to cover at least three months of imports of goods and services.

To support the achievement of these objectives, the Government intends to maintain a prudent and disciplined approach to borrowing. The strategy gives priority to concessional and semi-concessional financing, while providing for a gradual re-engagement with market-based financing as macroeconomic conditions and sovereign credit indicators improve.

Domestic borrowing is expected to be calibrated to meet the Government's budgetary financing requirements while extending the maturity profile of public debt, supporting the development of the domestic fixed-income market and improving secondary-market liquidity. The Government also intends to manage domestic borrowing in a manner that limits, to the extent practicable, the potential crowding-out of private-sector credit.

External borrowing is expected to be undertaken selectively, taking into consideration foreign-exchange exposure, applicable debt-sustainability thresholds and the Government's overall debt-service capacity. Where appropriate, and subject to prevailing market conditions, the Government may also undertake liability-management operations to improve the maturity, cost and risk characteristics of the public debt portfolio.

Consistent with the broader medium-term framework, the Government's revised macroeconomic targets for the 2026 fiscal year are:

- overall real GDP growth of 4.8%;
- non-oil real GDP growth of 4.9%;
- end-period inflation of 8.0%;
- a primary surplus, on a commitment basis, equivalent to 1.5% of GDP; and

- gross international reserves, including oil funds and encumbered or pledged assets, sufficient to cover at least three months of imports

The objectives and targets contained in the MTDS are forward-looking and are subject to risks and uncertainties, including changes in domestic and global economic conditions, interest and exchange rates, commodity prices, revenue performance, financing availability and other factors affecting Ghana's fiscal position and debt dynamics.

2026 Budget

The 2026 Budget Statement seeks to consolidate fiscal discipline and support a transition from macroeconomic stabilisation to investment-led growth. Total revenue and grants are projected to increase, supported by improvements in tax administration, broader taxpayer compliance and the rationalisation of tax exemptions. Expenditure policy is expected to prioritise infrastructure investment, economic diversification and social protection, while maintaining expenditure controls consistent with the Government's fiscal objectives.

The overall fiscal deficit for 2026 is projected at approximately 2.2% of GDP. The fiscal framework also targets a primary surplus intended to support debt sustainability and ensure continued compliance with the applicable Public Financial Management framework.

The Government expects to finance the 2026 Budget principally through domestic market issuances within approved borrowing limits and concessional external financing, supplemented by programme-related disbursements. Domestic financing is expected to be managed having regard to prevailing market conditions, debt-service obligations and the Government's objective of limiting refinancing risks and potential crowding-out effects on private-sector credit.

The macroeconomic framework underpinning the 2026 Budget assumes a continued recovery in economic activity, easing inflationary pressures and broadly stable external balances. These projections are supported by the anticipated continuation of reforms under the IMF-supported programme and the Government's stated commitment to prudent fiscal, monetary and debt management.

The fiscal and macroeconomic projections contained in the 2026 Budget Statement are forward-looking and remain subject to risks and uncertainties. These include changes in domestic and global economic conditions, revenue performance, expenditure pressures, financing availability, interest and exchange rates, commodity prices and the pace of implementation of policy reforms. Accordingly, actual outcomes may differ materially from the stated projections and targets

5.5. MACROECONOMIC OUTLOOK

Ghana's macroeconomic outlook is underpinned by the Government's objective of consolidating the stabilisation gains achieved under the IMF-supported reform programme while fostering economic growth, private-sector investment and structural transformation. Following improvements in economic activity, a marked decline in inflation, stronger external balances and continued fiscal consolidation, the 2026 Budget sets out a forward-looking policy framework focused on economic resilience, fiscal discipline, price stability, external-sector sustainability and employment-intensive growth.

Inflationary pressures eased substantially during 2025 and the first quarter of 2026, with headline CPI inflation declining from 23.8% in December 2024 to 5.4% in December 2025 and further to 3.2% in March 2026, representing a reduction of more than 20 percentage points over a 14-month period. The disinflation was broad-based across both food and non-food categories, while core inflation, excluding energy and utility prices, also declined, indicating an easing of underlying price pressures rather than merely the effect of favourable base factors. However, inflation is expected

to increase during the second half of 2026, driven by higher retail fuel prices and the fading of exchange-rate base effects.

Notwithstanding these projected inflationary pressures, the medium-term outlook remains broadly favourable. The Government intends to preserve macroeconomic stability and translate recent gains into higher productivity, increased private-sector participation and broader economic inclusion. Nevertheless, the outlook remains subject to domestic and external risks, including changes in global economic and financial conditions, commodity price volatility, exchange-rate pressures and potential delays in the implementation of policy reforms. Continued fiscal discipline, effective policy coordination and timely responses to emerging risks will therefore be critical to achieving the Government's macroeconomic objectives and sustaining long-term economic resilience.

5.5.1. Growth Outlook

Economic activity strengthened further in 2025, with provisional data from the Ghana Statistical Service indicating that real GDP growth increased to 6.0%, from 5.8% in 2024. Non-oil real GDP growth accelerated more markedly, rising from 6.1% to 7.6% over the same period. The expansion was driven primarily by the services sector, particularly information and communications, financial services, trade and transport. The construction sector also recorded a notable recovery, expanding by 6.7% year-on-year in the third quarter of 2025, compared with a contraction of 2.6% in the corresponding period of 2024. Looking ahead, the Government is targeting overall real GDP growth of at least 4.8% in 2026 and non-oil real GDP growth of not less than 4.9%. Growth is expected to be supported by continued expansion in services, manufacturing and agriculture, together with policy measures aimed at promoting private investment, export growth and broader economic transformation. These targets are broadly consistent with the World Bank's April 2026 outlook, which projects real GDP growth of 4.8% in 2026, rising moderately to 4.9% in 2027 and 5.0% in 2028. Over the medium term, growth is expected to benefit from the consolidation of recent stabilisation gains, the implementation of reforms, stronger activity in non-extractive sectors and the commencement of new oil production.

5.5.2. Inflation and Monetary Policy Outlook

The inflation outlook remains favourable, supported by continued fiscal consolidation, exchange-rate stability, prudent monetary policy and improved domestic food supply. Under the Government's 2026 macroeconomic framework, end-year inflation is targeted at 8.0% and is expected to remain within the medium-term target band of 8.0% ± 2.0% through 2029. The framework also anticipates that any further monetary policy easing will be gradual and conditional on sustained macroeconomic stability, while private-sector credit is expected to recover progressively as economic conditions improve. This outlook is broadly consistent with the IMF's projection of average consumer price inflation of 5.8% for Ghana in 2026. Nevertheless, the pace of disinflation remains subject to upside risks, including external shocks, commodity-price volatility and renewed imported inflation.

5.5.3. External Sector Developments and Outlook

Ghana's external position strengthened significantly during 2025 and remained robust in early 2026, supporting macroeconomic stability. The current account and overall balance of payments recorded substantial surpluses, driven by strong gold export earnings, remittance inflows and capital inflows.

The positive trend continued in early 2026, with the trade surplus widening and gross international reserves rising to US$14.4 billion, equivalent to 5.7 months of import cover as of 18th May 2026. Improved reserve buffers supported foreign exchange market stability, while the Ghana Cedi

appreciated strongly, reflecting robust export earnings, tight monetary policy and progress under the IMF-supported reform programme.

Looking ahead, the external outlook remains favourable, supported by continued current account surpluses, strong gold exports, remittances, foreign direct investment and growth in non-traditional exports. These factors are expected to support reserve accumulation, exchange-rate stability and lower imported inflation.

Nevertheless, the outlook remains exposed to commodity price volatility, geopolitical tensions and tighter global financial conditions. To strengthen external resilience, the Government is targeting reserve coverage equivalent to 15 months of imports by 2028.

5.5.4. Fiscal Consolidation and Debt Sustainability Outlook

Fiscal performance strengthened materially in 2025, with the overall fiscal deficit on a commitment basis narrowing to 1.0% of GDP, significantly below the budget target of 2.8%. The primary balance recorded a surplus of 2.6% of GDP, exceeding the target of 1.5%. Against the backdrop of the Government's efforts to limit the public-sector borrowing requirement, the provisional public debt-to-GDP ratio declined to 45.96% at the end of December 2025, from 61.8% at the end of December 2024. This represented a reduction of approximately 16 percentage points within the year, supported by the primary surplus, strengthened commitment controls and continued restraint on new borrowing.

Notwithstanding these improvements, Ghana's debt position remains subject to material vulnerabilities. The IMF's reclassification of Ghana from "in debt distress" to "high risk of debt distress" in November 2024 represented progress in the country's debt sustainability assessment. However, good-faith engagements with some commercial creditors are still ongoing with a restructuring consistent with program parameters and comparability of treatment. In view of this progress and continuous stabilization gains, IMF reclassified Ghana's risk rating to moderate in July 2026.

According to the World Bank, more than 95% of the required debt treatment had been agreed by October 2025, and four bilateral creditor agreements under the G20 Common Framework had been signed by the end of September 2025. Completion of the remaining commercial creditor negotiations will therefore be important in reducing residual uncertainty regarding Ghana's debt sustainability trajectory.

5.5.5. Macroeconomic Sensitivity

Ghana's macroeconomic outlook remains exposed to a range of downside risks, including unfavourable movements in global commodity prices, volatility in international financial markets, geopolitical tensions and climate-related shocks. A sustained reversal of recent favourable exchange-rate movements, a resurgence in inflation or a weakening of external inflows could adversely affect fiscal performance, public debt dynamics and access to market financing. The materialisation of any of these risks could, in turn, have an adverse effect on the Republic's ability to meet its payment obligations under the Bonds.

6 OVERVIEW OF GHANAIAN CAPITAL MARKET

6.1. OVERVIEW OF THE CAPITAL MARKET

Ghana's capital market facilitates the raising and investment of capital through fixed income securities, equity securities and other approved financial products. The principal instruments available in the fixed-income asset class are Government of Ghana treasury bills, notes and bonds, BOG money-market instruments, COCOBOD bonds and bills, corporate bonds and notes, commercial paper and repurchase agreements. Government securities constitute the largest segment of the market, while corporate bonds, notes and commercial paper provide alternative sources of short-, medium- and long-term funding for private-sector issuers.

The Securities and Exchange Commission of Ghana ("SEC") is the principal regulator of the securities industry. Ghana's capital markets are governed primarily by the Securities Industry Act, 2016 (Act 929), as amended by the Securities Industry (Amendment) Act, 2021 (Act 1062). Shares are traded on the GSE and the Ghana Alternative Market (GAX) while fixed income securities are traded on the Ghana Fixed Income Market. Commodities are traded on the Ghana Commodities Exchange (GCX).

The regulatory framework also includes the Securities and Exchange Commission Regulations, 2003 (L.I. 1728), the Unit Trusts and Mutual Funds Regulations, 2001 (L.I. 1695), the Foreign Exchange Act, 2006 (Act 723), the Central Securities Depository Act, 2007 (Act 733), and applicable directives, guidelines and circulars issued by the SEC.

6.2. OVERVIEW OF THE GHANA STOCK EXCHANGE

6.2.1. Establishment and Role of the GSE

The GSE was incorporated in July 1989 as a private company limited by guarantee under the Companies Act of 1963 (Act 179). The Stock Exchange Act, 1971 (Act 384) (now repealed), gave authority to the GSE to operate as a stock exchange in October 1990. On 12 November 1990, trading on the floor commenced and the first council of the exchange was inaugurated. The GSE changed its status to a public company limited by guarantee in April 1994.

The GSE operates under the regulatory oversight of the SEC and is responsible for administering its markets, establishing admission and trading requirements, monitoring market activity and disseminating market information.

6.2.2. Performance of GSE

The GSE experienced a strong rebound after the weak performance recorded in 2019 and 2020. In 2021, the GSE Composite Index recovered strongly, gaining 43.66%, supported by improved investor confidence after the disruptions caused by the financial sector clean-up and the COVID-19 pandemic. However, this recovery was interrupted in 2022, when macroeconomic pressures, high inflation, rising interest rates and investor caution caused the market to decline by 12.38%.

The market returned to positive territory in 2023, with the GSE Composite Index gaining 28.08%, while market capitalisation also improved by 14.55%. This recovery strengthened significantly in 2024, as the Composite Index rose by 56.17% and market capitalisation increased by 50.70%. The GSE Financial Stock Index also rebounded in 2024, gaining 25.20%, after recording weaker performance in the previous year.

The positive momentum continued into 2025, with the GSE Composite Index recording a return of 79.40%, reportedly its strongest performance since 2004. Market capitalisation also increased by 54.50%, while the GSE Financial Stock Index delivered a significant return of 95.19%. By mid-2026,

the market had maintained its upward trajectory, with the Composite Index recording a year-to-date gain of about 71.90% as at August 2026. Overall, the GSE has moved from the bearish conditions associated with the financial sector clean-up and the COVID-19 period into a sustained recovery phase, although its outlook remains sensitive to inflation, interest rates, exchange rate movements and broader investor sentiment.

Source: Ghana Stock Exchange, Equities Market Reports 2020 – August 2026

6.3. Overview of the GAX

The Ghana Alternative Market (GAX), launched in 2013, is a market operated by the Ghana Stock Exchange for small and medium-sized companies and start-ups at various stages of development. It provides eligible issuers with access to long-term capital, helps broaden their shareholder base and improves the liquidity of their securities. Under the current GSE Equities Market Rules effective February 2026, a company seeking to list on GAX must generally have stated capital of at least GHS 1,000,000. For companies listing after raising capital, the public float must be at least 20% of issued securities, while companies listing by introduction are subject to different float requirements. Start-ups may be admitted if they submit a three-year business plan, and applicants need not have recorded historical profits but should demonstrate the potential to become profitable by the end of the third year after listing.

As at July 2026, there were 5 listed companies on the GAX. The most recent entrant, Digicut Advertising and Production Limited, raised GHS 2.85 million through an IPO in April 2018 and was subsequently listed on the GAX, becoming the first advertising company to join the market.

6.4. Overview of the GFIM

6.4.1. Overview

GFIM was established in 2015 to facilitate the secondary trading of fixed income securities in Ghana. The establishment of the GFIM was driven by the key stakeholders of the Ghanaian financial sector including the Ministry of Finance, the BOG, the GSE, the CSD, Ghana Association of Bankers, Financial Market Association and licensed dealing members of the GSE. GFIM provides a centralised, rules-based framework intended to enhance transparency, price discovery, liquidity and the dissemination of fixed-income market information.

GFIM trading is supported by approved electronic trading and trade-capture systems, including Bloomberg E-Bond and the Capizar alternative trading system bond module. The CSD provides custody, clearing and settlement services, while the cash component of settlement is processed through the BOG's Ghana Interbank Settlement system. GFIM's regular trading hours are from 9:00 a.m. to 4:00 p.m. GMT on business days, subject to any changes determined by the market.

GFIM regularly publishes market information on trading volumes and values, outstanding securities, primary-market activity, corporate admissions, investor participation and the performance of its licensed dealing members. This information supports price discovery and provides market participants with data on developments in Ghana's fixed-income markets.

6.4.2. Performance of GFIM

Secondary-market activity on GFIM strengthened materially during 2025. Approximately GHS245.85 billion in Ghana-cedi-denominated securities was traded during the year, compared with approximately GHS174.00 billion in 2024, representing an increase of approximately 41.3%. The corresponding value traded increased from approximately GHS143.55 billion in 2024 to approximately GHS209.91 billion in 2025, representing an increase of approximately 46.2%.

In December 2025, GFIM recorded trading volume of approximately GHS31.28 billion and value traded of approximately GHS27.62 billion. This compared with trading volume of approximately GHS20.49 billion and value traded of approximately GHS16.97 billion in December 2024. December 2025 trading volume and value were therefore approximately 52.7% and 62.8% higher, respectively, than in December 2024.

As at 31 December 2025, outstanding Government of Ghana notes and bonds listed on GFIM amounted to GHS188.41 billion and represented 60.4% of tradable fixed-income securities on the market. The corresponding amount at 31 December 2024 was GHS225.75 billion. Outstanding corporate bonds amounted to GHS8.34 billion at 31 December 2025 and represented 2.7% of tradable fixed-income securities, compared with GHS9.02 billion as at 31 December 2024.

	2020	2021	2022	2023	2024	2025
Number of issuers	14	14	13	13	12	12
Face Value of Outstanding Listed Debt Stock (*GHS millions*)	145,582.50	181,686.80	188,509.00	313,655.30	323,351.90	411,879.20

Source: CSD, Annual Reports 2020 - 2025

6.5. Overview of the Corporate Bond Market

Ghana's corporate bond market provides companies and financial institutions with access to medium- and long-term financing outside conventional bank-lending arrangements. Corporate debt may be issued as a standalone bond or note or under a programme that permits multiple series or tranches. Corporate instruments may carry fixed or floating interest rates and may be secured, unsecured, guaranteed, subordinated or otherwise structured in accordance with the issuer's funding requirements and the applicable regulatory and market rules.

The corporate bond segment remains relatively small compared with the Government of Ghana securities market. At 31 December 2025, outstanding corporate bonds amounted to GHS8.34 billion, compared with GHS188.41 billion of outstanding Government of Ghana notes and bonds listed on GFIM. Corporate bonds consequently represented 2.7% of tradable fixed-income securities on the market.

6.6. Overview of the Commercial Paper Market

The Ghana Stock Exchange (GSE) Commercial Paper Market provides a regulated platform through which qualifying companies can raise short-term funding from institutional and other eligible investors. CPs complement traditional bank lending and the longer-term corporate bond market by enabling issuers to access shorter-tenor financing, typically ranging from 15 to 270 days. The market was formally established in 2024 following the approval of the GSE Commercial Paper Issuance and Admission Rules by the Securities and Exchange Commission (SEC).

As at 2026, Federated Commodities PLC ("FEDCO") remains the first and only company to have issued commercial paper on the market. In April 2025, FEDCO successfully raised GHS72.5 million through the first tranche of its GHS200 million Commercial Paper Programme on the Ghana Fixed Income Market (GFIM). The issuance was a landmark transaction, representing the first commercial paper listing since the market's launch and demonstrating the viability of commercial paper as an alternative source of short-term corporate financing in Ghana.

CP issuers and relevant market operators are subject to the Securities Industry Act, applicable SEC directives and guidelines, and the relevant GSE rules. This regulatory framework is designed to promote transparency, investor protection, and confidence in Ghana's short-term debt market.

6.7. RECENT DEVELOPMENTS IN THE GHANAIAN CAPITAL MARKETS

The Government's Domestic Debt Exchange Programme materially affected the composition and operation of the fixed-income segment of Ghana's capital markets. Eligible Government of Ghana securities were exchanged for new instruments with revised maturities, coupons and payment profiles. The programme affected asset valuations, institutional balance sheets, investor confidence and secondary-market activity and contributed to the decline in GFIM trading volume recorded in 2023.

Market activity subsequently improved during 2024 and 2025. The recovery reflected the gradual adjustment of investors to the post-exchange securities, improved macroeconomic conditions and renewed trading in government fixed-income instruments. The effects of the debt exchange nevertheless remain relevant to the pricing, valuation and liquidity of some Government of Ghana securities and to investor perceptions of the broader capital market.

Macroeconomic conditions also improved during 2025. The BOG reported real GDP growth of 6.0%, headline inflation of 5.4% at 31 December 2025 and a monetary-policy rate of 18% at the end of the year. Declining inflation and interest rates affected government-security yields, investor portfolio allocation and the pricing environment for corporate bonds and commercial paper.

7 OVERVIEW OF GHANA COCOA BOARD

7.1. OVERVIEW OF THE GHANA COCOA BOARD LAW

7.1.1. Establishment and Purpose of COCOBOD

The Ghana Cocoa Board, commonly referred to as COCOBOD is a body corporate established under the Ghana Cocoa Board Act, 2026 (Act 1182) (the "Act"). The Act establishes COCOBOD as the statutory institution responsible for regulating, overseeing and monitoring activities within Ghana's cocoa value chain.

The principal object of COCOBOD under the Act is to promote the orderly, efficient and sustainable development of the cocoa industry while protecting and promoting the welfare of cocoa farmers, consumers and other stakeholders. The Act also seeks to promote integrity, quality, safety, and traceability within the cocoa value chain; local content and local participation; fair competition; transparency; value addition; and the cocoa sector's contribution to national economic development.

The functions of COCOBOD include, among others, regulating the cocoa value chain; regulating the marketing and financing of cocoa; supporting sustainable cocoa cultivation and extension services; establishing and enforcing quality standards; promoting traceability and cocoa-sector data management; addressing pests and diseases; facilitating processing and value addition, and private-sector participation; supporting scientific research; licensing relevant participants in the cocoa value chain; advising on and implementing the cocoa pricing formula; combating cocoa smuggling; undertaking market intelligence and promotional activities; and supporting plantation development and public-private partnerships.

The Act also gives COCOBOD the sole authority, subject to the provisions of the Act, in relation to arrangements for the purchase, inspection, grading, sealing, certification, export and sale of cocoa. COCOBOD is authorised to purchase, market and export graded cocoa beans, facilitate the establishment and operation of industrial cocoa-processing facilities and exercise a right of first refusal in the purchase of cocoa beans.

The Act expressly limits COCOBOD from undertaking activities that fall outside its statutory object and functions. In particular, COCOBOD is not permitted to undertake unrelated activities or social, quasi-fiscal, welfare or community interventions except where such activities are directly linked to the cocoa sector and specifically authorised under the Act. Any corporate social responsibility programme undertaken by COCOBOD is subject to the requirements prescribed under the Act.

The Act further requires COCOBOD to conduct its affairs on sound commercial lines and in a manner that ensures a reasonable return on capital employed, while taking into account approved budgetary limits, expansion requirements, reserves and reasonable payments into the Consolidated Fund.

7.2. COCOBOD BOARD AND MANAGEMENT

COCOBOD is governed by a Board of Directors responsible for providing strategic oversight, formulating policies, managing the resources of the institution and ensuring that COCOBOD operates in accordance with its statutory object and functions.

Under the Act, the Board comprises representatives from relevant government institutions, the cocoa industry and cocoa farmer representatives, together with persons possessing relevant expertise and experience in the cocoa value chain. The composition includes the Chairperson nominated by the Minister; the Chief Executive of COCOBOD; a representative of the Bank of Ghana not below the rank of Director; representatives of the Ministries responsible for Finance,

Agriculture and Trade, each not below the rank of Director; two award-winning cocoa farmers, including a representative of a recognised farmer association; representatives of senior and junior staff associations; a representative of licensed buying companies; and another person with relevant experience in the cocoa value chain who is a woman.

The Act requires consideration to be given to relevant knowledge, expertise and experience in the appointment of Board members and requires appropriate female representation on the Board.

The Act provides for Board committees, including committees responsible for Audit, Licensed Buying Companies, Finance, Risk and Environmental, Social and Governance matters.

The day-to-day administration of COCOBOD is headed by the Chief Executive, who is appointed by the President. The Act also provides for three Deputy Chief Executives responsible for Agronomy and Quality Control, Finance and Administration, and Operations, respectively.

COCOBOD performs its statutory functions through its divisions, departments and subsidiaries. Its principal operational institutions include:

- **Cocoa Research Institute of Ghana (CRIG)**, which undertakes research and development relating principally to cocoa and other crops within its mandate;
- **Seed Production Division**, which is responsible for the production and distribution of improved cocoa planting materials;
- **Cocoa Health and Extension Division (CHED)**, which provides extension and agronomic support and implements programmes relating to pest and disease management;
- **Quality Control Company Limited (QCC)**, which undertakes inspection, grading, sealing and quality-assurance activities; and
- **Cocoa Marketing Company (Ghana) Limited (CMC)**, which is responsible for the external marketing and sale of Ghana's cocoa.

7.3. SUPERVISION AND ACCOUNTABILITY OF COCOBOD

The Act strengthens the governance and accountability framework applicable to COCOBOD. The Minister exercises oversight over COCOBOD and may direct the discontinuance, restructuring, transfer or implementation of remedial measures where activities undertaken by the Board are inconsistent with its statutory object or functions.

COCOBOD is required to operate within approved budgets and to maintain appropriate financial and operational controls. Its accounts and records are subject to audit by the Auditor-General, with audited financial statements required to be prepared in accordance with applicable law. COCOBOD's financial year runs from 1 October to 30 September.

The Act requires COCOBOD to submit annual reports following completion of the audit process, including the Auditor-General's report, an assessment of the Board's activities, challenges encountered and relevant stakeholder feedback. The annual report is subsequently submitted to Parliament through the Minister.

COCOBOD is also required to maintain appropriate transparency and accountability standards, including timely audited financial reporting, disclosure of material decisions relating to pricing, borrowing, risk management and subsidiaries, accurate books and records, and appropriate separation of policy, management and operational responsibilities.

7.4. SOURCES OF REVENUE AND FUNDING FOR COCOBOD

Under the Act, the funds of COCOBOD comprise monies approved by Parliament, internally generated funds and other legally permitted sources. Internally generated funds may include proceeds from the sale of cocoa, income from inspection services, proceeds from the disposal of property, subscriptions, rent and royalties, statutory fees and charges, administrative penalties and investment returns. COCOBOD may also receive loans, grants, gifts and donations, subject to applicable legal and regulatory requirements.

The Act provides for COCOBOD to maintain appropriate bank accounts, including separate accounts for specific purposes where necessary. These may include accounts relating to producer price payments, stabilisation and hedging activities, cocoa marketing and export receipts, and administrative and operational expenditure.

The Act therefore establishes a more structured separation between cocoa-sector operating cash flows and other financial obligations of COCOBOD. This framework is particularly relevant to the financing of cocoa purchases and the management of cocoa-sector debt.

7.5. COCOA PRODUCER PRICE AND MARGIN

The Act introduces a statutory cocoa pricing framework under which the producer price for each crop season is to be determined by COCOBOD in accordance with the cocoa pricing formula prescribed under the Act.

In determining the producer price, COCOBOD is required to consult the Minister, recognised representatives of cocoa farmers, licensed buying companies, transporters and other relevant stakeholders.

Importantly, the Act provides that the producer price payable to cocoa farmers shall not be less than 70% of the Gross Free-On-Board ("FOB") price realised by COCOBOD for the relevant crop season.

Accordingly, the statutory requirement is expressed by reference to the Gross FOB price realised by COCOBOD, rather than simply the international or world market price. This distinction is important in assessing the relationship between cocoa export proceeds, producer prices and the cash flows available to support cocoa-sector financing.

The latest officially published producer price relates to the 2025/26 crop season. Following revisions during the season, the producer price was set at GH¢41,392 per tonne, equivalent to GH¢2,587 per 64-kilogramme bag, effective for the 2026 Light Crop Season.

The producer price for the 2026/27 main crop season had not been officially published by COCOBOD as at the date of this Prospectus. Accordingly, no 2026/27 seasons' producer price has been assumed in this section unless separately confirmed by COCOBOD.

The margin and other charges applicable to participants in the cocoa supply chain are determined within the applicable regulatory and pricing framework and may include buyers' margins, transportation and haulage costs, warehousing, internal marketing, grading and sealing, disinfestation and related charges.

7.6. USE OF COCOA REVENUE

Revenue from cocoa operations is applied principally to the purchase, marketing and export of the crop and to programmes intended to maintain the long-term productivity and sustainability of Ghana's cocoa industry. Subject to approved budgets and government policy, cocoa revenues may be used to:

- pay cocoa farmers through licensed buying companies;
- finance the purchase, storage, evacuation, transport and export of cocoa;
- fund cocoa research and the development of improved planting materials;
- control cocoa pests and diseases, including cocoa swollen shoot disease;
- provide extension and agronomic services to farmers;
- maintain cocoa quality through inspection, grading and certification;
- support the supply of fertilisers, fungicides, insecticides and other farm inputs;
- promote cocoa processing and domestic consumption;
- support farmer-welfare and sector-development programmes;
- meet interest, principal and other financing obligations; and
- fund the administration and operations of COCOBOD and its divisions and subsidiaries.

COCOBOD's use of revenue therefore combines direct commercial expenditure, such as cocoa purchasing and export costs, with public-policy expenditure, such as research, extension, disease control and farmer-support programmes.

7.7. COCOA PURCHASE, PAYMENT AND COLLECTION STRUCTURE

Cocoa-sector revenues are applied towards the purchase and marketing of cocoa, payments to cocoa producers and other costs associated with the operation and development of the cocoa value chain.

Under the Act, permitted expenditure includes expenditure relating to cocoa production support, marketing and export activities, price stabilisation and risk management, value addition and processing, and the administration and operations of COCOBOD.

The Act also establishes specific mechanisms for the management of cocoa-sector financial obligations and risks. These include the Cocoa Sector Debt Sinking Fund, the Cocoa Stabilisation and Diversification Fund, and a framework for ring-fencing pre-existing cocoa-sector debt liabilities from COCOBOD's operational finances.

The Cocoa Sector Debt Sinking Fund is intended to provide a dedicated mechanism for settling validated cocoa-sector debt liabilities. The liabilities are to be subject to audit, verification and certification in accordance with the Act.

The Cocoa Stabilisation and Diversification Fund is intended to cushion cocoa producers against international price shocks and support diversification, productivity-enhancing investments and resilience within the cocoa sector. The Fund may receive a prescribed percentage of Gross FOB proceeds from cocoa sold by COCOBOD.

The Act further requires pre-existing cocoa-sector debt liabilities to be separately managed under a Minister-approved framework. The framework may include restructuring or rescheduling, settlement arrangements, set-off against recoveries, the establishment of a special purpose vehicle or legacy resolution account, and other lawful mechanisms.

These provisions are intended to strengthen the financial separation between historical cocoa-sector liabilities and the ongoing operational financing of the cocoa sector.

7.8. DRIVERS OF COCOBOD REVENUE

COCOBOD's revenue and liquidity are principally influenced by the following factors:

- **International cocoa prices**
  Since a substantial proportion of Ghana's cocoa is sold internationally, changes in global cocoa prices directly affect expected gross free-on-board receipts and the amount available for the producer price, industry costs and COCOBOD's operations. A decline in world prices

after forward contracts or producer-price commitments can create financial pressure, particularly where domestic purchasing costs exceed realisable sales proceeds.

- **Cocoa production volumes**
  The quantity of cocoa produced and delivered through the official marketing system is a major determinant of revenue. Disease, adverse weather, illegal mining in cocoa-growing areas, ageing trees, input constraints and smuggling can reduce marketed production and create shortfalls against volumes committed under sales or financing arrangements.

- **Exchange-rate movements**
  Cocoa is largely sold in foreign currency, while a significant part of COCOBOD's expenditure, including payments to farmers and domestic service providers, is denominated in Ghana cedis. Exchange-rate movements therefore affect both the cedi value of cocoa receipts and the cost of meeting domestic obligations. Exchange-rate assumptions are also an important component of producer-price determination.

- **Producer-price decisions**
  The proportion of expected cocoa proceeds allocated to farmers affects the amount remaining to meet industry costs, finance interventions and service debt. A higher producer price may strengthen farmer incomes and reduce incentives for cross-border smuggling, but it may also place pressure on COCOBOD's finances if world prices, production volumes or exchange rates move unfavourably.

- **Quality premiums and marketing performance**
  Ghanaian cocoa is marketed under a quality-controlled system involving inspection, grading, sealing and certification. The maintenance of recognised quality standards can support market access and favourable selling arrangements, while deterioration in quality may adversely affect revenue and buyer demand.

- **Financing costs and access to liquidity**
  The availability and cost of working capital finance significantly affect COCOBOD's capacity to fund licensed buying companies and purchase cocoa promptly. Changes in lender confidence, interest rates, country risk and the performance of prior financing arrangements can affect the timing, cost and availability of crop finance.

7.9. COCOBOD FUNDING STRUCTURES

For approximately 32 years, COCOBOD financed its annual cocoa-purchasing requirements principally through an offshore syndicated pre-export finance ("PXF") facility, under which international lenders advanced predominantly US dollar-denominated funds secured and repaid from proceeds generated by contracted cocoa exports. Following challenges in securing the traditional syndicated facility, COCOBOD adopted a buyer-financed model from the 2024/2025 crop season, under which cocoa buyers and off-takers provided funding for purchases against future deliveries. This arrangement continued through the 2025/2026 season but increased COCOBOD's dependence on buyers' willingness and capacity to provide financing. As part of reforms intended to enhance liquidity management and establish a more sustainable funding framework, COCOBOD is transitioning to a domestic capital market model, under which cedi-denominated bonds, commercial paper or related instruments are expected to be issued, potentially in tranches, to finance cocoa purchases on a revolving basis, with repayment funded from cocoa sale proceeds within the relevant crop year. The proposed structure is intended to diversify COCOBOD's funding sources, reduce reliance on offshore syndicated borrowing and buyer pre-financing, align funding drawdowns more closely with purchasing requirements, and support the development of Ghana's domestic debt capital market.

8 RISK FACTORS

Prior to making a decision to invest in the Notes to be issued under the Programme, prospective investors should carefully consider, together with the other information contained in this Prospectus, the risk factors set out below. There is a wide range of factors which, individually or together, could result in the Issuer becoming unable to make payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems immaterial may become material as a result of events outside its control.

The risks and uncertainties described below are not purported to be an exhaustive description of all risks relating to the Sponsor, the Issuer, the Programme or an investment in the Notes. Additional risks and uncertainties not presently known to the Sponsor or the Issuer, or that either currently believes to be immaterial, could also impair the Issuer's ability to service its payment obligations under the Notes.

8.1. RISKS RELATING TO THE TRANSACTION

8.1.1. THE NOTES ARE DEPENDENT ON THE PERFORMANCE OF THE ASSIGNED RECEIVABLES

The ability of Cocoa Capital PLC to make timely payments of principal and interest on the Notes will depend substantially on the collection of receivables assigned to it by COCOBOD arising from cocoa sales under forward sale and spot purchase arrangements.

Any deterioration in the quality, timing or collectability of the assigned receivables, whether due to payment delays, contractual disputes, set-off claims, counterparty defaults, insolvency events or other factors, may adversely affect the cash flows available to Cocoa Capital PLC and consequently its ability to meet its obligations under the Notes. In addition, actual collections may differ from projected collections due to variations in cocoa sales volumes, shipment schedules or customer payment behaviour. As a result, investors are exposed to the performance risk associated with the underlying receivables portfolio. This risk is mitigated by COCOBOD's demonstrated execution capability in successfully delivering high-profile fundraising transactions over the past thirty-two (32) years.

Furthermore, COCOBOD has maintained an unblemished repayment record, with no defaults on its obligations to creditors under its previous international funding programmes established for the purchase of cocoa beans.

8.1.2. COUNTERPARTY CREDIT RISK MAY ADVERSELY AFFECT RECEIVABLES COLLECTIONS

The assigned receivables will arise from contractual arrangements entered into with international cocoa buyers and domestic cocoa processing companies. The transaction is therefore exposed to the creditworthiness and payment performance of such counterparties.

Any material counterparty default, insolvency, payment delay, restructuring, dispute or other failure to perform obligations under the underlying cocoa sale contracts could result in reduced, delayed or interrupted collections. The financial condition of counterparties may be adversely affected by market volatility, commodity price fluctuations, changes in economic conditions or sector-specific developments. Any such occurrence may impair the cash flows available to service the Notes and adversely affect the ability of Cocoa Capital PLC to make payments when due. This risk is mitigated by the fact that receivables assigned to Cocoa Capital PLC will be derived from forward sale contracts entered with credible counterparties. In addition, COCOBOD's excess contracted sales position provides flexibility to assign additional receivables to Cocoa Capital PLC, if required, thereby strengthening debt service coverage for the notes issued.

8.1.3. INVESTORS ARE EXPOSED TO STRUCTURAL RISKS ASSOCIATED WITH THE TRANSACTION

The timely payment of amounts due under the Notes will depend on the proper operation of the transaction structure, including the effectiveness of the escrow arrangements, debt service accounts, bond buffer account mechanisms, cash flow waterfall and related administrative procedures. The transaction structure involves multiple counterparties, accounts and operational processes, operational failures, servicer disruptions, administrative errors, systems failures, delays in fund transfers, documentation deficiencies or other structural weaknesses may adversely affect the timing or number of payments available to investors. Furthermore, there can be no assurance that the transaction's structural protections will be sufficient to eliminate all risks associated with the collection and application of transaction cash flows. This risk is mitigated by the transaction's robust cash flow management framework, which includes dedicated escrow, debt service and bond buffer accounts, as well as a clearly defined payment waterfall that prioritizes obligations under the Notes. In addition, all counterparties involved in the transaction structure are highly experienced, reputable and professional institutions with proven track records in administering similar transactions. The transaction is further supported by comprehensive documentation, established controls and ongoing monitoring mechanisms designed to ensure the timely collection, transfer and application of transaction cash flows.

8.1.4. THE NOTES WILL CONSTITUTE LIMITED RECOURSE OBLIGATIONS

The Notes are expected to constitute limited recourse obligations of Cocoa Capital PLC. Accordingly, investors will generally have recourse only to the assets of Cocoa Capital PLC, including the assigned receivables and transaction accounts.

To the extent that such assets prove insufficient to satisfy the obligations of Cocoa Capital PLC under the Notes, investors may suffer losses and will not generally have recourse to the broader assets of COCOBOD, CMC, the Republic of Ghana or any other transaction party except as expressly provided in the transaction documentation.

Approximately 40% of the projected cocoa crop has been assigned to support the facility, providing a buffer against shortfalls in actual production. Over the last three completed seasons, actual production ranged from approximately 54% to 92% of projections. This track record provides additional comfort as to the sufficiency of the receivables assigned to Cocoa Capital PLC, although it does not eliminate the risk of future production shortfalls or unforeseen events.

8.1.5. THE ENFORCEABILITY OF THE ASSIGNED COCOA CONTRACTS/RECEIVABLES MAY BE SUBJECT TO LEGAL RISKS

The effectiveness of the transaction will depend on the validity, enforceability and continued functionality of the receivable's assignment and other transaction arrangements. There can be no assurance that these arrangements will not be challenged or adversely affected by changes in law, judicial interpretations, insolvency proceedings, competing creditor claims, regulatory actions or other legal developments. In addition, the enforcement of contractual rights may be subject to procedural requirements, delays and uncertainties in the applicable jurisdictions. Any such occurrence could adversely affect the timely collection and application of transaction cash flows and, consequently, the payments available to investors under the Notes.

This risk is mitigated in that the counterparties to the underlying cocoa sale contracts are credible, carefully selected for this transaction, and amongst top-tier companies with a decade-long partnership history with the Cocoa Marketing Company (CMC). While this does not eliminate the legal and enforceability risks described above, their established relationships and track record provide some relief as to the reliability and continued functionality of the transaction arrangements.

8.2. RISKS RELATED TO THE BUSINESS AND INDUSTRY

8.2.1. COCOA PRODUCTION RISK MAY ADVERSELY AFFECT THE RECEIVABLES BASE

The generation of receivables supporting the Notes is ultimately dependent upon the production, marketing and sale of cocoa by COCOBOD and CMC. Cocoa production volumes may be negatively affected by adverse weather conditions, climate change, pest infestations, crop diseases, illegal mining activity, input shortages, ageing tree stock, farmer participation levels and other agricultural risks. Additionally, shifts in cultivation patterns, land use pressures and environmental degradation may adversely impact production levels over time. A material decline in cocoa production may reduce cocoa sales and consequently diminish the receivables available to support the transaction.

Over the last three completed seasons, actual cocoa production in Ghana ranged from approximately 54% to 92% of projections. This track record, together with the facility's reliance on the assigned 40% of projected crop volumes, provides some comfort against production variability, although there can be no assurance that this pattern will continue in future seasons.

8.2.2. VOLATILITY IN INTERNATIONAL COCOA PRICES MAY AFFECT COCOBOD'S FINANCIAL POSITION

International cocoa prices are inherently volatile and are influenced by global supply and demand dynamics, crop conditions in major producing countries, weather patterns, geopolitical developments, macroeconomic conditions, currency fluctuations, as well as market speculation.

Significant adverse movements in cocoa prices may affect COCOBOD's revenues, liquidity profile, working capital requirements and overall financial performance. Sustained periods of depressed cocoa prices could adversely affect the level and timing of cash flows generated from cocoa sales and may indirectly impact the transaction.

The impact is, however, mitigated by the assigned forward sales contracts, which contain certain agreed commercial terms relating to price and quantity, thereby providing a degree of certainty over the volume and value of cocoa sales.

8.2.3. CONCENTRATION RISK ARISING FROM DEPENDENCE ON A SINGLE COMMODITY

COCOBOD's operations are substantially concentrated in the cocoa sector. Consequently, adverse developments affecting the global cocoa industry may have a disproportionate impact on its operating performance and financial condition relative to more diversified commodity producers or export agencies.

Any material reduction in global demand for cocoa, changes in consumer preferences, increased competition from alternative producers, sustainability-related trade restrictions or disruptions in the global cocoa supply chain could adversely affect cocoa exports, revenues and cash flows. The transaction is therefore exposed to risks associated with a high degree of commodity concentration.

The concentration risk is partly mitigated by cocoa’s structural importance to the Ghanaian economy, with cocoa exports representing one of the country’s largest sources of foreign exchange earnings. Ghana’s established position in the global cocoa market and its broad base of international buyers provide further comfort. The transaction also relies on actual cocoa sales and assigned receivables and is structured against only a portion of projected cocoa production, providing some buffer against fluctuations in production, cocoa prices and demand.

8.3. RISKS RELATING TO THE MACROECONOMY

8.3.1. ADVERSE MACROECONOMIC CONDITIONS IN GHANA MAY AFFECT COCOBOD'S OPERATIONS

COCOBOD's activities are predominantly conducted within Ghana and are therefore exposed to domestic macroeconomic conditions, including economic growth, inflation, interest rates, fiscal policy, exchange rate movements and financial market conditions.

A deterioration in the Ghanaian macroeconomic environment may increase operating costs, constrain access to financing, reduce investment in the cocoa sector, weaken market confidence and adversely affect COCOBOD's operational and financial performance. Broader economic instability may also adversely affect counterparties participating in the transaction.

8.3.2. FOREIGN EXCHANGE AND TRANSFER RISKS MAY AFFECT TRANSACTION CASH FLOWS

The cocoa export sector is inherently exposed to foreign currency markets given that export proceeds are largely generated in foreign currency while certain operating costs and obligations may be incurred in Ghana Cedis.

Exchange rate volatility may adversely affect the value of transaction cash flows and the economics of the transaction. In addition, changes in foreign exchange regulations, transfer restrictions, convertibility limitations, exchange control measures or disruptions in international payment systems may affect the availability, movement or timing of funds required to service the Notes. There can be no assurance that future regulatory developments will not adversely affect the transfer of funds into or out of the transaction accounts.

8.3.3. INFLATIONARY PRESSURES MAY INCREASE OPERATING AND FINANCING COSTS

Sustained inflationary pressures may increase the costs associated with cocoa procurement, logistics, transportation, labour, storage, processing and financing. High inflation may also contribute to higher domestic interest rates and increased working capital requirements. Should such cost increases materially exceed revenue growth or reduce operating margins, COCOBOD's profitability, liquidity position and ability to generate transaction-related cash flows may be adversely affected.

8.4. RISKS RELATING TO THE POLITICAL AND REGULATORY ENVIRONMENT

8.4.1. CHANGES IN GOVERNMENT POLICY MAY AFFECT THE COCOA SECTOR

COCOBOD operates within a policy and regulatory framework established by the Government of Ghana and remains a strategically important institution within the country's agricultural sector. Future changes in policies relating to cocoa marketing, producer pricing mechanisms, export arrangements, taxation, foreign exchange regulations, sustainability requirements, agricultural support programmes or sector governance may adversely affect COCOBOD's operations, financial condition and cash flow generation capacity. Such changes may also have implications for the volume and quality of receivables supporting the transaction.

The Ghana Cocoa Board Act, 2026 (Act 1182) re-establishes the Ghana Cocoa Board as a body corporate (section 1) with the object of regulating, overseeing and monitoring the cocoa sector (section 2), and vests in the Board the sole authority to purchase, market and export graded cocoa beans and a right of first refusal in the purchase of cocoa beans (section 3), reinforced by licensing requirements governing the purchase, sale and export of cocoa (sections 92 and 94 of the Act). This provides institutional continuity for the cocoa marketing and export arrangements from which the transaction’s receivables arise. The 2026 Act incorporates a revised cocoa pricing formula and a minimum local processing threshold, while continuing COCOBOD’s central cocoa purchasing

and marketing role. Notwithstanding this statutory and institutional continuity, changes in Government policy, regulation or sector governance could still affect the underlying cash flows.

8.4.2. COCOBOD MAY BE REQUIRED TO PURSUE PUBLIC POLICY OBJECTIVES

As a state-owned entity with significant strategic importance, COCOBOD may from time to time be required to pursue national economic, agricultural, developmental or social policy objectives that may not be solely driven by commercial considerations.

The implementation of such policy directives, including interventions designed to support farmers, stabilise producer incomes, promote rural development or achieve broader governmental objectives, could affect profitability, liquidity, operational flexibility or capital allocation decisions. There can be no assurance that such objectives will always align with investor expectations regarding financial performance.

This risk is mitigated by section 6 of the Ghana Cocoa Board Act, 2026 (Act 1182) which requires the Board to conduct its affairs on sound commercial lines and in a manner that ensures a reasonable return on capital employed by the Board, thereby imposing a statutory constraint on the extent to which non-commercial policy objectives may be pursued to the detriment of the Board's commercial and financial performance.

8.4.3. CHANGES IN LAW OR REGULATION MAY AFFECT THE TRANSACTION STRUCTURE

Future legislative, regulatory, judicial or administrative developments may affect the enforceability, economics or operation of the transaction structure, including the receivables assignment, security arrangements, taxation of transaction entities, insolvency treatment of transaction assets and the rights of investors.

The legal and regulatory framework applicable to securitisation, capital markets transactions, foreign exchange arrangements and cocoa sector operations may evolve during the life of the Notes. Any such changes may adversely affect the operation of the transaction, expected cash flows or recoveries available to investors. Accordingly, investors should recognise that the legal and regulatory environment applicable to the transaction may change over time.

This risk is mitigated by the general principle that legal and regulatory changes typically apply prospectively rather than retroactively, and that the transaction documentation is designed with reference to applicable law as at the date of issuance. The transaction structure retains a degree of flexibility to accommodate future legal or regulatory developments, where practicable.

8.5. RISKS RELATING TO THE COMMODITY

8.5.1. CHANGES IN GLOBAL CHOCOLATE DEMAND AND COCOA SUBSTITUTION MAY ADVERSELY AFFECT COCOA SALES

Demand for cocoa beans is ultimately derived from global demand for chocolate and cocoa-based products. Changing consumer preferences, health and sugar-content concerns, economic slowdowns in key consuming markets (notably Europe and North America), and the development of cocoa substitutes or alternative confectionery ingredients could reduce long-term demand for Ghanaian cocoa, which would adversely affect the cashflow available to service the Notes.

The Issuer believes the impact of this risk is mitigated in part by the structure of the Programme. The COCOBOD Receivables supporting the Notes are generated under forward contracts that are typically priced and contracted with offtakers ahead of delivery, which reduces the Issuer's direct exposure to short-term movements in spot demand for Ghanaian cocoa. Diversification of offtakers across consuming markets, together with Ghana's established reputation for cocoa bean quality, further supports the resilience of contracted volumes. There can be no assurance, however, that these features will fully offset a sustained structural decline in global chocolate demand or the wider adoption of cocoa substitutes.

This risk is mitigated by the structure of the Programme. The Cocoa Receivables supporting the Notes are generated under the assigned forward contracts that are typically priced and contracted with offtakers ahead of delivery, which reduces the Issuer's direct exposure to short-term movements in spot demand for Ghanaian cocoa. Diversification of offtakers across consuming markets, together with Ghana's established reputation for cocoa bean quality, further supports the resilience of contracted volumes. There can be no assurance, however, that these features will fully offset a sustained structural decline in global chocolate demand or the wider adoption of cocoa substitutes.

8.5.2. INCREASED COMPETITION FROM OTHER COCOA-PRODUCING COUNTRIES MAY AFFECT GHANA'S EXPORT VOLUMES

Ghana is one of the world's leading producers of cocoa beans, but competes with other origin countries, including Côte d'Ivoire, Ecuador, and Indonesia, for global market share. Buyers may shift sourcing toward other origins if Ghana's relative price, quality, or reliability of supply deteriorates, whether due to production shortfalls, logistics constraints, or pricing policy. Increased competition from other producing countries, or a loss of Ghana's relative market position, could adversely affect the volume or value of Ghanaian cocoa exports and, in turn, the cash flow available to service the Notes.

This risk is mitigated by the structure of the Programme and Ghana's established position in the global cocoa market. The Cocoa Receivables supporting the Notes are generated under forward contracts that are contracted with offtakers ahead of delivery, which reduces the Issuer's exposure to shifts in sourcing between origin countries over the life of those contracts. Ghana's long-standing reputation for cocoa bean quality and its status as one of the world's leading producers further support the reliability of contracted volumes. There can be no assurance, however, that these features will fully offset a sustained loss of Ghana's relative market position or a lasting deterioration in its competitiveness against other producing countries.

This risk is mitigated by Ghana's established position as well as the programme structure, which relies on forward contracts that are contracted with offtakers ahead of delivery, reducing the Issuer's exposure to shifts in sourcing between origin countries over the life of those contracts. Ghana's long-standing reputation for cocoa bean quality and its status as one of the world's leading producers further support the reliability of contracted volumes. There can be no assurance, however, that these features will fully offset a sustained loss of Ghana's relative market position or a lasting deterioration in its competitiveness against other producing countries.

8.5.3. CLIMATE CHANGE MAY ADVERSELY AFFECT COCOA PRODUCTION AND YIELDS

Climate change is expected to alter rainfall patterns and temperatures across West Africa's cocoa belt over the medium to long term, with some projections suggesting parts of Ghana's current growing regions may become less suitable for cocoa cultivation. To the extent these effects materialise over the life of the Programme, they could result in structurally lower cocoa yields and reduced cocoa revenue.

This risk is mitigated by the tenor of the Notes relative to the timeframe over which the climate effects described above are expected to materialise. Those effects are projected over the medium-to long-term, whereas the commercial papers and bonds are issued over materially shorter horizons and are serviced from forward contracts covering near-term crop cycles, which limits the Issuer's exposure to gradual, long-dated changes in growing conditions. There can be no assurance, however, that adverse climate effects will not materialise more rapidly than currently projected, or that they will not affect cocoa yields and revenue within the life of the Programme.

8.6. RISKS RELATING TO THE SECURITY

8.6.1. THE NOTES MAY BE ONLY SUITABLE FOR CERTAIN INVESTORS

Investment in emerging market instruments such as the Notes is generally suitable only for sophisticated investors who understand and accept the associated risks, including commodity price risk, sovereign and quasi-sovereign risk, and limited liquidity. Each prospective investor should determine the suitability of an investment in the Notes in light of his/her own circumstances an, where appropriate, consult its own legal, tax and financial advisors.

This risk is mitigated by the manner in which the Notes are offered and the disclosure provided in this Prospectus. The Notes are intended to be marketed to sophisticated investors who are capable of evaluating the associated risks, and this Prospectus sets out the relevant risk factors to enable each prospective investor to assess the suitability of an investment in light of his/her own circumstances. Prospective investors are further encouraged to obtain independent legal, tax and financial advice before investing. There can be no assurance, however, that the Notes will prove suitable for any particular investor, and each investor remains responsible for his/her own investment decision.

This risk is mitigated by the Notes being directed at sophisticated investors and by the risk disclosure in this Prospectus, which enables each investor to assess suitability and to take independent advice. There can be no assurance, however, that the Notes will prove suitable for any particular investor.

8.6.2. SOVEREIGN DEBT DISTRESS AND THE PRECEDENT OF DOMESTIC DEBT RESTRUCTURING MAY RAISE INVESTOR CONCERNS

Ghana experienced significant public debt distress leading to an IMF-supported programme commencing in 2023, which included a Domestic Debt Exchange Programme ("DDEP") affecting holders of domestic-currency government and government-related debt instruments. As a mitigant, the Notes will be serviced from ring-fenced cocoa cash flows generated under the assigned forward contracts, rather than from the general resources of the Government of Ghana, distinguishing them from the domestic government debt instruments that may be exposed to a sovereign debt restructuring. Nonetheless, Ghana has a recent precedent of restructuring domestic debt instruments issued by, or associated with, state and quasi-state entities, and there can be no assurance that comparable measures affecting COCOBOD-related or other state-linked debt, including the Notes, will not be adopted in a future period of fiscal stress.

8.6.3. UNSECURED AND LIMITED RECOURSE NATURE OF THE NOTES

The Notes are unsecured and are limited recourse obligations of the Issuer. No security is granted over any asset; instead, the Notes are supported only by the assignment of the forward contracts and the related collection accounts, as more particularly described in the transaction documents.

This risk is mitigated by the assignment to the Issuer of the forward contracts and the related collection accounts, which channels the cocoa cash flows directly to the servicing of the Notes and provides a defined, ring-fenced source of repayment notwithstanding the absence of security over other assets. There can be no assurance, however, that the assigned cash flows will be sufficient to meet the Issuer's obligations under the Notes in full.

This risk is mitigated by the assignment of the forward contracts and related collection accounts, which channels cocoa cash flows directly to servicing the Notes as a ring-fenced repayment source.

8.7. RISKS RELATING TO FOREIGN EXCHANGE

8.7.1. THE EXCHANGE RATE VOLATILITY AND EXCHANGE CONTROLS MAY AFFECT TRANSACTION CASH FLOWS AND INVESTOR RETURNS

Cocoa is sold internationally primarily in US Dollars under forward contracts, while the Notes are expected to be denominated in Ghana Cedis. The Issuer's ability to service the Notes therefore depends on the Cedi-equivalent value of the Cocoa Receivables generated under these US Dollar-denominated forward contracts. A sustained appreciation of the Cedi against the US Dollar would reduce the Cedi-equivalent value of the Cocoa Receivables available to the Issuer, which could impair its ability to meet its Cedi-denominated obligations under the Notes. Currency mismatches between the currency in which the Cocoa Receivables are generated (US Dollars, under the forward contracts) and the currency of the Notes (Ghana Cedis) could adversely affect the Issuer's ability to service the Notes, irrespective of COCOBOD's own foreign-currency indebtedness.

In addition, to the extent the Notes are denominated in Ghana Cedis, investors whose financial activities are principally denominated in another currency face currency conversion risk, including the risk of an unfavourable movement in the exchange rate between the Cedi and their base currency, and the risk that the relevant authorities may impose or modify exchange controls affecting the ability to convert or repatriate proceeds.

As a mitigant, the Cocoa Receivables are generated in US Dollars under the forward contracts, so the transaction's exposure arises only from an appreciation of the Cedi against the US Dollar, while a stable or depreciating Cedi would preserve or increase the Cedi-equivalent value available to service the Notes. There can be no assurance, however, as to the direction or magnitude of future exchange rate movements or the imposition of exchange controls.

8.8. RISKS RELATING TO THE ISSUER

8.8.1. THE ISSUER'S LACK OF OPERATING HISTORY AND ASSETS MAY LIMIT ITS ABILITY TO PERFORM ITS OBLIGATIONS

The Issuer is incorporated as a special purpose vehicle for the sole purpose of issuing the Notes and applying the proceeds as described in this Prospectus. The Issuer has no operating history and will not engage in any business other than activities related to the Programme. Its ability to perform its obligations under the Notes will be entirely dependent on the receivables from the forward contracts assigned or otherwise made available to it. Any shortfall or delay in the collection of the Cocoa Receivables will directly affect the Issuer's ability to meet its obligations to Noteholders.

As a mitigant, the Issuer's single, restricted purpose is deliberate: by conducting no business other than the Programme, it is insulated from ordinary operating and third-party liabilities, and its obligations are supported by the ring-fenced Cocoa cashflows.

8.8.2. HIGH LEVERAGED FOLLOWING THE NOTE ISSUANCE MAY AFFECT THE ISSUER'S DEBT SERVICE CAPACITY

Following completion of the capital raise under the Programme, the Issuer will be highly leveraged, with aggregate indebtedness of up to the entire programme size and correspondingly significant debt service obligations. If the Issuer does not receive sufficient inflows of Cocoa Receivables from the assigned forward contracts, it may be unable to meet its debt service obligations, which could lead to a default under, or restructuring of, the Notes.

As a mitigant, the Issuer's debt service obligations are sized to be met from the ring-fenced Cocoa Receivables generated under the assigned forward contracts, so its leverage is supported by a dedicated cash-flow stream rather than by general balance-sheet resources, although this does not eliminate the risk that those receivables prove insufficient.

8.8.3. INEFFICIENCIES IN THE COLLECTION PROCESS MAY DELAY OR REDUCE AMOUNTS AVAILABLE TO THE ISSUER

Collection of the Cocoa Receivables depends on the efficiency and integrity of COCOBOD's internal systems, the LBC network, offtakers, and the banks through which export proceeds are channelled. The Issuer will have limited, or no direct control over these collection processes, and any operational disruption, fraud, or delay in remittance could adversely affect the timing and completeness of amounts available to the Issuer.

As a mitigant, export proceeds are channelled through the assigned collection accounts established under the transaction documents, which are designed to direct the Cocoa Receivables to the Issuer and reduce reliance on discretionary remittance, although the Issuer's limited control over these processes cannot be wholly eliminated.

This risk is mitigated by the channelling of export proceeds through the assigned collection accounts established under the transaction documents, which are designed to direct the Cocoa Receivables to the Issuer and reduce reliance on discretionary remittance, although the Issuer's limited control over these processes cannot be wholly eliminated.

8.9. RISKS RELATING TO THE MARKET

8.9.1. LIMITED SECONDARY MARKET LIQUIDITY MAY AFFECT NOTEHOLDERS' ABILITY TO SELL THE NOTES

While a secondary market exists for the Notes, it may not be highly liquid and trading volumes may be limited at any given time, so Noteholders wishing to sell prior to maturity may be unable to do so promptly or may only be able to sell at a discount to fair value, particularly during periods of market stress or reduced investor demand. This risk is mitigated by the relatively short tenor of the Notes, which means Noteholders can expect repayment at maturity from the cocoa cash flows rather than depending on a sale to realise value, although there can be no assurance that a liquid secondary market will exist at any given time.

8.9.2. MARKET PRICE OF THE NOTE MAY FLUCTUATE SIGNIFICANTLY

The market price of the Notes may fluctuate significantly in response to actual or anticipated changes in cocoa prices, crop conditions, COCOBOD's financial position, the regulatory environment, and broader Ghanaian sovereign credit sentiment, as well as general volatility in global fixed income and emerging markets.

This risk is mitigated by the relatively short tenor of the Notes: interim price fluctuations affect Noteholders only if they sell before maturity, whereas those who hold to maturity are repaid from the cocoa cash flows irrespective of intervening market movements. There can be no assurance, however, as to the market price of the Notes at any given time.

8.9.3. RISING INTEREST RATE MAY ADVERSELY AFFECT THE MARKET VALUE OF THE NOTES

Investment in Notes bearing a fixed rate of interest involves the risk that, if market interest rates subsequently rise above the fixed rate applicable to the Notes, the market value of the Notes will be adversely affected. This risk is mitigated by the relatively short tenor of the Notes, which limits their sensitivity to interest rate movements, and by the fact that a Noteholder who holds to maturity will receive the fixed, predefined cash flows regardless of intervening rate changes. The market value of the Notes on a sale before maturity may nonetheless be adversely affected by rising rates.

8.10. RISKS RELATING TO THE SPONSOR (GHANA COCOA BOARD)

8.10.1. COCOBOD'S EXISTING INDEBTNESS MAY AFFECT ITS ABILITY TO FUND FUTURE COCOA PURCHASES

COCOBOD has historically relied on large annual offshore syndicated trade finance facilities to fund the pre-export purchase of the cocoa crop, in addition to various onshore facilities and other liabilities. The Sponsor's aggregate indebtedness is significant, and its ability to refinance or renew such facilities on satisfactory terms in any given season is not guaranteed. A failure by COCOBOD to secure sufficient annual funding, or a deterioration in the terms on which such funding is available, could reduce the volumes of cocoa purchased and, in turn, the Cocoa revenue generated.

As a mitigant, the Notes are serviced from the ring-fenced Cocoa Receivables assigned to the Issuer rather than from COCOBOD's general balance sheet, which separates repayment of the Notes from the Sponsor's wider indebtedness, and COCOBOD's long-established record of arranging annual cocoa financing supports the continuity of purchasing. There can be no assurance, however, that a shortfall in the Sponsor's funding will not reduce the cocoa volumes and receivables available to the Issuer.

8.10.2. CHANGES IN COCOBOD'S GOVERNANCE, MANAGEMENT AND POLICY RISK MAY AFFECT THE PROGRAMME

The Sponsor is a state-owned entity whose senior management is appointed by the Government of Ghana and has historically changed with changes in government, and its leadership, pricing policy and strategic direction are subject to change following elections or shifts in government policy. Ghana has, in the past, experienced periods of political and economic instability around election cycles, and changes in management, strategic direction or risk appetite at COCOBOD could affect the consistency of the policies underpinning the Programme, including the mechanisms by which the forward contracts and Cocoa Receivables are identified, assigned and collected for the benefit of the Issuer; changes in government policy toward cocoa sector liberalisation, producer pricing, subsidy programmes or COCOBOD's marketing monopoly could likewise affect the cash flows available to service the Notes. As a mitigant, those mechanisms are fixed in the transaction documents, so the Programme's core cash-flow arrangements rest on binding contractual obligations rather than on the continuing discretion of COCOBOD's management, and COCOBOD's central, long-established role in Ghana's cocoa sector supports policy continuity. There can be no assurance, however, that changes in governance, management or government policy will not adversely affect the cash flows available to service the Notes.

9 INFORMATION ON THE ISSUER

9.1. CORPORATE HISTORY OF THE ISSUER

Cocoa Capital Plc is a public company limited by shares incorporated in Ghana under the Companies Act, 2019 (Act 992). The Company was established at the instance of Ghana Cocoa Board ("COCOBOD" or the "Sponsor") as a dedicated financing special purpose vehicle. The Company was incorporated on 7 August 2026 with registration number PL000180826 and taxpayer identification number C0067716725. Its registered office is located at KPMG, Marlin House, 13 Yiyiwa Drive, off Olusegun Obasanjo Way, Abelenkpe, Accra, Ghana, Digital Address: GA-123-6302 and Postal Address: P.O. Box GP 242, Accra, Ghana.

The Issuer was established to support a continuing securities-issuance platform and, subject to applicable law and regulatory approval, is expected to establish a Note Programme. The final terms and structure of each Programme will be set out in the relevant Programme documents and issuance-specific Pricing Supplements.

9.2. OVERVIEW OF THE ISSUER

The Issuer is established exclusively as a special purpose financing vehicle. Subject to applicable law, regulatory approvals, the Issuer Constitution and the Programme Documents, its principal purpose is to raise finance through Notes and apply the proceeds to approved cocoa-sector financing and refinancing purposes.

The Issuer will receive and apply issue proceeds; make or administer funding advances under the Programme Funding Agreement; receive, hold, administer and enforce rights in Designated Receivables and other Programme Assets; maintain controlled Issuer Accounts; apply available monies in accordance with the Payment Waterfall; and pay principal, interest, discount and other amounts due in respect of the Debt Securities and permitted Programme expenses.

The Issuer is not established to operate as a licensed cocoa buyer, cocoa trader, exporter, processor, farmer or other cocoa-operating entity and is not expected to assume commodity-price, production or trading risk in its own right except to the extent expressly authorised by law and required by the Programme Documents

9.2.1. Proposed programmes and instruments

Programme / instrument	Expected purpose
COMMERCIAL PAPER PROGRAMME	Short-tenor financing for approved cocoa-purchase requirements and related working-capital purposes.
BOND PROGRAMME	Medium-term financing for approved refinancing and other permitted programme purposes.

9.3. SHAREHOLDING AND CAPITAL STRUCTURE OF THE ISSUER

The Issuer is registered with 5,000,000 ordinary shares of no-par value, all of which have been issued and fully paid for in cash. As at the date of this Prospectus, the Issuer's stated capital is GHS 5,000,000, and no amount remains unpaid or due on the issued shares.

Ghana Cocoa Board holds all 5,000,000 issued ordinary shares of the Issuer, representing 100% of the Issuer's issued share capital and voting rights.

Shareholder	Shares	Percentage	Consideration / status
Ghana Cocoa Board	5,000,000 ordinary shares	100%	GHS 5,000,000 / paid

The Issuer has no treasury shares as at the prospectus date.

9.4. GOVERNANCE STRUCTURE OF THE ISSUER

The Issuer is governed by its Board of Directors in accordance with the Companies Act, the Issuer Constitution and the Programme Documents. The Board is responsible for direction and oversight, approval of reserved matters, stewardship of Programme Assets, financial reporting, risk management, compliance and supervision of the Corporate Manager and other service providers. Delegation of administrative functions does not relieve the Board or any Director of a duty imposed by law or the Constitution.

9.4.1. The Issuer Board

Director	Position	Age	Appointment date	Representation	Other role / directorships
Mr. John Awuah	Chairman	52	7 August 2026 / statutory appointment date	Independent	Chief Executive Officer, Ghana Association of Banks. Director, GAB Health Insurance; Director, GETFUND; Director, Ghana Investment Promotion Authority; Director, SANLAM General Insurance
Mr. Ato Boateng	Non-Executive Director	46	7 August 2026 / statutory appointment date	COCOBOD	Ag. Deputy Chief Executive (Finance & Administration), COCOBOD
Ms. Yaa Asantewa Asante	Non-Executive Director	47	7 August 2026 / statutory appointment date	Ministry of Finance	Director, Public Debt Management Office, Ministry of Finance.
Prof. Joshua Yindenaba Abor	Non-Executive Director	54	7 August 2026 / statutory appointment date	Independent	Director, Internal Audit Agency; Director, University of Ghana Enterprises Ltd
Dr. Kofi Anokye Owusu-Darko	Non-Executive Director	59	7 August 2026 / statutory appointment date	Independent	Director, Inclusion Ghana

Profile of the Directors

Mr John Awuah – Chairman

John Awuah is the Chief Executive Officer of the Ghana Association of Banks, with an executive management track record spanning over two and a half decades across the financial services sector. He previously served as Chief Executive Officer of Universal Merchant Bank and held senior leadership roles including Finance Director at GCB Bank, Group Chief Finance Officer at

Ecobank Capital, Financial Controller at Barclays Bank of Ghana (now Absa Bank), Chief Finance Officer at UBA Ghana and Finance Business Partner at Standard Chartered Bank Ghana. He is a Fellow of the Association of Chartered Certified Accountants (UK) and a member of the Institute of Chartered Accountants, Ghana, and holds a Bachelor of Commerce degree from the University of Cape Coast and an MBA from the Oxford Institute of International Finance, Oxford Brookes University.

He serves on the Boards and National Committees of, among others, the Chartered Institute of Bankers Ghana, the Private Enterprise Federation, the Ghana Investment Promotion Centre, the Ghana Education Trust Fund and the Cocoa Sector Marketing Committee (COSMARC) and is a member of the Payments Systems Advisory Council of the Bank of Ghana.

Mr Ato Boateng – Director

Ato Boateng is the Acting Deputy Chief Executive (Finance & Administration) at Ghana Cocoa Board, which he joined in February 2025, where he oversees finance, administration, treasury, risk management and institutional reforms. He holds a BSc in Business Administration (accounting option) from the University of Ghana Business School and a master's degree in public administration from Harvard University, focused on change management and leadership. He is a Chartered Accountant (2005) and a CFA Charter holder (2011).

He began his career at PricewaterhouseCoopers as an Audit Trainee in 2004, leaving as a Corporate Finance Consultant in 2007, before joining the International Finance Corporation, the private-sector arm of the World Bank Group, as an analyst and leaving as an Investment Officer in 2016. During this period, he led the financing of the Aboadze Thermal Plant, Ghana's first Independent Power Producer, the Tullow Oil and Kosmos Energy funding of the Jubilee Oil Project, and Vodafone's refinancing of Ghana Telecom's infrastructure acquisition and upgrade. He subsequently advised the Board of Volta Aluminium Company (VALCO) from 2016 to 2018, advised the National Investment Bank on a Trade Finance facility and Axis Pensions on equity financing, and was mandated to assist the Government of Zambia with sovereign debt restructuring. He has also managed Liger Capital Management, a private-equity and financial-advisory firm, and Atlas Commodities Limited, a licensed buying company.

Ms Yaa Asantewa Asante – Ministry of Finance Nominee

Yaa Asantewa Asante is a Chief Economics Officer and Director of the Public Debt Management Office at the Ministry of Finance, Ghana, with over 20 years' experience as an economist at the Ministry. She previously served as Group Head of Budget Monitoring and Reporting (2024–2025) and Head of the Public Expenditure Management Unit (2016–2024) and headed the Investor Relations Unit and the Domestic Debt Management Unit within the Public Debt Management Office. She was a member of the National Bond Market Committee II and led the development of Ghana's first domestic debt issuance calendar.

She holds a BA in Economics and an MSc in Accounting and Finance from the University of Ghana, and an MSc in Financial Economics from the University of Leicester. She is a member of the Institute of Certified Economists of Ghana and was awarded the British Chevening Scholarship in 2005

Prof. Joshua Yindenaba Abor – Non-Executive Director

Professor Joshua Yindenaba Abor is a financial economist and Professor of Finance at the University of Ghana Business School, of which he is a former Dean. He holds a PhD in Finance from Stellenbosch University, having completed PhD coursework in Financial Economics at Harvard University, and is a Fellow of the Association of Chartered Certified Accountants (UK). He serves as an External Fellow at the Centre for Global Finance, SOAS University of London, an

Adjunct Professor of Development Finance at Stellenbosch University, and a member of the Bank of Ghana's Monetary Policy Committee since 2015.

He is currently a Senior Consultant at the ECOWAS Bank for Investment and Development and has previously served as a Consultant and Senior Research Fellow at the African Export-Import Bank and as a Visiting Scholar at the International Monetary Fund. He has held board and committee positions including Chair of the Board of the Internal Audit Agency, member of the Board of Directors of University of Ghana Enterprises Ltd, and Chairman of the Boards of Best Western Premier Hotel, SIC Life Company Ltd and Allianz Life Insurance Company, Ghana. He has authored and edited numerous books and journal articles in finance and development finance.

Dr Kofi Anokye Owusu-Darko – Independent Non-Executive Director

Dr Kofi Anokye Owusu-Darko is a distinguished executive and process consultant with over three decades of experience in banking operations, finance, organisational development and dispute resolution. He has held senior executive roles including Chief Operating Officer at Ideal Finance, Senior Vice President at The Royal Bank Ghana, and Head of Consumer Banking Operations and Head of Operational Risk at Merchant Bank (now UMB Bank). He served as Chief Executive Officer of the National Pensions Regulatory Authority, where he facilitated the development of new pensions investment guidelines for Ghana, achieved financial autonomy for the Authority and developed its five-year strategic plan.

He holds a Doctorate in Business Administration (Leadership & Organisational Change), an LLB, an LLM in Information Technology & Telecommunications, an Executive MBA in Information Technology Management, and professional qualifications including Chartered Banker (ACIB), Certified Management Consultant (CMC), Organisation Development (RODC) and Mediation/ADR (PEM.ADR). He is a facilitator with the China Europe International Business School and founding partner of KAOD Consult.

9.4.2. Issuer Board Committee

The inception committee structure is intentionally lean and proportionate to a dedicated financing SPV. The Audit, Risk and Compliance Committee will be the sole standing Board committee at inception. The Board will retain nomination, remuneration, issuance, funding, treasury, account-mandate and all other reserved functions unless a later delegation is approved in accordance with the Constitution and Programme Documents.

Committee	Mandate	Membership / status
Audit, Risk and Compliance Committee	The Committee will assist the Board with oversight of financial reporting, external audit, internal controls, enterprise and transaction risk, regulatory and tax compliance, related-party transactions, cybersecurity, data protection, business continuity, whistleblowing, incidents and the performance of key service providers.	[INDEPENDENT CHAIR AND MEMBERS - INSERT AFTER THE BOARD IS FULLY CONSTITUTED]

9.4.3. Other Director Matters

Disclosure	Proposed wording / information required
Conflicts of interest	The Issuer is not aware of any actual or potential conflict between the duties of any Director to the Issuer and the Director's private interests or other duties
Directors' interests in shares	None of the Directors holds shares in the Issuer.

Remuneration and benefits	As at the date of the Prospectus, no remuneration or benefits have been paid to any Director
Participation in the offer	None of the Directors intends to participate in an offer of Debt Securities.
Conflicts of interest	The Issuer is not aware of any actual or potential conflict between the duties of any Director to the Issuer and the Director's private interests or other duties

9.4.4. Management of the Issuer

(a) Overview of the Corporate Manager

KPMG is the Corporate Manager of Cocoa Capital Plc (the "Issuer"). The details of the corporate management and administrative services to be provided by KPMG are set out in the Management Services Agreement entered into between the Issuer and KPMG.

KPMG is a partnership established under Ghanaian law and a member firm of the KPMG global organisation of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. KPMG International Limited does not provide services to clients. Each KPMG member firm is a legally distinct and separate entity and describes itself as such.

KPMG operates from its office in Accra and provides a wide range of professional services to public-sector institutions, private-sector organisations, multinational companies, financial institutions, non-profit organisations, donor-funded entities and other organisations operating across various sectors of the economy.

KPMG provides audit, tax and advisory services. Its principal service offerings include financial statement audits, tax compliance and advisory services, accounting advisory, financial management, business-performance improvement, transaction and financial advisory, corporate finance, information technology advisory, internal audit, risk and regulatory advisory, governance, forensic services and managed services.

KPMG's partners and professional staff include qualified accountants, tax professionals, lawyers, management consultants, risk and regulatory specialists, financial advisors, auditors and other professionals. Members of the KPMG team hold relevant academic and professional qualifications and memberships in recognised professional bodies in Ghana and other jurisdictions. KPMG may also draw on relevant technical specialists from other KPMG member firms where specialist expertise is required, subject to the terms of the Management Services Agreement and applicable KPMG risk-management and independence requirements.

KPMG in Ghana currently has approximately 500 personnel, including 20 resident partners, providing services to clients in Ghana and across the West African region.

KPMG is part of a global organisation of independent professional-services firms providing audit, tax and advisory services. As at the time of reporting, the KPMG global organisation operated in 138 countries and had approximately 276,000 partners and employees working in member firms around the world. The independent member firms of the KPMG global organisation are affiliated with KPMG International Limited, a private English company limited by guarantee. Each KPMG member firm is a legally distinct and separate entity.

KPMG's professionals are principally deployed across its Audit, Tax and Advisory practices. KPMG personnel undertake continuing professional development and bring experience from different professional, regulatory, financial and industry backgrounds. This multidisciplinary approach

enables KPMG to combine relevant technical knowledge with an understanding of its clients' businesses, operating environments and regulatory obligations.

KPMG has relevant experience in the establishment, management and continuing administration of special purpose vehicles and structured-finance arrangements in Ghana. This experience includes providing corporate-management and administrative services to Daakye Trust PLC, Ghana Amalgamated Trust PLC and E.S.L.A. Plc. KPMG's services on these engagements have included corporate administration, governance support, maintenance of statutory and corporate records, coordination of Board and shareholder processes, support for securities issuances, monitoring of assigned receivables and debt obligations, preparation of management and financial reports, audit coordination, tax and regulatory compliance, and engagement with Note Trustees, regulators, investors, banks, advisors and other stakeholders..

(b) Principal services of the Corporate Manager

- Implement and maintain Board-approved governance, operating, accounting, reporting and control frameworks.
- Maintain the Issuer's accounting records, chart of accounts, instrument and series/tranche sub-ledgers and controlled document repository within the agreed scope.
- Prepare periodic management information, budgets, cashflow forecasts, cash plans and annual financial statements for Board review and approval.
- Monitor and reconcile issue proceeds, funding advances, Designated Receivables, Issuer Accounts, Programme expenses, reserves and debt-service obligations.
- Prepare payment schedules and coordinate authorised payments in accordance with approved mandates, the Payment Waterfall and the Programme Documents.
- Prepare Board, Audit, Risk and Compliance Committee, Note Trustees, investor, regulator and other agreed reports.
- Maintain compliance calendars, covenant trackers, conditions-precedent checklists, incident registers, breach logs and escalation records.
- Liaise with COCOBOD, the Note Trustees, Account Banks, Issuing Houses, Auditors, Legal Advisors, Regulators and other Transaction Parties within the agreed scope.
- Coordinate routine tax and regulatory filings expressly allocated to KPMG under the Management Services Agreement.
- Support Note issuances by compiling approved Issuer information and performing operational-readiness checks.
- Maintain service-provider registers, performance information, risk and control logs, issue and payment-date checklists and Board action trackers.

(c) Key personnel of the Corporate Manager

Name	Role	Responsibility and profile
Reindolf Annor	Engagement Partner	As Engagement Partner, Reindolf will provide overall leadership, strategic direction and senior oversight for the SPV management engagement. Reindolf will oversee the delivery of corporate administration, financial-management, compliance-monitoring, stakeholder-coordination, reporting and internal-control workstreams. Reindolf will also be responsible for senior-level engagement with the SPV Board, COCOBOD and other relevant stakeholders and for ensuring that significant matters are identified, escalated and resolved promptly.

Frederick Dennis	Quality Assurance Partner	As Quality Assurance Partner, Frederick will provide independent senior review and quality oversight over the principal outputs of the Corporate Manager. This will include governance reports, Board papers, financial reports, compliance updates, stakeholder communications and audit-readiness documentation. Frederick will also support the engagement team in addressing complex financial reporting, governance and capital-market matters.
Raphael Osei-Boafo	Governance and Regulatory Lead	As Corporate Administration, Governance and Regulatory Compliance Lead, Raphael will oversee the maintenance of the SPV's statutory and corporate records, governance calendar, Board and shareholder documentation, regulatory-obligations register and compliance-reporting framework. Raphael will also coordinate regulatory liaison and support the escalation and resolution of legal, governance and compliance matters affecting the SPV and its securities programme.
Stephen Berchie	Engagement Manager	As Engagement Manager, Stephen will be responsible for the day-to-day coordination and delivery of the Corporate Manager's services. Stephen's responsibilities will include coordinating corporate-administration activities, overseeing financial-management and reporting processes, maintaining the engagement workplan, monitoring compliance obligations, coordinating stakeholder requests, managing engagement documentation and escalating material risks and unresolved matters to the Engagement Partner and the SPV's governance bodies.
Sharon Acquaye	Financial Management and Reporting Lead	As Financial Management, Reporting and Audit Readiness Lead, Sharon will oversee the maintenance of the SPV's books and accounting records, preparation of management and financial reports, review of supporting schedules and reconciliations, coordination of financial-statement preparation and management of the annual audit-readiness process. Sharon will also support monitoring of accounting, tax and financial-reporting requirements applicable to the SPV.
Kofi Oduro-Boateng	Governance, Risk, Controls and Performance Management Specialist	As Governance, Risk, Controls and Performance Management Specialist, Kofi will support the design and monitoring of the SPV's governance and internal-control arrangements. Kofi will assist with

		maintaining the risk and issues register, monitoring performance indicators, reviewing supporting documentation, evaluating control effectiveness, reporting operational exceptions and supporting the escalation and remediation of identified risks.

Profiles of Key Personnel of the Corporate Manager

Reindolf Annor, Engagement Partner

Reindolf Annor is a Partner in KPMG's Accounting Advisory Services unit with over 17 years of professional experience in financial management, finance-function transformation, business-process Optimisation, financial reporting, risk and compliance management, and the implementation of financial-management systems.

Reindolf has supported public and private sector organisations in strengthening their finance operations, improving internal controls, documenting financial policies and procedures, implementing accounting and reporting systems, and enhancing the reliability of financial and management information. His experience includes leading engagements involving fund administration, accounting-system integration, finance-process documentation, financial-management training and the development of operational frameworks.

Reindolf holds an MBA and a Bachelor of Science degree in Administration with a specialisation in Accounting. Reindolf is a Fellow of the Association of Chartered Certified Accountants, a member of the Institute of Chartered Accountants, Ghana, and a Lean Six Sigma Green Belt.

Frederick Dennis, Quality Assurance Partner

Frederick Dennis is a Partner in KPMG's Audit practice with over 24 years of experience in audit, assurance and financial advisory services. Frederick has significant experience in the financial-services sector, particularly banking, and has supported engagements involving corporate governance, Board reporting, financial review, assurance and the administration of complex corporate and capital-market structures.

Frederick has held senior roles in the administration of several special purpose vehicles. Frederick served as Lead Administrator for E.S.L.A. Plc, supporting the execution of the Board's strategies for the operationalisation of its note programme. Frederick also served as Lead Corporate Manager for Daakye Trust PLC, where Frederick supported the execution of the Board's strategic directives and presented corporate affairs matters to the Board, shareholders and other stakeholders. Frederick further provided financial-review and advisory support for the administration of Ghana Amalgamated Trust PLC.

Frederick is a member of the Institute of Chartered Accountants, Ghana, and holds a Bachelor of Arts degree in Business Administration from the University of Ghana.

Raphael Osei-Boafo, Corporate Administration, Governance and Regulatory Compliance Lead

Raphael Osei-Boafo is an Associate Director in KPMG's Regulatory Services practice with over 25 years of professional experience in legal practice, financial services, insolvency and restructuring, securitisation, corporate recovery, governance, compliance, risk management, accounting and corporate law.

Raphael heads KPMG's Regulatory and Risk Advisory Services team and has led engagements involving outsourced managed services, SPV administration, corporate governance, regulatory compliance and stakeholder coordination. Raphael has practical experience supporting the

establishment and administration of complex special purpose vehicles, including Daakye Trust PLC, Ghana Amalgamated Trust PLC and E.S.L.A. Plc. Raphael's experience on these engagements has included day-to-day corporate administration, compliance with programme covenants, stakeholder management and engagement with regulators, Note Trustees and noteholders.

Raphael holds Bachelor of Laws and professional legal qualifications, an MBA in Finance from the University of Ghana, a Master of Arts degree in Communication and Information Studies and a Bachelor of Science degree in Business Administration. Raphael is a member of the Institute of Chartered Accountants, Ghana, and a licensed insolvency professional and member of the Ghana Association of Restructuring and Insolvency Advisors.

Stephen Berchie, Engagement Manager

Stephen Berchie is a Senior Manager in KPMG's Accounting Advisory Services unit with over 13 years of professional experience in finance and accounting. Stephen's experience covers outsourced accounting services, finance-process optimisation, public financial management, asset management, financial reporting, process mapping, capacity building and the development and implementation of standard operating procedures.

Stephen has supported clients across the public sector, energy and natural resources, manufacturing, transportation, financial services, not-for-profit and development sectors. Stephen has managed engagements involving fund administration, financial-process documentation, development of treasury and debt-management procedures, banking-system implementation support, institutional assessments and finance-function improvement.

Stephen holds an MBA with a specialisation in Finance and a Bachelor of Science degree in Accounting. Stephen is a Fellow of the Association of Chartered Certified Accountants, a member of the Institute of Chartered Accountants, Ghana, a certified Project Management Professional, a Lean Six Sigma Green Belt and a KPMG-accredited trainer.

Sharon Acquaye, Financial Management, Reporting and Audit Readiness Lead

Sharon Acquaye is a Senior Manager in KPMG's Accounting Advisory Services unit with over 10 years of experience in bookkeeping, accounting support, financial reporting, documentation of policies and procedures, internal controls, tax and regulatory-compliance monitoring, period-end closing, audit readiness and fixed-asset management.

Sharon has led teams providing end-to-end accounting support to organisations across different industries. Her experience includes overseeing the recording and classification of financial transactions, preparing monthly management accounts and annual financial statements, reviewing bank reconciliations, maintaining fixed asset registers and preparing supporting schedules for receivables, payables and other material balances. Sharon has also coordinated audit-readiness activities, responded to external-audit enquiries and supported clients in strengthening their financial-reporting and internal-control processes.

Sharon is a member of the Association of Chartered Certified Accountants and the Institute of Chartered Accountants, Ghana, and holds a Bachelor of Arts degree from the University of Ghana.

Kofi Oduro-Boateng, Governance, Risk, Controls and Performance Management Specialist

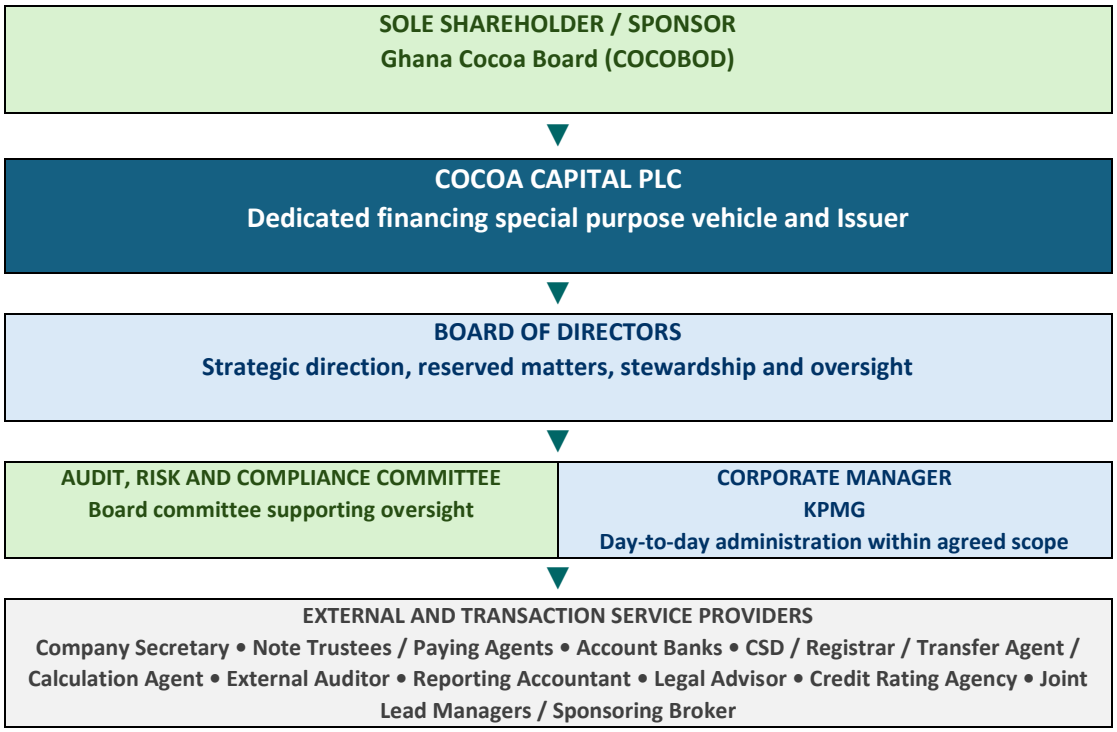

Kofi Oduro-Boateng is a Manager in KPMG's Governance, Risk and Compliance practice with over nine years of experience in governance reviews, operational reviews, value-for-money assessments, internal audit, controls testing, benchmarking, financial and operational-framework assessments and performance improvement.

Kofi has supported clients in the energy, utilities, extractives, healthcare, government, infrastructure and manufacturing sectors. His experience includes reviewing governance structures, assessing operational and financial frameworks, evaluating contractual safeguards,

testing internal controls, reviewing project expenditures and budgets, benchmarking performance and developing recommendations to strengthen efficiency, accountability and value delivery.

Kofi holds a PhD and MPhil degree in Accounting and a Bachelor of Science degree in Administration with a specialisation in Accounting from the University of Ghana Business School. Kofi also holds a Certificate in Contemporary Leadership and is a member of the Chartered Institute of Management Accountants, United Kingdom, and the Institute of Chartered Accountants, Ghana.

Organisational Structure of the Issuer

9.4.5. Corporate Governance

The Issuer is committed to the principles of good corporate governance, transparent decision-making and full and fair disclosure. The Issuer will maintain a governance model proportionate to a continuing financing special purpose vehicle, with a Board-led structure, an Audit, Risk and Compliance Committee, independent oversight, documented reserved matters, service-provider accountability and Note Trustees protections where applicable.

The Issuer will preserve corporate separateness through its own books, accounting records, bank accounts, financial statements, statutory registers, contracts, meetings, stationery and corporate records. Transactions with COCOBOD and other related parties will be documented on arm's-length terms, approved through the Issuer's governance arrangements and disclosed as required.

9.4.7. Internal Control Systems

The Issuer Board, supported by the Corporate Manager within its contracted scope, will establish and maintain internal controls designed to provide reasonable assurance over:

- the efficiency and effectiveness of the Issuer's operations and administration;
- the safeguarding of Programme Assets, cash, records and information;

- compliance with applicable laws, regulatory requirements, the Constitution and the Programme Documents;
- the reliability, completeness and timeliness of financial, management, Note Trustees, investor and regulatory reporting;
- the integrity of payment instructions, tax withholding, debt service, reserves and the Payment Waterfall; and
- continuity of critical processes and orderly replacement or transition of service providers.

9.4.7. Risk Management Structure

The Issuer will maintain a risk-management framework designed to identify, assess, respond to, monitor and report risks arising from securities issuance, Designated Receivables, funding arrangements, bank accounts, refinancing, liquidity, tax, regulatory obligations, related parties, systems, data, service providers and business continuity.

The Corporate Manager will maintain the risk and control register, compliance calendar, covenant tracker and incident and breach registers within the agreed scope and will report material matters to the Issuer Board and the Audit, Risk and Compliance Committee. The Board will set risk limits, approve risk responses and determine whether targeted legal, tax, audit or other independent assurance is required.

The risk-management framework will be reviewed at least annually and when there is a material change in the Programmes, Programme Documents, regulatory environment, service-provider arrangements or cashflow profile.

9.4.8. Code of Business Ethics

The Issuer will adopt a Code of Business Ethics and related policies covering integrity, conflicts of interest, gifts and hospitality, confidentiality, market conduct, anti-bribery and corruption, whistleblowing, sanctions, data protection, records management and dealings with investors and regulators. Directors and persons performing functions for the Issuer will be required to acknowledge the applicable standards and provide periodic confirmations.

KPMG personnel assigned to the engagement will remain subject to KPMG's applicable code of conduct, independence, conflicts, confidentiality, quality and risk-management requirements. Breaches affecting the Issuer will be escalated in accordance with the Management Services Agreement, KPMG procedures and applicable law.

9.5. SUPERVISION AND REGULATION OF THE ISSUER

Cocoa Capital Plc is a Ghanaian public company and a securities issuer. It will be subject to a multi-regulator framework.

Regulatory area	Issuer compliance perimeter
Corporate and governance	Companies Act, 2019 (Act 992) and Companies Regulations, 2023 (L.I. 2473); Office of the Registrar of Companies filings; statutory registers; beneficial ownership; directors and Company Secretary; accounts, audit and annual returns; public-company and prospectus requirements.
Securities and capital markets	Securities Industry Act, 2016 (Act 929), as amended; SEC approval, registration or exemption; applicable SEC regulations, guidelines and directives; GFIM/GSE eligibility and admission; Trust Deed and Note Trustees requirements; CSD registration, ISIN, settlement, registrar and continuing disclosure.
Public finance and state ownership	Ministry of Finance approval or no-objection; borrowing ceilings; fiscal-risk reporting; annual borrowing and financial

	plans.
Tax and duties	Ghana Revenue Authority requirements: Corporate income tax; withholding tax; VAT; stamp duty; transfer pricing; tax administration; taxpayer registration; returns, payments and certificates; and tax mechanics for investor payments and transaction documents.
Foreign exchange and Programme Accounts	Bank of Ghana and authorised-dealer requirements; foreign-currency accounts; conversions and remittances; export proceeds; non-resident investor payments; and any foreign-currency issuance.
Security and insolvency protection	Creation and perfection of security; registration of charges; Collateral Registry filings; receivables and account security; Note Trustees control; priority, enforcement and insolvency considerations.
Financial reporting and audit	IFRS financial statements; accounting records; audit requirements; periodic financial reporting; restricted-account reconciliations; debt and receivables records; and reporting to regulators and security holders.
Financial crime and investor due diligence	AML/CFT/CPF; KYC; beneficial ownership; sanctions and politically exposed person screening; transaction monitoring; suspicious-transaction escalation; and record retention.
Data protection, cybersecurity and electronic records	Data Protection Commission registration and controls; processor arrangements; privacy and retention requirements; Cyber Security Authority requirements; access controls; electronic records; business continuity and incident response.

9.6. ISSUER DISCLOSURES

9.6.1. Related Party Transactions

The Issuer has entered into or expects to enter into material transactions with COCOBOD and KPMG and may enter into transactions with other related parties. Each material related-party transaction will be documented, approved in accordance with applicable law and the Issuer's governance arrangements, undertaken on the terms set out in the relevant Programme Document and disclosed in the Issuer's financial statements and Prospectus.

9.6.2. Subsidiaries and Affiliates

As at the date of this Prospectus, the Issuer has no subsidiaries. However, because COCOBOD is the Issuer's sole shareholder and controlling entity, COCOBOD and other separately incorporated entities under its common control are Affiliates of the Issuer. These include Cocoa Marketing Company (Ghana) Limited, Cocoa Marketing Company (UK) Limited, Quality Control Company Limited and Cocoa Processing Company Limited.

9.6.3. Indebtedness, Commitments and Contingent Liabilities

As at the date of this prospectus, the Issuer has no Financial Indebtedness other than liabilities incurred in connection with its incorporation, establishment of the Programmes and ordinary administration.

9.6.4. Operational Model and Service Providers

Cocoa Capital Plc is a dedicated financing vehicle and will not conduct an operating cocoa business. Its activities will be carried out through the Issuer Board and contracted service providers, including the Corporate Manager, Company Secretary, Note Trustees, Account Banks,

registrar, CSD participant, Issuing Houses, External Auditor, Reporting Accountant, Tax Advisors and Legal Advisors.

9.6.5. Immovable Property and Operating Assets

As at the date of this Prospectus, the Issuer owns no material immovable property or operating assets. Its principal assets are expected to comprise funding receivables, Assigned Cocoa Contracts/Receivables, Programme Assets and monies standing to the credit of the Issuer Accounts.

9.6.6. Insurance

As at the date of this Prospectus, the Issuer holds no insurance policy.

9.6.7 Material Contracts

Document	Parties	Purpose
Trust Deed	Issuer and GCB Bank Plc	Appoints CalBank and GCB as the Note Trustees and establishes Note Trustees' rights, covenants and investor protection obligations
Management Services Agreement	Issuer and KPMG	Appoints KPMG as Corporate Manager to administer and manage the day-to-day corporate and administrative affairs of the Special Purpose Vehicle (SPV) or Issuer.
Financing Agreement	The Issuer, COCOBOD and Cocoa Marketing Company (CMC)	Establishes the basis for which the Issuer finances COCOBOD and the terms of repayment to the Issuer by COCOBOD regulating approved use of funds and accounting mechanisms.
Assignment Agreement	The Issuer, COCOBOD and CMC	Governs the assignment of cocoa contracts/receivables to the Issuer by Cocoa Marketing Company, as a precondition for the financing of COCOBOD
Escrow Account Agreement	The Issuer, Joint Lead Managers, Sponsoring Brokers and Escrow Account Agent	Appoints the Escrow account bank and regulates the terms of the operation of the Escrow Account.
Issuer Account Agreement	The Issuer, the Note Trustees and the Account banks (GCB Bank Plc, CalBank Plc, Stanbic Bank Ltd, and Absa Bank Ghana Ltd)	Appoints the respective account banks to hold designated Issuer accounts based on specified terms
Agency Agreement	Issuer, Note Trustees and CSD	Appoints CalBank as Lead Note Trustee and the Bond Paying Agent, GCB as Co-Note Trustee and the Commercial Paper Paying Agent and CSD as Registrar, Calculation Agent and Transfer Agent.

9.6.8. Litigation, Claims and Regulatory Matters

As at the date of this Prospectus, the Issuer is not engaged in any litigation, arbitration, administrative proceeding or regulatory investigation and is not aware of any pending or

threatened proceeding that has had or could reasonably be expected to have a material adverse effect on the Issuer or either Programme

9.6.9. Conflict of Interest

As at the date of this Prospectus, the Directors, the Corporate Manager and their relevant personnel have no potential conflicts of interest between duties to the Issuer and private interests or other duties.

9.6.10. Auditing

Deloitte & Touche's responsibility as the appointed auditor will be to express an audit opinion on the Issuer's financial statements in accordance with the applicable auditing standards and the terms of its appointment.

9.6.11. Exchange Controls

Subject to applicable Ghanaian foreign-exchange law, securities regulation, tax requirements and authorised-dealer procedures, non-resident investors may subscribe for or purchase the Debt Securities and payments may be remitted through an authorised dealer bank.

9.6.12. Authorisation

The establishment of the [COMMERCIAL PAPER PROGRAMME] and the [NOTE PROGRAMME] and the issue, offer, admission and listing of Debt Securities will be authorised by the following resolutions and approvals: [ISSUER BOARD RESOLUTION]; [SHAREHOLDER RESOLUTION]; [MINISTRY OF FINANCE APPROVAL / NO-OBJECTION` ..

9.6.13. Material Change and Subsequent Events

Since 7 August 2026, there has been no material adverse change in the financial position, prospects or affairs of the Issuer and no material event has occurred.

9.6.14. Tax Status

The Issuer is registered with the Ghana Revenue Authority under taxpayer identification number C0067716725. The Issuer is subject to the tax laws of Ghana and will comply with applicable corporate income tax, withholding tax, value added tax, stamp duty, transfer-pricing and tax-administration obligations.

10 SUMMARY OF FINANCIAL MODEL, REPORTS AND FORECASTS

10.1. SUMMARY REPORT OF THE REPORTING ACCOUNTANT

The report issued by the Reporting Accountant on the historical revenues of Ghana Cocoa Board (COCOBOD) for the financial years ended 30 September 2021 to 30 September 2025 and the Projected Financial Information of Cocoa Capital Plc for the financial period ending 30 September 2026 to 30 September 2031 is set out in Appendix E. The Statement of Affairs of Cocoa Capital Plc as at the date thereof is set out separately in Appendix F. Copies of this can be obtained from the registered offices of the Corporate Manager and/or the Note Trustees during normal business hours of any Business Day.

10.2. REPORT OF THE REPORTING ACCOUNTANT ON HISTORICAL REVENUE FLOWS OF COCOBOD AND COCOA CAPITAL

The historical review considered COCOBOD's cocoa sales volumes, export proceeds, realised cocoa prices to support the transaction structure under the proposed programme. Revenues increased from approximately GHS13.6 billion in FY2021 to GHS48.6 billion in FY2025, demonstrating the adequacy of cocoa export receivables as a source of repayment for the proposed transaction.

The historical review also considers the statement of affairs of Cocoa Capital Plc as at 8th September 2026. The statement of affairs has been prepared to show the capital injection by COCOBOD in establishing Cocoa Capital Plc.

10.3. REPORT OF THE REPORTING ACCOUNTANT ON PROJECTED REVENUE FLOWS AND RECEIVABLES

The Reporting Accountant reviewed the projected financial information of Cocoa Capital Plc for the two-month period ending 30 September 2026 and for the financial years ending 30 September 2027 to 30 September 2031.

Under the transaction structure, selected cocoa export receivables arising from executed forward cocoa sales contracts are assigned by COCOBOD to Cocoa Capital Plc. These receivables serve as the primary source of repayment for Notes issued under the Programme.

The structure of the transaction provides adequate interest and asset coverage. The assigned receivables are projected to exceed annual funding requirements throughout the life of the transaction.

Approximately 40% of projected cocoa export receivables are expected to support the transaction over the forecast period.

10.4. UNDERLYING ASSUMPTIONS FOR THE PROJECTIONS

10.4.1. Projected Cocoa Production and Export Receivables

Projected cocoa production has been based on forecasts prepared by COCOBOD and is expected to increase from approximately 650,000 tonnes in the 2026/27 crop year to approximately 718,000 tonnes by the 2030/31 crop year. The projected growth is driven by productivity enhancement programmes, rehabilitation of farms affected by CSSVD, reintroduction of fertiliser support programmes and reduced cross-border smuggling.

Projected cocoa export proceeds are based on forecast production volumes and projected FOB cocoa prices. Gross FOB revenue is projected to increase from approximately GHS35.0 billion in the first full year of operation to approximately GHS49.3 billion by 2031.

10.4.2. Key Assumptions

Assumption	Basis
Forecast cocoa production	650,000 tonnes rising to 718,000 tonnes
Forecast FOB cocoa price	US$4,500/MT in 2026 increasing to US$5,681/MT by 2030
Exchange rate	GHS11.95/USD in 2026 increasing to GHS12.13/USD by 2031
Receivables assigned to SPV	Approximately 40% of projected export receivables
Commercial Paper coupon	10% per annum
Medium-Term Note coupon	12% per annum
Transaction & service fees	0.6652% of annual funding raised
Administrative expenses	0.1296% of outstanding debt
Growth and Sustainability Levy	2.5%
Corporate tax rate	25%

10.5. FINANCIAL MODEL

10.5.1. Overview

The financial model forecasts the expected financial position, profitability, cash flows and debt servicing capability of Cocoa Capital Plc based on the projected assignment of cocoa sales receivables from COCOBOD to assess the capacity of Assigned Cocoa Contracts/Receivables to support the proposed programme.

The financial model assumes annual Commercial Paper issuances to finance cocoa purchases and Bond issuances to refinance COCOBOD legacy debt. Repayment obligations are supported by assigned receivables generated from COCOBOD's forward cocoa sales contracts.

10.5.2. Summary of Significant Base Case Assumptions

The financial model projects:

- Total assets increasing from approximately GHS6.6 billion in 2026 to a peak of approximately GHS11.5 billion in 2028 before declining as obligations are settled.
- Settlement receivables increasing to over GHS10.6 billion by 2028, supported by Assigned Cocoa Contracts/Receivables.
- Total liabilities peaking at approximately GHS10.9 billion in 2028 before declining through scheduled debt repayments.
- Profit after tax increasing from break-even in 2026 to approximately GHS423 million by 2031.
- Cash balances increasing from GHS5 million at inception to approximately GHS1.95 billion by 2031.

Credit Metrics

Year	Asset Coverage Ratio	Interest Coverage Ratio
2026	1.00x	1.27x
2027	1.03x	1.26x
2028	1.05x	1.27x
2029	1.10x	1.30x
2030	1.15x	1.34x
2031	2.17x	1.27x

11 BOOK-ENTRY ARRANGEMENTS

11.1. FORM OF THE NOTES

The Notes shall be issued, held, transferred and settled exclusively in dematerialised, book-entry form through the Central Securities Depository (GH) LTD (the "CSD").

All Noteholders will be required to open and maintain CSD accounts prior to a purchase under this Programme, if they do not own one already, to which all purchases will be credited upon allotment.

The Notes shall be credited to securities accounts maintained through the CSD in accordance with the CSD Rules.

No physical certificates or definitive Notes shall be issued, and no Noteholder shall be entitled to require the Issuer to issue any such certificate.

The CSD shall maintain the Register electronically in book-entry form, recording the particulars of Noteholders and their respective holdings.

An entry in the Register shall constitute prima facie evidence of ownership of the relevant Notes.

The Issuer shall issue a single Global Note Certificate in respect of each Series or Tranche to the Note Trustees, who shall hold it for the benefit of the Noteholders.

Title to, transfers of, pledges over, and settlement of the Notes shall be effected solely by registration of the relevant electronic entry in the Register in accordance with the CSD Rules, as further provided in the paragraphs headed "Registration and Title" below.

Following issuance, transfers of Notes shall be effected exclusively by electronic book entries in the Register maintained by the CSD.

11.2. THE CENTRAL SECURITIES DEPOSITORY

The CSD is the central depository established under the auspices of the Bank of Ghana and the GSE for the safekeeping, clearing and settlement of debt and equity securities, including those listed on the Ghana Fixed Income Market (“GFIM”).

It operates as a “bank for securities”: every debit or credit of securities is recorded electronically.

It is linked to a network of depository participants - licensed banks, broker-dealers, custodians and Primary Dealers – through which investors access the system.

An investor's Notes are held in dematerialised form and credited to its account with its chosen depository participant, not to an account held directly with the CSD.

The CSD's clearing and settlement system uses the Bank of Ghana as settlement bank, so the securities leg (CSD) and the cash leg (Bank of Ghana) move together on a delivery-versus-payment basis.

11.3. REGISTRATION AND TITLE

Applicable Laws provide otherwise or provide for additional formalities for transfer of title. In so far as Applicable Law requires notification to the debtor for a valid transfer of title to the Notes, the registration of the transfer in the Register shall constitute evidence of this notification. Except as ordered by a court of competent jurisdiction or as required by law, the Noteholder, as reflected in the Register, shall be deemed to be and may be treated as the absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the Noteholder.

The Issuer shall issue a single Global Note Certificate to the Note Trustees in respect of each Series or Tranche of Notes. The CSD shall maintain a record of Noteholders' respective electronic book entries in the Register showing the particulars of Noteholders and their respective holdings

The Issuer, Note Trustees, and CSD shall recognise a Noteholder as the sole and absolute owner of the Notes registered in that Noteholder's name in the Register (notwithstanding any notice of change of ownership or writing thereon or notice of any previous loss or theft thereof) and the Note Trustees shall not be bound to request in writing the CSD to enter any trust in the Register or to take notice of or to accede to the execution of any trust (express, implied or constructive) to which the Notes may be subject.

11.4. TRANSFER OF NOTES

No transfer of Notes may be registered unless a form of transfer has been delivered to the CSD as per the rules of the CSD relating to transfer of securities. Each form of transfer shall be in writing in the usual form or in any other form approved by the CSD. Each form shall be signed by the Noteholder or his duly authorised agent and be delivered to the CSD in respect of the Notes to be transferred and such evidence as to identity, title, authority and legal capacity of the transferor and transferee and their respective agents, if any, as the Issuer or the CSD, may reasonably require (the Transfer Form).

The Register shall contain the name, address and bank account details of the Noteholders. The Register shall set out the Principal Amount of the Notes issued to any Noteholder and shall show the date of such issue, the date upon which the Noteholder became registered as such, and the unique serial numbers of all securities as pertains in the CSD system.

The CSD shall make information on Noteholders contained in the Register available to any Noteholder or any person authorised in writing by the Noteholder as they may reasonably request. The CSD shall not record any transfer other than on Business Days or while the Register is closed. The Register shall be closed during the Book Closure Period. Noteholders entitled to participate in a distribution of Interest, or a Redemption Amount shall be those registered as such on the Last Day to Register.

The CSD shall alter the Register in respect of any change of name, address or bank account number of any of the Noteholders of which it is notified in accordance with these Conditions. In the case of an exercise of the Issuer's right to Redemption by Instalment or an Early Redemption, the CSD will change the holdings in the Register to reflect the redemption and the balance of the holding not redeemed.

Exchange and transfer of Notes shall be effected according to the rules of the CSD and subject to charges by the CSD and brokers.

No Noteholder may require the transfer of a Note to be registered during a Book Closure Period, after any such Note has been called for Redemption, or (in the case of a Redemption by Instalment) during the period beginning on the 3rd Business Day before the Instalment Date and ending on the Instalment Date (both inclusive).

12 GFIM LISTING ARRANGEMENTS & SETTLEMENT

12.1 LISTING

The Notes will be admitted to trading on the Ghana Fixed Income Market (GFIM) and/or any other exchange specified in the Applicable Pricing Supplement.

Listing is supported by the GFIM's existing infrastructure: the Bloomberg E-Trading platform (electronic trading and market surveillance), the CSD trading platform, the CSD's clearing and settlement system, and the CSD's depository system.

Only Primary Dealers, non-PD banks licensed by the SEC, Broker-Dealers and Licensed Dealing Members may deal in the Notes on GFIM; retail Investors access the market through these GFIM Dealers.

Each Series or Tranche will be assigned an ISIN, to be specified in the Applicable Pricing Supplement.

12.2 APPLICATION PROCEDURE

Application for the Notes shall be made through application forms (as set out in Section 14 (Form of Application Form) or such other form as shall be specified by the Issuer. The application forms may be obtained from the head offices of the Joint Lead Arrangers. Applications must be submitted directly to the Joint Lead Arrangers at either of their respective head offices marked for the attention of the "Managing Director", no later than 5pm on the date specified in the Applicable Pricing Supplement. Successful applicants will be notified by the Arrangers of the amount of Notes allotted to them immediately after the allotment date specified in the Applicable Pricing Supplement.

12.3 PAYMENT FOR THE NOTES AND DELIVERY

Payment for the Notes is to be made in full to the Issuer in immediately available funds by the date specified in the Applicable Pricing Supplement. The Notes will be credited electronically on the CSD.

12.4 CLEARING

The Notes have been accepted for clearance through the CSD system. The appropriate ISIN Code for each Tranche or Series of Notes will be specified in the Applicable Pricing Supplement. If the Notes are to be cleared through an additional or alternative clearing system, the appropriate information will be specified in the Applicable Pricing Supplement.

12.5 TRADING AND SETTLEMENT OF NOTES

The Notes will be traded on, or cleared or settled through, the CSD. Subject to the rules and procedures of the CSD and the GFIM, purchases of Notes held within the CSD must be made by or through a GFIM dealer, which will receive a credit for such Notes in their securities account on the CSD's records.

Where the Notes are subscribed for by a GFIM Dealer for the account of its clients (the Investors), the GFIM Dealer shall make arrangements for the Notes to be credited to the securities account of the Investor with the CSD. An Investor will not receive written confirmation from the CSD of its subscription for the Notes. It will, however, expect to receive written confirmations providing details of the transaction, as well as periodic statements of its holdings, from the GFIM Dealer through which the subscription for the Notes were made. Transfers of Notes on the CSD will be effected by entries made on the books of the GFIM Dealers acting on behalf of Investors.

The GFIM Dealers will be responsible for keeping the contact details of the Investors. A notice of change in contact details must be forwarded to the GFIM Dealer through which the Notes were subscribed.

12.6 SELLING RESTRICTIONS

The following are the selling restrictions relating to the Notes:

The Notes being issued under this Prospectus and the Applicable Pricing Supplement are restricted to distribution only within the Republic of Ghana and not for distribution in any other jurisdiction;
each Dealer undertakes that:

- it has complied, and will comply, with all Applicable Laws in relation to any sale or distribution of the Notes; and
- it will not distribute this Prospectus, any Applicable Pricing Supplement or any related offering material outside Ghana.

These selling restrictions may be supplemented or modified with the agreement of the Issuer subject to the approval of the SEC. Any such supplement or modification may be set out in the Applicable Pricing Supplement (in the case of a supplement or modification only relevant to a particular Series or Tranche of Notes) or in a supplement to this Prospectus.

12.7 PAYMENT OF PRINCIPAL AND INTEREST

All payments of Principal Amount, Instalment Amounts, Interest and any Redemption Amount are made in Ghana Cedis, credited by electronic bank transfer. Payments are made only to persons recorded as Noteholders in the Register on the applicable Last Day to Register immediately preceding the relevant Interest Payment Date, Instalment Date or Redemption Date. Investors holding through a GFIM Dealer or depository participant receive payment through that intermediary; neither the Issuer nor the Note Trustees is responsible for onward allocation by the intermediary to the underlying Investor.

12.8 COSTS OF THE BOOK-ENTRY SYSTEM

The CSD, GFIM Dealers and depository participants may levy their own fees for account opening/maintenance, settlement and safekeeping. Such fees are not fees of the Issuer and will not be reimbursed by the Issuer. Prospective investors should confirm fee schedules with their chosen GFIM Dealer or depository participant before subscribing or trading.

12.9 APPLICATION GUIDELINES

The following guidance is provided to assist Applicants in completing this Application Form. It should be read together with the Prospectus and the Applicable Pricing Supplement.

12.10 COMPLETING THIS FORM

12.10.1 All applications must be made without any condition stated by the Applicant, and any alteration to this form must be authenticated by the Applicant's full signature.

12.10.2 Under no circumstances may the name of the Applicant be changed once submitted; an application form altered in this way will be treated as invalid.

12.10.3 All Applicants must open and maintain a Central Securities Depository (CSD) account for the entire duration of the Notes.

12.11 GUIDE TO SECTION A – APPLICANT DETAILS

12.11.1 Tick the box that best describes the Applicant's investor type. Where none of the listed categories applies, tick “Other” and specify.

12.11.2 Individual Applicants complete “Surname” and “Other Names”. Corporate Applicants state the full registered/corporate name under “Surname / Corporate Name” only; “Other Names” does not apply.

12.11.3 “Joint Applicant's Surname and Other Names” should be completed only where the application is made jointly by two or more individuals.

12.11.4 Provide a contact person (for corporate Applicants) or next of kin (for individual Applicants), a full postal address, a telephone number and an e-mail address, as these will be used for allotment notifications and other communications regarding this Issue.

12.12 GUIDE TO SECTION B – SUBSCRIPTION

12.12.1 State the Participation Amount in GHS and in words. The amount applied for must not be less than the minimum subscription amount stated in Section B, and any amount in excess of the minimum must be in the integral multiples specified; applications that do not comply may be rejected.

12.12.2 State the Bid Yield (%) at which the Applicant is willing to participate. This is a bid, not a guaranteed rate; the actual yield applicable to the Notes will be determined through the book-building process and may differ from the rate bid by the Applicant.

12.13 GUIDE TO SECTION C – CENTRAL SECURITIES DEPOSITORY ALLOTMENT PREFERENCE

12.13.1 Tick one box only. “CSD Standalone Account” applies where the Applicant holds a direct account with the CSD in its own name. “CSD Sub-Account under a Primary Dealer” applies where the Applicant's holding will instead be nested within a Primary Dealer's own CSD account.

12.13.2 State the CSD account number to which the Notes allotted to the Applicant are to be credited electronically.

12.14 GUIDE TO SECTION D – DECLARATION

12.14.1 Tick each box to confirm the Applicant's eligibility to participate, acknowledgement of the terms of the Pricing Supplement, and authorisation to be entered on the register of Noteholders.

12.14.2 An application, once submitted, is irrevocable and may not be withdrawn or amended without the Issuer's prior written consent. The Issuer reserves the right to accept or reject any application, in whole or in part, without assigning any reason, and successful Applicants will be notified of the amount allotted to them by the time specified in the Applicable Pricing Supplement.

12.15 GUIDE TO SECTION E – SIGNATURES

12.15.1 The form must be signed by the Applicant exactly as its name appears in Section A. Corporate Applicants must affix the company seal (or state the RC number) and provide the name and designation of the authorised signatory; joint Applicants must provide a second signature.

12.16 GUIDE TO SECTION E – SIGNATURES

12.16.1 Completed application forms, together with evidence of payment where applicable, must be submitted through the Applicant's Primary Dealer or GFIM Dealer no later than the closing time and date stated at the top of this form.

13 CONDITIONS

The following are Conditions of the Notes to be issued by the Issuer under the Programme. The Applicable Pricing Supplement in relation to any Series or Tranche may specify other terms and conditions, which shall, to the extent so specified or to the extent inconsistent with the Conditions, replace or modify the following Conditions for the purpose of such Series or Tranche. The Conditions, as replaced or modified by the Applicable Pricing Supplement, will be incorporated by reference in each Note.

The Notes are issued subject to the Trust Deed. The statements in these Conditions include summaries of, and are subject to, the detailed provisions of the Trust Deed. Copies of the Trust Deed are available for inspection by the Noteholders, upon request, at the registered offices of the Issuer and the Note Trustees (being at the date hereof, 23 Independence Avenue, Ridge, Accra and No. 2 Thorpe Road, John Evans Attah Mills High Street, Accra) and for so long as any Notes remain outstanding.

1. AUTHORISATION, ISSUE AND SUBSCRIPTION

1.1. Authorisation

1.1.1. The Notes are issued by the Issuer in accordance with, and subject to these Conditions, which were approved by resolutions of the Issuer Board passed on 4th September 2026 as well as the sole shareholder of the Issuer passed on 14th September 2026.

1.1.2. A total Principal Amount of GHS16,300,000000,000 is authorised for the issue under this Programme. The Principal Amount of each Note issued by the Directors shall be as recorded in the Applicable Pricing Supplement.

1.2. Issue and Subscription

1.2.1. The Issuer may issue Notes to such applicants and on such dates as the Issuer deems fit. The Issuer reserves the right, in its sole discretion, to refuse any application in whole or in part, or to accept some applications for the Notes in full and others in part, or to refuse all applications for the Notes on any basis determined by it.

1.2.2. Each Noteholder shall be held subject to the Conditions, which shall be binding on the Issuer and each Noteholder.

1.2.3. The Noteholders are (by virtue of their subscription for, or purchase of, the Notes) deemed to have notice of, entitled to the benefit of, and are subject to, all the provisions of the Trust Deed.

2. FORM, DENOMINATION, TITLE AND TRANSFER

2.1. Form of Notes

2.1.1. The Notes are in dematerialised form and will be electronically maintained on the CSD with an identifying number that will be recorded in the Register.

2.1.2. All Noteholders will be required to open and maintain CSD accounts, which will be credited with the Notes upon issue.

2.2. Denomination of the Notes

Notes shall be issued in the Currency specified in the Applicable Pricing Supplement.

2.3. Title of the Notes

2.3.1. Title to the Notes shall pass by registration in the Register, unless Applicable Laws provide otherwise, or provide for additional formalities for transfer of title. In so far as Applicable Law requires notification to the debtor for a valid transfer of title to the Notes, the registration of the

transfer in the Register shall constitute evidence of this notification. Except as ordered by a court of competent jurisdiction or as required by law, the Noteholder, as reflected in the Register, shall be deemed to be and may be treated as the absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the Noteholder.

2.3.2. The Issuer shall issue a single Global Note Certificate to the Note Trustees in respect of each Series or Tranche of Notes. The CSD shall maintain a record of Noteholders' respective electronic book entries in the Register showing the particulars of Noteholders and their respective holdings.

2.3.3. The Issuer, Note Trustees, and CSD shall recognise a Noteholder as the sole and absolute owner of the Notes registered in that Noteholder's name in the Register (notwithstanding any notice of change of ownership or writing thereon or notice of any previous loss or theft thereof) and the Note Trustees shall not be bound to request in writing the CSD to enter any trust in the Register or to take notice of or to accede to the execution of any trust (express, implied or constructive) to which the Notes may be subject.

2.4. Transfer of the Notes

2.4.1. No transfer of Notes may be registered unless a form of transfer has been delivered to the CSD as per the rules of the CSD relating to transfer of securities. Each form of transfer shall be in writing in the usual form or in any other form approved by the CSD. Each form shall be signed by the Noteholder or his duly authorised agent and be delivered to the CSD in respect of the Notes to be transferred and such evidence as to identity, title, authority and legal capacity of the transferor and transferee and their respective agents, if any, as the Issuer or the CSD, may reasonably require (the **Transfer Form).**

2.4.2. The Register shall contain the name, address and bank account details of the Noteholders. The Register shall set out the Principal Amount of the Notes issued to any Noteholder and shall show the date of such issue, the date upon which the Noteholder became registered as such and the unique serial numbers of all securities as pertains in the CSD system.

2.4.3. The CSD shall make information on Noteholders contained in the Register available to any Noteholder or any person authorised in writing by the Noteholder as they may reasonably request. The CSD shall not record any transfer other than on Business Days or while the Register is closed.

2.4.4. The Register shall be closed during the Book Closure Period. Noteholders entitled to participate in a distribution of Interest, or a Redemption Amount shall be those registered as such on the Last Day to Register.

2.4.5. The CSD shall alter the Register in respect of any change of name, address or bank account number if any of the Noteholders of which it is notified in accordance with these Conditions.

2.4.6. In the case of an exercise of the Issuer's right to Redemption by Instalment or an Early Redemption, the CSD will change the holdings in the Register to reflect the redemption and the balance of the holding not redeemed.

2.4.7. Exchange and transfer of Notes shall be effected according to the rules of the CSD and subject to charges by the CSD and brokers.

2.4.8. No Noteholder may require the transfer of a Note to be registered during a Book Closure Period, after any such Note has been called for Redemption, or (in the case of a Redemption by Instalment) during the period beginning on the 3rd Business Day before the Instalment Date of and ending on the Instalment Date (both inclusive).

3. STATUS OF NOTES

The Notes constitute direct, general, unconditional, unsecured and unsubordinated obligations of the Issuer and shall rank pari passu among themselves and (save for certain obligations required to be preferred by Applicable Law) equally with all other present and future unsecured and unsubordinated obligations of the Issuer, from time to time outstanding.

4. NEGATIVE PLEDGE

So long as any Note remains outstanding, the Issuer shall not create, incur, assume or permit to arise or subsist any Encumbrance upon the whole or any part of its undertakings, assets or revenues, present or future, to secure any Financial Indebtedness unless at the same time or prior thereto the Issuer's obligations under the Notes:

(a) are secured equally and rateably therewith, to the satisfaction of the Note Trustees; or

(b) have the benefit of such other arrangement as shall be approved by a Special Resolution (as defined in the Trust Deed) of the affected Noteholders.

5. INTEREST

5.1. Interest on Fixed Rate Notes

5.1.1. Each Fixed Rate Note bears Interest on its outstanding Principal Amount from the Interest Commencement Date at the rate *per annum* (expressed as a percentage) equal to the Interest Rate, such Interest being payable in arrears on each Interest Payment Date up to the Maturity Date or Redemption Date.

5.1.2. If a Fixed Coupon Amount or a Broken Amount is specified in an Applicable Pricing Supplement, the amount of Interest payable on each Interest Payment Date in respect of the Fixed Interest Period will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and, in the case of the Broken Amount, will be payable on the particular Interest Payment Date(s) specified hereon.

5.2. Interest on Floating Rate Notes

5.2.1. Each Floating Rate Note bears Interest on its outstanding Principal Amount from the Interest Commencement Date at the rate *per annum* (expressed as a percentage) equal to the Interest Rate, such Interest being payable in arrears on each Interest Payment Date up to the Maturity Date or Redemption Date.

5.2.2. Business Day Convention

5.2.2.1. If any date referred to in these Conditions would otherwise fall on a day that is not a Business Day then such date is subject to adjustment by:

(a) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event
   (i) such date shall be brought forward to the immediately preceding Business Day and
   (ii) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment;

(b) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day;

(c) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day; or

(d) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day

5.2.3. Interest Rate for Floating Rate Note

5.2.3.1. Interest Rate payable, from time to time, in respect of the Floating Rate Notes shall be determined in the manner specified in the Applicable Pricing Supplement.

5.2.3.2. The Interest Rate for each Interest Period shall be either

(a) the offered quotation; or

(b) the arithmetic mean (rounded if necessary to the second decimal place, with 0.002 being rounded upwards) of the offered quotation,

(expressed as a percentage rate *per annum*) for the Reference Rate (as specified in the Applicable Pricing Supplement), in the case of Government of Ghana treasury bill rate on the relevant Interest Determination Date (as specified in the Applicable Pricing Supplement) plus or minus the margin (if any), all as determined by the Calculation Agent.

5.3. Accrual of Interest

Interest shall cease to accrue on each Note on the Redemption Date, unless payment of the Principal Amount is improperly withheld or refused, in which event, Interest shall continue to accrue (before as well as after judgment) at the Interest Rate in the manner provided in this Condition 5, together with Default Interest, to the date of actual payment.

5.4. Minimum Interest Rate and/or Maximum Interest Rate

5.4.1. Pricing Supplement specifies a Minimum Interest Rate for any Interest Period, then, in the event that the Interest Rate in respect of such Interest Period (determined in accordance with this Condition 5) is less than such Minimum Interest Rate, the Interest Rate for such Interest Period shall be such Minimum Interest Rate.

5.4.2. If the Applicable Pricing Supplement specifies a Maximum Interest Rate for any Interest Period, then, in the event that the Interest Rate in respect of such Interest Period (determined in accordance with this Condition 5) is greater than such Maximum Interest Rate, the Interest Rate for such Interest Period shall be such Maximum Interest Rate.

5.5. Calculation of Interest

5.5.1. The Interest payable in respect of any Note for any Interest Period shall be calculated by multiplying the Interest Rate and the outstanding Principal Amount by the applicable Day Count Fraction, unless the amount of Interest (or a formula for its calculation) is specified in the Applicable Pricing Supplement in respect of such Interest Period (the **Applicable Pricing Supplement Interest Amount**), in which case the Interest payable in respect of such Note for such Interest Period shall equal the Applicable Pricing Supplement Interest Amount. Where any Interest Period comprises 2 or more Interest Periods, the amount of Interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Periods.

5.5.2. **Day Count Fraction** in this Condition 5 means:

(a) If if **Actual/365** or **Actual/Actual** is specified in the Applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of

(i) the actual number of days in that portion of the Interest Period falling in a leap year

divided by 366 and

(ii) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365)

(b) if **Actual/365 (Fixed)** is specified in the Applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;

(c) if **Actual/364** is specified in the Applicable Pricing Supplement, the actual number of days in the Interest Period divided by 364;

(d) if **Actual/360** is specified in the Applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360; and

(e) if **30/360**, **360/360** or **Basis** is specified in the Applicable Pricing Supplement, the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12, 30-day months (unless (i) the last day of the Interest Period is the 31st day of a month but the first day of the Interest Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Interest Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)).

5.5.3. For the purposes of any calculation of Interest required pursuant to these Conditions unless otherwise specified:

(a) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up);

(b) all Interest and Interest Rate figures shall be rounded to 2 decimal places (with halves being rounded up); and

(c) any Currency amount that falls due and payable shall be rounded to the nearest unit of the Currency (with halves being rounded up). For these purposes **unit** means the lowest amount of the Currency.

5.6. Denomination and Notification of Interest Rate, Interest and Redemption Amount

5.6.1. Determination of Interest or redemption Amount

5.6.1.1. The Calculation Agent shall (as soon as practicable after the Relevant Time or as it may be required to) determine any Interest Rate, obtain any quotation, or calculate any Default Interest, Interest or Redemption Amount or other amount (as the case may be) for review by the Note Trustees.

5.6.1.2. The Calculation Agent shall (as soon as practicable on the first day of the Book Closure Period) determine any Interest Rate, obtain any quotation, or calculate any Interest or Redemption Amount or other amount (as the case may be) for review by the Note Trustees.

5.6.2. Notification of Interest

5.6.2.1. In relation to the determination under Condition 5.6.1.1, the Calculation Agent shall cause:

(a) the determination of such Interest Rate, obtaining of such quotation, or calculation of such Interest or Redemption Amount or other amount (as the case may be) and the relevant Interest Payment Date, to be notified to the Issuer, the Paying Agents and the Note Trustees; and

(b) the Interest Rate and the relevant Interest Payment Date to be notified to the Noteholders, no later than the 4th Business Day after such determination or calculation.

5.6.2.2. In relation to the determination under Condition 5.6.1.2, the Calculation Agent shall cause the determination of such Interest Rate, obtaining of such quotation, or calculation of such Interest or Redemption Amount or other amount (as the case may be) and the relevant Interest Payment Date, to be notified to the Issuer, the Paying Agents, the Note Trustees and the Noteholders, no later than the 4th Business Day after such determination or calculation

5.6.2.3. Where any Interest Payment Date or Interest Period date is subject to adjustment pursuant to Condition 5.2.2 (Business Day Convention), the Interest and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period

5.6.3. Finality of Determination

The determination of any rate or amount, the obtaining of any quotation and the making of each determination or calculation by the Calculation Agent in accordance with these Conditions shall (in the absence of manifest error) be final and binding upon all parties.

6. REDEMPTION, PURCHASE AND CANCELLATION

6.1. Redemption by Instalment

Unless previously redeemed, purchased and cancelled as provided in this Condition 6, each Note which provides for Instalment Dates and Instalment Amounts shall be partially redeemed by instalments on each Instalment Date at the relevant Instalment Amount specified in the Applicable Pricing Supplement. The outstanding nominal amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Note, such proportion) for all purposes with effect from the relevant Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the date on which full payment of such Instalment Amount is made.

6.2. Final Redemption

Unless previously redeemed, purchased and cancelled as provided in this Condition 6, each Note shall be finally redeemed on the Maturity Date or Redemption Date specified thereon at its Final Redemption Amount.

6.3. Early Redemption

The Early Redemption Amount payable in respect of any Note shall be the Final Redemption Amount unless otherwise specified in the Applicable Pricing Supplement.

6.4. Optional Redemption

6.4.1. Notes (which have a Call Option as indicated under an Applicable Pricing Supplement) may be redeemed at the option of the Issuer at any time, on giving not less than 30 Business Days' but no more than 60 Business Days' notice to the Noteholders (which notice shall be irrevocable), at the Principal Amount (together with Interest accrued to the Redemption Date).

6.4.2. Upon expiry of any such notice as referred to in this Condition 6.4, the Issuer shall be bound to redeem the Notes in accordance with this Condition 6.4.

6.4.3. All Notes in respect of which an Exercise Notice is served shall be redeemed, on the date specified in such notice in accordance with this Condition 6.

6.4.4. In the case of a partial redemption pursuant to a Call Option, the notice to Noteholders shall also contain the applicable Notes to be redeemed. In the case of a partial redemption, each Note in a

Series or a Tranche shall be redeemed in the same percentage of its Principal Amount outstanding. In the case of partial redemption of all Notes, each Series or Tranche shall be redeemed in that percentage of the funds available for payment in redemption as the aggregate Principal Amount outstanding in that Series or Tranche bears to the aggregate Principal Amount of all Notes outstanding and each Note in the Series or Tranche shall be redeemed in the same percentage of Principal Amount outstanding, subject to compliance with any Applicable Laws.

6.5. Purchases

6.5.1. The Issuer may at any time (if the market conditions are appropriate) purchase (or procure others to purchase for its account) all or any portion of the outstanding Notes at any price in the open market or by tender or by private treaty.

6.5.2. In the case of a purchase by tender, the terms for purchasing the outstanding Notes by tender shall be as set out in a tender notice (which notice shall be irrevocable) to be published up to 5 Business Days to the effective date of the relevant purchase. The terms of any purchase shall include the purchase price (or the details of any switch for new Notes), the maximum acceptance amount (including any intention to purchase more or less than such maximum amount and the criteria for accepting more or less), the commencement date, the closing date, the results announcement date and the settlement date.

6.5.3. The Issuer shall not be bound to accept for purchase any outstanding Notes tendered pursuant to any tender notice. The acceptance (for purchase by the Issuer) of outstanding Notes shall be at the sole and absolute discretion of the Issuer and tenders may be rejected in whole or in part by the Issuer for any reason.

6.5.4. Notes so purchased may be held or resold or surrendered for cancellation, at the option of the Issuer. Any Notes so purchased, while held by or on behalf of the Issuer or any Affiliates, shall not entitle the Noteholder to vote at any Meeting and shall not be deemed to be outstanding for the purposes of calculating quorums at Meetings.

6.6. General

6.6.1. Notes purchased by or on behalf of the Issuer, or any Affiliates may be cancelled and if so, together with all Notes redeemed by the Issuer, may not be reissued or resold and the obligations of the Issuer in respect of any cancelled Notes shall be discharged. Notes that have been cancelled shall be notified to the CSD.

6.6.2. Notwithstanding any provision in this Condition 6, the Issuer shall not redeem any of the Notes within 12 months of the relevant Issue Date.

7. PAYMENTS

7.1. General

7.1.1. Note Repayments shall be made by the Issuer via electronic funds transfer to the Trust Account by 9:00 am, 14 Calendar Days before the relevant Note Repayment Date. Such payment into the Trust Account by the Issuer shall be a valid discharge by the Issuer of its obligation to make the relevant Note Repayment, provided that if any such payment is made after the relevant Note Repayment Date, payment shall be deemed not to have been made by the Issuer until the full sum is paid to the Noteholders.

7.1.2. All payments shall be made in the following order of priority and ranking:

(a) first, towards any Interest then due and payable by the Issuer; and

(b) *second*, towards any Instalment Amount, Principal Amount or Redemption Amount then due and payable by the Issuer.

7.2. Payment Upon Redemption

7.2.1. in respect of Interest, to Noteholders registered as such on the Last Day to Register immediately preceding the Interest Payment Date in question;

7.2.2. in respect of Instalment Amounts, to Noteholders registered as such on the Last Day to Register immediately preceding the Instalment Date in question; and

7.2.3. in respect of an Early Redemption Amount or a Final Redemption Amount, to Noteholders re registered as such on the Last Day to Register prior to the relevant Redemption Date.

7.3. Method of Payment

7.3.1. Note Repayments shall be made in GHS when due and the amounts credited via bank transfer to Noteholders.

7.3.2. Payment instructions (for value on the due date or, Business Day Convention per the Applicable Pricing Supplement) will be initiated (i) on the due date for payment, and (ii) on the due date for payment (in the case of Interest due other than on Redemption).

7.3.3. All payments of in respect of the Notes are subject, in all cases, to any Applicable Laws, but without prejudice to the provisions of Condition 8 (Taxation).

7.3.4. No commissions or expenses shall be charged to the Noteholders in respect of such payments.

7.4. Partial Payments

If at any time a partial payment of Principal Amount, Interest or Instalment Amount is made in respect of any Note, the CSD shall endorse the Register with a statement indicating the amount and date of such payment.

7.5. Unclaimed Payment

The Issuer shall submit a report of any unclaimed payments of Note Repayments to the SEC on an annual basis.

8. TAXATION

All payments of Interest made by the Issuer to the Noteholders in respect of the Notes will be subject to withholding tax under the Income Tax Act except where the Noteholder is exempt under Applicable Laws.

9. PRESCRIPTION

Claims against the Issuer for Note Repayments shall become void unless presented for payment within 6 years from the date on which such payment first becomes due.

10. MEETING OF NOTEHOLDERS, MODIFICATION &WAIVERS, INFORMATION AND SUBSTITUTION

10.1. Meetings of Noteholders

10.1.1. The Trust Deed contains provisions for convening Meetings to consider any matter affecting their interests, including the modification of these Conditions and the Trust Deed. Those provisions have been summarised under this Condition 10.1.

10.1.2. The Issuer or the Note Trustees may convene a Meeting at any time in respect of the relevant Tranche Notes, the relevant Series Notes or all Notes. The Issuer or the Note Trustees will determine the date, time and place for such Meetings. The Issuer or the Note Trustees shall convene a Meeting if so requested in writing by the relevant Tranche Noteholders, the relevant Series Noteholders or Noteholders holding not less than 51% in aggregate of the total Principal Amount of the relevant Tranche Notes, the relevant Series Notes or all Notes (as applicable) then outstanding (**Requisition Notice**). A Requisition Notice shall state the purpose of the Meeting and shall be served on the Issuer and the Note Trustees in accordance with Condition 11 (Notices). If the Issuer does not proceed to call a Meeting within 30 calendar days of the service of the Requisition Notice, the requisitionists may instruct the Note Trustees to convene the Meeting, but the Meeting so convened shall be held within 60 calendar days from the date of service of the Requisition Notice and shall be convened as nearly as possible in the same manner as that in which Meetings may be convened by the Issuer. Notice of the Meeting shall be given to the Issuer.

10.1.3. The Issuer or the Note Trustees shall give to the Issuer or the Note Trustees and the Noteholders (or their agents), at least, 21 calendar days' written notice (specifying the place, day and time of the Meeting and the purpose of the Meeting). The notice period may be shortened if the relevant Tranche Noteholders, the relevant Series Noteholders, or Noteholders (as applicable) (of, at least, 51% of the outstanding aggregate of the total Principal Amount of the relevant Tranche Notes, the relevant Series Notes or all Notes (as applicable)) agree in writing to a shorter period. The notice (to be given in accordance with Condition 11 (*Notices*)) shall set out the full text of any resolutions to be proposed unless the Note Trustees agrees that the notice shall instead specify the nature of the resolutions without including the full text. The accidental omission to give such notice to the Issuer or the Note Trustees or any Noteholder (or their agents) or the non-receipt of any such notice, shall not invalidate the proceedings at a Meeting.

10.1.4. No business shall be transacted at a Meeting unless a quorum is present at the time when the M Meeting proceeds to business. The quorum for any Special Resolution shall consist of the relevant Tranche Noteholders, the relevant Series Noteholders, or all Noteholders (either present in person or by proxy) holding in the aggregate not less than 75% of the outstanding aggregate of the total Principal Amount of the relevant Series Notes, relevant Tranche Notes or all Notes (as applicable). The quorum for any Ordinary Resolution shall consist of the relevant Tranche Noteholders, the relevant Series Noteholders, or all Noteholders (either present in person or by proxy) holding in the aggregate not less than 51% of the outstanding aggregate of the total Principal Amount of the relevant Series Notes, relevant Tranche Notes or all Notes (as applicable).

10.1.5. The chairman of a Meeting shall be appointed by the Note Trustees. An individual (who may, but need not be a Noteholder) nominated in writing by the Note Trustees may take the chair at any Meeting but, if no such nomination is made or if the individual nominated is not present within 15 minutes after the time fixed for the Meeting, those present shall elect one of themselves to take the chair failing which, the Note Trustees may appoint a chairman.

10.1.6. The chairman of a Meeting may (with the consent and direction of the Issuer and the Note Trustees) adjourn a Meeting. The Note Trustees or the Issuer shall give, at least, 14 calendar days' written notice of the place, day and time of an adjourned Meeting to the Issuer or the Note Trustees and each relevant Noteholder (or their agent). The notice shall state that the relevant Noteholders (present in person or by proxy at the adjourned Meeting) will constitute a quorum.

10.1.7. Any resolution put to the vote at a Meeting shall be decided on a physical show of hands (**Physical Show of Hands**) or (in the case of a Meeting held by telephone, video conferencing or other electronic means of audio or audio/visual communication) by any audio and/or virtual form of reacting to the vote put in place by the Issuer (**Virtual Show of Hands**) unless (before or on the

declaration of the result of the Physical Show of Hands or the Virtual Show of Hands (together, the **Show of Hands**) a poll is demanded by the chairman of the Meeting, the Note Trustees, the Issuer or by any Noteholder (present in person or by proxy). A poll demanded on the election of a chairman or on the question of the adjournment of a Meeting shall be taken immediately. A poll demanded on any other question shall be taken at such time as the chairman directs and the result of such poll shall be deemed to be the resolution of the Meeting. In the case of an equality of votes, whether on a Show of Hands or on a poll, the chairman shall not be entitled to a casting vote in addition to the vote, if any, to which he is entitled.

10.1.8. On a Show of Hands each Noteholder (present in person or by proxy) shall have one vote. On a poll, each Noteholder (present in person or by proxy) shall have one vote for each value of the minimum denomination (as stated in the Applicable Pricing Supplement) of the outstanding aggregate of the total Principal Amount of the relevant Series Notes, relevant Tranche Notes or all Notes held by it. Any joint holders of Notes shall have only one vote on a Show of Hands and one vote on a poll for each value of the minimum denomination (as stated in the Applicable Pricing Supplement) of the outstanding aggregate of the total Principal Amount of the relevant Series Notes, relevant Tranche Notes or all Notes of which they are the registered holder and the vote may be exercised only by that holder present whose name appears first on the Register in the event that more than one of such joint holders is present in person or by proxy at the Meeting.

10.1.9. Noteholders may vote on a poll or on a Show of Hands either in person or through a proxy who is not required to be a Noteholder (appointed by a proxy form signed by the Noteholder or, in the case of a corporation, executed under its common seal or signed on its behalf by an attorney of a duly authorised officer of the corporation). The proxy form shall be deposited at the registered office of the Issuer or at the office where the Register is kept or at such other office as the Issuer may determine not less than 24 hours before the time appointed for holding the Meeting or adjourned Meeting at which the person named in such proxy form proposes to vote, and in default, the proxy shall be invalid. No proxy form shall be valid after the expiration of 6 months from the date named in it as the date of its execution.

10.1.10. Subject to the Conditions and the provisions of the Trust Deed, the relevant Series Noteholders, the relevant Tranche Noteholders or all Noteholders shall have power (exercisable by Special Resolution) to approve any proposal by the Issuer to among others:

(a) Interest Payment Date or Instalment Date on the Notes;

(b) reduce or cancel the Instalment Amount or the Principal Amount of, or any premium payable on Redemption of, the Notes;

(c) reduce the Interest Rate(s) in respect of the Notes or to vary the method or basis of calculating the amount of Interest and/or Interest Rate(s) or the basis for calculating any Interest in respect of the Notes;

(d) reduce any Minimum Interest Rate and/or Maximum Interest Rate;

(e) amend any financial covenant set out in any Applicable Pricing Supplement;

(f) vary any method of, or basis for, calculating the Redemption Amount;

(g) vary the Currency or Currencies of payment of the Notes;

(h) modify the provisions concerning the quorum required at any Meeting or any adjournment of such Meeting or the majority required to pass the Special Resolution;

(i) remove the Note Trustees and the appointment of a new trustee;

(j) (subject to Condition 10.3 (*Modifications and Waivers*) below) modify, abrogate, vary or compromise any provisions of this Prospectus, the Conditions, the Trust Deed, the Agency Agreement, the Issuer Accounts Agreement or any arrangement in respect of the obligations of the Issuer under or in respect of the Notes; or

(k) waive any breach or authorise any proposed breach by the Issuer of its obligations under or in respect of this Prospectus, the Conditions, the Notes, the Trust Deed, the Agency Agreement or the Issuer Accounts Agreement, or any act or omission which might otherwise constitute an Event of Default.

10.2. Information to Noteholders

In addition to any requirement under this Prospectus and the Trust Deed for the Issuer to provide the Noteholders with any information, the Note Trustees shall publish the following in accordance with Condition 11 (*Notices*) below:

(a) The passing of any Special Resolution, Ordinary Resolution or Written Resolution; and

(b) The issuance of any Applicable Pricing Supplement.

10.3. Modification and Waivers

10.3.1. The Note Trustees may agree, without the consent of the Noteholders, to effect:

(a) any modification of any provision of the Trust Deed or the Notes (including these Conditions) which is of a minor nature or is made to correct a manifest error in the opinion of the Note Trustees, provided that such modification is not prejudicial to the interests of the Noteholders; and

(b) any other modification and any waiver or authorisation of any breach or proposed breach of any provision of these Conditions or the Trust Deed which are in the opinion of the Note Trustees, not materially prejudicial to the interests of the Noteholders.

10.3.2. The Note Trustees may take into account, among other things, any confirmation from the rating agencies that the then current ratings of the relevant Notes would not be adversely affected in considering whether any such modification, waiver or authorisation would be materially prejudicial to the interests of the Noteholders

10.3.3. Any such modification, waiver or authorisation may be given or made on such terms and subject to such conditions as the Note Trustees may in its sole discretion determine and shall be binding on the Noteholders and, unless the Note Trustees otherwise agrees, the Note Trustees shall cause such modification to be notified to the Noteholders within 5 Business Days after modification, provided that the Note Trustees shall not exercise any powers conferred upon it by this Condition 10 in contravention of any express direction by a Special Resolution or a Written Resolution (provided that no such direction or request shall affect any authorisation, waiver or determination previously given or made).

10.4. Substitutions

10.4.1. The Note Trustees may, without the consent of the Noteholders, agree on such terms as it may specify to the substitution of the Issuer's successor in business where the substitution of the Issuer is as a result of a merger, an acquisition, or other form of business combination involving the Issuer.

10.4.2. Subject to obtaining the prior consent of the Noteholders, the Note Trustees may agree on such terms as it may specify to the substitution of the Issuer where the Issuer is substituted with its Affiliate in its place as issuer under the Deed and the Notes.

11. NOTICES

11.1. Notices to Noteholders

Notices to Noteholders will be deemed to be validly given if:

(a) sent by first-class mail (if overseas) to them (or, in the case of joint holders, to the first-named in the Register) at their respective addresses as recorded in the Register (and such notice shall be deemed to have been validly given on the 10th Business Day after the date of postage);

(b) published in a newspaper of general circulation in Ghana and approved by the Note Trustees (and such notice shall be deemed to have been validly given on the date of the publication);

(c) published on the GFIM or any other stock exchange on which Notes may be listed (and such notice shall be deemed to have been validly given on the date of the publication);

(d) published on a nationally recognised and accessed online medium and approved by the Note Trustees (and such notice shall be deemed to have been validly given on the date of the publication); or

(e) sent to the respective emails as recorded in the Register (and such notice shall be deemed to have been validly given when despatched).

11.2. Notices to the Issuer

Notice to the Issuer will be deemed to be validly given if delivered to the Corporate Manager:

(a) at its registered address and clearly marked on their exterior "*Urgent - Attention: The Engagement Partner for Cocoa Capital Plc"* (or at such other address and for such other attention as may have been notified to the Noteholders in accordance with Condition 11.1 above or to the Note Trustees in accordance with Condition11.3 below). Such notices will be deemed to have been validly given at the opening of business on the next Business Day on which the Issuer's registered address is open for business; or

(b) via email to the email address and for the attention of the person set out under page 7 of this Prospectus (or such other email address and for such other attention as may have been notified to the Noteholders in accordance with Condition 11.1 above or to the Note Trustees in accordance with Condition 11.3 below). Such notices shall be deemed to have been validly given upon the dispatch of the email.

11.3. Notices to Note Trustees

Notice to the Note Trustees will be deemed to be validly given if delivered to the Note Trustees:

(c) at its registered office and clearly marked on their exterior "Urgent - Attention Head, Investor Services or trusteeservices@gcb.com.gh and for such other attention as may have been notified to the Noteholders in accordance with Condition 11.1 above or to the Issuer in accordance with Condition 11.2 above). Such notices will be deemed to have been validly given at the opening of business on the next Business Day on which the Note Trustees' registered address is open for business; or

(d) via email to the email address and for the attention of the person set out under page 8 of this Prospectus (or such other email address and for such other attention as may have been notified to the Noteholders in accordance with Condition 11.1 above or to the Issuer in accordance with Condition 11.2 above). Such notices shall be deemed to have been validly given upon the dispatch of the email).

12. FURTHER ISSUES

The Issuer may from time to time, without the consent of the Noteholders and in accordance with the Trust Deed, create and issue further securities ranking *pari passu* with the Notes of a Series or Tranche in all respects (except for Interest, the first Interest Payment Date and Issue Date) and so that such further issues shall be consolidated and form a single Series with such outstanding Notes, *provided that*, the Issuer shall (prior to such further issues) provide the Note Trustees with confirmation that the proposed further issuance shall not prejudice its ability to maintain the Debt Service Coverage Ratio during each Debt Service Coverage Ratio Period in respect of any outstanding Notes. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition 12. Any such other securities shall be constituted by an addendum to the Trust Deed.

13. ENFORCEMENT

13.1. At any time after the Notes become due and payable, the Note Trustees may (at its discretion and without further notice) institute such proceedings against the Issuer as it may think fit to enforce the terms of the Trust Deed and the Notes, but it need not take any such proceedings unless:

(a) it shall have been so directed by a Special Resolution or a Written Resolution; and

(b) it shall have been indemnified to its satisfaction

13.2. No Noteholder may use the proceed directly against the Issuer unless the Note Trustees, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.

13.3. The Note Trustees shall apply the amounts received or recovered upon enforcement as follows:

(c) *first*, towards the payment of all costs, expenses and liabilities incurred by the Note Trustees (or its agent) in the enforcement process or in the performance of its duties under these Conditions or the Trust Deed;

(d) *second*, towards the payment of all outstanding amounts under the Senior Notes and/or any unsubordinated and unsecured debts of the Issuer at the time. If the amounts received by the Note Trustees are not sufficient to pay such amounts in full, the Note Trustees shall apply them *pro rata* on the basis of the amount due to each Noteholder and/or unsubordinated and unsecured creditor entitled to such payment;

(e) *third*, towards payment to any person entitled thereto in priority to the Issuer (if any); and

(f) *fourth*, payment of the balance (if any) to the Issuer.

14. INDEMNIFICATION OF THE NOTE TRUSTEES

14.1. The Trust Deed contains provisions for the indemnification of the Note Trustees and for its relief

From responsibility in certain circumstances. Subject to the fiduciary obligations of the Notes Trustees to the Noteholders, the Note Trustees may enter into business transactions with the Issuer and any entity related to the Issuer without accounting for any profit. The Note Trustees are not responsible for the validity, sufficiency or enforceability of the Trust Deed or the Notes, nor is the Note Trustees obliged to take any action unless indemnified and/or secured to its satisfaction. The Note Trustees are also entitled to be paid its costs and expenses in priority to the claims of the Noteholders.

14.2. In the exercise of its powers and discretion under these Conditions and the Trust Deed (including but not limited to those referred to in this Condition 14), the Note Trustees will have regard to the interests of the Noteholders as a class and will not be responsible for any consequence of such exercise for individual Noteholders of Notes as a result of such Noteholders being connected in any way with a particular territory or otherwise, and the Note Trustees shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer, any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

15. GOVERNING LAW AND JURISDICTION

15.1. **Governing Law**

The Conditions, the Notes and/or the Trust Deed are governed by, and shall be construed in accordance with, Ghanaian law.

15.2. **Jurisdiction**

Any dispute arising out of or in connection with the Conditions, the Notes and/or the Trust Deed (including any question regarding its existence, validity or termination) shall be referred to and finally resolved by arbitration. Disputes submitted to arbitration shall be resolved in accordance with the Alternative Dispute Resolution Act, 2010 (Act 798). The tribunal shall consist of one arbitrator who shall, in the absence of agreement of the parties, be appointed by the Ghana Arbitration Centre. The place of arbitration shall be Accra, Ghana. The language of the arbitration shall be English and the rules of the Ghana Arbitration Centre shall apply.

15.3. **Non-petition**

No person (or a person acting on its behalf) shall be entitled, at any time, to institute against the Issuer (or join in any institution against the Issuer) any insolvency, liquidation, reorganization, arrangement proceedings or other similar proceedings under any Applicable Law in connection with the obligations of the Issuer relating to these Conditions or otherwise owed to the Noteholders under the Programme Documents, save for lodging a claim in the liquidation of the Issuer which is initiated by the Note Trustees for the purpose of an Event of Default relating to non-payment of outstanding amounts under the relevant Series Notes or relevant Tranche Notes.

16. FINANCIAL COVENANTS

The Issuer shall determine and maintain such financial covenants as specified in an Applicable Pricing Supplement.

17. EVENT OF DEFAULT

The Note Trustees may (at its discretion) or shall (if so directed by a Special Resolution or a Written Resolution) (subject in each case to being indemnified and/or secured to its satisfaction) give notice to the Issuer specifying any affected Notes and that such Notes are immediately due and repayable in the Principal Amount together with accrued interest if, in the case of the Notes, any of the following Events of Default occurs:

(a) **non-payment**: the Issuer fails to pay the Principal Amount or the Instalment Amount of any of the Notes when the same becomes due and payable either at the Maturity Date, at the

Instalment Date, upon Redemption, by declaration or otherwise, or the Issuer is in default with respect to the payment of Interest on any of such Notes and such default in respect of Principal Amount, Instalment Amount or Interest continues for a period of 15 Business Days;

(b) **breach of of other obligations**: the Issuer is in default in the performance, or is otherwise in breach, of any warranty, covenant, obligation, undertaking or other agreement under the Notes or the Trust Deed (other than a default or breach elsewhere specifically dealt with in this Condition 17(b)) and such default or breach (if capable of remedy) is not remedied within 30 calendar days (or such longer period as the Note Trustees may in its sole discretion determine) after notice thereof has been given to the Issuer and, if applicable, by the Note Trustees.

(c) **insolvency:**

(i) any person shall have instituted a proceeding or entered a decree or order for the appointment of a receiver, manager, administrator, liquidator or rehabilitation manager in any insolvency, rehabilitation, readjustment of debt, marshalling of assets and liabilities or similar arrangements involving the Issuer or all or substantially all of their respective assets and such proceeding, decree or order shall not have been vacated or shall have remained in force undischarged or unstayed for a period of 60 Business Days; or

(ii) the Issuer shall institute proceedings under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect to be placed into rehabilitation, adjudicated as bankrupt or shall consent to the filing of a bankruptcy, insolvency or similar proceeding against it or shall file a petition or answer or consent seeking reorganisation under any such law or shall consent to the filing of any such petition, or shall consent to the appointment of a receiver, manager, administrator, liquidator, rehabilitation manager or trustee or assignee in bankruptcy or liquidation of the Issuer or in respect of its property, or shall make an assignment for the benefit of its creditors or shall otherwise be unable or admit its inability to pay its debts generally as they become due or the Issuer commences proceedings with a view to the general adjustment of its Indebtedness, which event in any such case is (in the sole opinion of the Note Trustees), materially prejudicial to the interests of the Noteholders;

(d) **material non-compliance with Applicable Laws**: the Issuer fails to comply in any material respect with any Applicable Laws for any purpose to enable it lawfully to exercise its rights or perform or comply with its obligations under the Notes or the Trust Deed or to ensure that those obligations are legally binding and enforceable or that all necessary agreements or other documents are entered into and that all necessary consents and approvals of, and registrations and filings with, any such authority in connection therewith are obtained and maintained in full force and effect;

(e) **invalidity or unenforceability**: the Note Trustees are of the opinion (determined in its sole discretion) that any of following occurrences in this Condition 17(e) is materially prejudicial to the interests of the Noteholders:

(i) the validity of the Notes or the Trust Deed is contested by the Issuer;

(ii) it is or becomes unlawful for the Issuer to perform or comply with all or any or any of its obligations set out in the Notes or the Trust Deed; or

(iii) the Issuer shall deny all or any of its obligations set out in the Notes or the Trust Deed (whether by a general suspension of payments or a moratorium on the payment of debt or otherwise);

(f) **government intervention:**

(i) all or any substantial part of the undertaking, assets and revenues of the Issuer is condemned, seized or otherwise appropriated by any person acting under the authority of any national, regional or local government; or

(ii) the Issuer is prevented by any such person from exercising normal control over all or any substantial part of its undertaking, assets, revenues and, following the occurrence of any of the events specified in this Condition 17(f), the Note Trustees are of the opinion determined in its sole discretion that such occurrence is materially prejudicial to the interests of the Noteholders;

(g) **financial covenants**: if any financial covenant specified in an Applicable Pricing Supplement falls below the required thresholds contemplated therein or in the Applicable Pricing Supplement and the said default is not rectified within 60 calendar days; and/or

(h) **negative pledge:** the Issuer fails to remedy a breach of Condition 4 (*Negative Pledge*) and such failure continues for a period of 10 Business Days after receipt by the Issuer of written notice from the Note Trustees requiring same to be remedied; and/or

(i) **sponsor default**: where Ghana Cocoa Board breaches any of its undertakings under clause 7 (*Undertakings*) of the Assignment Agreement and such breach has not been cured for a period of 10 Business Days after receipt by COCOBOD of written notice from the Note Trustees or the Issuer.

The Managing Director
Ghana Cocoa Board
Cocoa House
41 Kwame Nkrumah Avenue
Accra, Ghana.

Dear Sir,

Credit Rating Letter
Re: COCOBOD, Cocoa Capital Plc, Cocoa Capital Plc's Bond and Commercial Paper Structured Finance Obligations Programme Issuance Credit Rating

We refer to the Credit Rating Service Agreement signed on July 28, 2026, between Beacon Credit Rating Agency (Beacon Ratings) and Ghana Cocoa Board (COCOBOD) herewith. The agreement provides that Beacon Ratings undertakes initial credit rating on COCOBOD as Sponsor, Cocoa Capital Plc as the Special Purpose Vehicle (SPV) and Issuer, and Cocoa Capital Plc's proposed 5-Year Medium-Term Bond and 270-day Short-Term Commercial Paper Structured Finance Obligations Programme Issue.

This credit rating assessment covers the Initial Credit Rating for COCOBOD's creditworthiness (credit quality and credit risk) for the financial year ended September 30, 2024/2025, its projected operating and financial performance for the financial years ending September 30, 2025/2026 to September 30, 2030/2031; Cocoa Capital Plc's projected operating and financial performance for the financial years ending September 30, 2025/2026 to September 30, 2030/2031, and Cocoa Capital Plc's Bond and Commercial Paper Structured Finance Obligations (SO) Programme.

Cocoa Capital Plc's Bond and Commercial Paper Programme credit rating assessment is to support a 5-Year Medium-Term Bond Structured Finance Obligations issuance of Two Billion Three Hundred Million Ghana Cedis (GH¢2,300,000,000) to refinance COCOBOD's legacy debt; and 270-day Short-Term Commercial Paper Structured Finance Obligations Programme issuance of Fourteen Billion Ghana Cedis (GH¢14,000,000,000) in tranches of, tranche 1 – Four Billion Two Hundred Million Ghana Cedis (GH¢4,200,000,000), tranche 2 - Four Billion Two Hundred Million Ghana Cedis (GH¢4,200,000,000), and tranche 3 – Five Billion Six Hundred Million Ghana Cedis (GH¢5,600,000,000) to purchase cocoa beans for the 2026/2027 cocoa season.

This Letter hereby coveys Beacon Ratings' Initial Credit Rating Opinion on COCOBOD, Cocoa Capital Plc, 5-Year Medium-Term Bond Structured Finance Obligations of GH¢2,300,000,000, and 270-day Short Term Commercial Paper Structured Finance Obligations Programme of GH¢14,000,000,000 thereof.

Dear Sirs,

COCOA CAPITAL PLC: OPINION OF LEGAL TRANSACTIONAL ADVISOR IN CONNECTION WITH THE ESTABLISHMENT OF A GHS 16.3 BILLION NOTE ISSUANCE PROGRAMME AND LISTING OF COMMERCIAL PAPER AND BONDS (NOTES) THEREUNDER ON THE GHANA FIXED INCOME MARKET OF THE GHANA STOCK EXCHANGE

1. INTRODUCTION.

1.1 Basis of Instruction.

We have acted as Legal Transactional Advisors for Cocoa Capital Plc (the Issuer), a public limited liability company incorporated under the laws of Ghana in connection with a GHS 16.3 billion domestic Note issuance programme (the Note Programme), under which the

Issuer will issue a short term Commercial Paper and Bonds (the Notes), from time to time by public offer and/or private placement, and list the Notes on the Ghana Fixed Income Market of the Ghana Stock Exchange (the GFIM Listing).

1.2 Documents Examined.

1.2.1 For the purpose of giving this opinion, we have examined draft copies of the programme Documents. Which Documents are listed herein below and when referred together, the Programme Documents, and each, a Programme Document:

1.2.1.1 the prospectus which sets out, among others, the terms and conditions of the Notes (the Prospectus), and to be issued by the Issuer upon the approval of the Securities and Exchange Commission of Ghana (the SEC);

1.2.1.2 the trust deed to be entered into between the Issuer and GCB Bank Plc (GCB), under which the Issuer appoints GCB Bank Plc as the trustee for the holders of the Notes (the Note Trustee);

1.2.1.3 the agency agreement to be entered into between the Issuer, GCB Bank Plc and the Central Securities Depository (GH) Limited (the CSD), under which the Issuer appoints GCB Bank Plc as paying agent for the Note Programme and the CSD as the calculation agent, registrar and transfer agent for the Note Programme;

1.2.1.4 the issuer accounts agreement to be entered into between the Issuer, GCB Bank Plc (GCB), Absa Bank Ghana Limited (Absa Ghana), Stanbic Bank Limited, CalBank Plc (CalBank) and the Note Trustee, under which the Issuer appoints the aforementioned banks as the account banks for the Issuer Accounts (as defined in the Prospectus);

1.2.1.5. the Escrow account agreement to be enter into by the issuer the CP and bond Collections Escrow account bank, the joint lead managers, and the co-sponsoring broker.

1.2.1.6 the forward contracts assignment agreement to be entered into between the Issuer, Ghana Cocoa Board (Cocobod) and Cocoa Marketing Company (the Assignor), under which, among others, the Assignor assigns the forward Receivables or forward contracts (as defined thereunder) to the Issuer, and Cocobod undertakes to fund any relevant Debt Service Shortfall (as defined thereunder) (the forward Contracts Assignment Agreement);

1.2.1.7 The financing agreement to be entered between the Issuer and Ghana Cocoa Board (Cocobod) and Cocoa Marketing Company (the Assignor) and under which the framework is set out for the Issuer to provide financing to Cocobod and the conditions for the use and repayment of such funding by Cocobod to the Issuer;

1.2.1.8 the management services agreement entered into between the Issuer and KPMG, under which the Issuer appoints KPMG to manage day-to-day activities of the Company within the terms thereof.

1.2.2 Unless otherwise indicated, all expressions defined in the Prospectus have the same meanings when used in this opinion.

1.2.3. In addition, we have examined originals or copies certified to our satisfaction of the following documents:

1.2.3.1 the certificate of incorporation of the Issuer dated 7 August 2026 with Registration number PL000180826.

1.2.3.2 the constitution of the Issuer dated 24 July 2026 (the Issuer Constitution);

1.2.3.3 the letter dated 11 September 2026 from the Minister of Finance approving the issuance of the Notes by the Issuer (the MoF Approval);

1.2.3.4 the written resolution of the board of directors of the Issuer (the Issuer Board) dated 4 September 2026 approving and authorising, among others, the establishment of the Note Programme, the issuance of the Notes, the application for the GFIM Listing, the terms and

conditions of the Programme Documents, the execution of the Programme Documents and the appointment of each and any director of the Issuer to sign the Programme Documents on behalf of the Issuer (the Written Board Resolution); and

1.2.3.5 the written resolution of the sole shareholder of the Issuer dated 14 September 2026, approving and authorising, among others, the establishment of the Note Programme, the issuance of the Notes, the application for the GFIM Listing, the terms and conditions of the Programme Documents and the execution of the Programme Documents (the Shareholder Resolution).

1.2.4 We have also examined such other documents and certificates, searches and records as are necessary under the laws of Ghana to enable us give this opinion.

1.3 Scope and Purpose of the Opinion

1.3.1 We are qualified to practise law in Ghana. This opinion is limited to matters of Ghanaian law as in force and applied at the date of this opinion. We have not investigated the laws of any country other than Ghana and we express no opinion on the laws of any other jurisdiction.

1.3.2 This opinion is given on the basis of the assumptions set out in Schedule A (Assumptions) and is subject to the qualifications set out in Schedule B (Qualifications).

2. OPINION

Based on the preceding paragraphs, we hold the opinion that:

2.1 Incorporation

2.1.1. The Issuer is duly incorporated as a public company limited by shares under the laws of Ghana.

2.1.2 The Issuer has perpetual corporate existence and the capacity to sue or be sued in its name.

2.1.3. To the best of our knowledge and upon due enquiry:

2.1.3.1 the Issuer has all the necessary power and authority to own its property and assets and to carry on its businesses as currently authorised under the Issuer Constitution;

2.1.3.2 no steps have been (or are being taken) to appoint any administrator, trustee, receiver, liquidator or analogous person or body over (or to wind up or dissolve) the Issuer; and

2.1.3.3. no moratorium has been declared on the payment of any indebtedness of the Issuer.

2.2 Powers and Authorisations.

2.2.1 The Issuer:

2.2.1.1 has the power to enter into (and perform its obligations under) the Programme Documents;

2.2.1.2 has taken all necessary action to authorise the entry into (and the performance of its obligations under) the Programme Documents; and

2.2.1.3 has taken all necessary action to authorise the signature and delivery of all notices, certificates, communications and other documents to be delivered by it under the Programme Documents.

2.3 Legal Validity and Enforceability

Subject to the execution of the relevant Programme Documents and paragraph 2.9.3 below, each obligation (expressed to be assumed by the Issuer under each Programme Document) constitutes the legal, valid and binding obligation of the Issuer enforceable against it in accordance with the terms of the relevant Programme Document.

2.4 Regulatory Approvals and Consents

2.4.1. The Prospectus and the issuance of the Commercial paper are required to be approved by the SEC in accordance with the Securities Industry Act, 2016 (Act 929) as amended by the Securities Industry (Amendment) Act 2021 (Act 1062).

2.4.2. The GFIM Listing is required to be approved by the Ghana Stock Exchange in accordance with the GFIM Rules, 2022.

2.4.3. The establishment of the Note programme is required to be approved by the Minister of Finance in accordance with the Public Financial Management Act, 2016 (Act 921) and as at the date of this opinion, the Minister of Finance has, through the MoF Approved, and authorised the Issuer to issue a Commercial Paper of up to GHS 14,000,000,000 and Bonds of up to GHS 2,300,000,000.

2.4.4. Apart from the approvals referred to under this paragraph 2.4, no regulatory approvals, consents, licensing or authorisations are required for the establishment of the Note Programme, the issuance of the Commercial paper and Bonds, the GFIM Listing or the execution of the Programme Documents.

2.5 Prospectus and the Notes.

2.5.1. The Prospectus complies with the relevant provisions of Schedule 5 of the Securities and Exchange Commission Regulations, 2003 (LI 1728) as amended and Schedule 10 of the Companies Act, 2019 (Act 992) (the Companies Act), the Commercial Paper Issuance Admission Rules of February 2024 and the GFIM Rules 2022.

2.5.2 The Issuer's obligations under the Notes shall constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer and shall rank pari passu among themselves and (save for such obligations as may be preferred by virtue of any Applicable Law) equally with all other present and future unsecured and unsubordinated obligations of the Issuer, from time to time outstanding.

2.6 Contractual Obligations.

2.6.1. To the best of our knowledge and upon due enquiry, there are no contractual agreements, obligations or undertakings preventing the Issuer from

entering into and performing its obligations under the transactions contemplated by the Note Programme.

2.7 The Issuer Constitution.

2.7.1. The Issuer Constitution complies with all legal requirements on the contents of the constitution of a public company.

2.7.2 The issuance of the Notes (pursuant to the listing rules under the GFIM Manual) will not contravene any provision of the Issuer Constitution.

2.7.3. The Note Programme does not contravene any provision of the Issuer Constitution or any Applicable Law.

2.8 The Forward Contracts Assignment Agreement

2.8.1. The Forward Contracts Assignment Agreement constitutes a valid assignment, to the Issuer, by the Cocoa Marketing Company the designated Cocobod Receivables in accordance with the laws of Ghana.

2.8.2 Clause 19 (indemnity) of the Forward Contracts Assignment Agreement (which obliges the Cocobod to indemnify the Issuer against all damages, losses or liabilities which may be suffered or incurred by the Issuer in relation to any breach of a representation, warranty or undertaking given by the Assignor and/or Cocobod in the Forward Contracts Assignment Agreement) constitutes a legal, valid, and binding obligation of Cocobod and the Assignor and same is enforceable by the Issuer and/or the Note Trustee in accordance with the terms contained therein.

2.8.3. Clause 2.3 of the Financing Agreement (which oblige Cocobod to make available funds to satisfy any relevant Debt Service Shortfall) constitutes a legal, valid and binding obligation of Cocobod and same is enforceable by the Issuer and/or the Bond Trustee in accordance with the agreed terms.

2.9 Taxes and Stamp Duty.

2.9.1 The statements in the Prospectus regarding taxation in Ghana are correct in all material respects.

2.9.2 In accordance with the Income Tax Act, 2015 (Act 896) (as amended), interest payments to the Noteholders will be subject to withholding tax of 8%, except in relation to Noteholders who are exempt from withholding tax.

2.9.3. Each of the Programme Documents (except the Prospectus) will be subject to stamp duty as evaluated by the Land Valuation Division of the Lands Commission of Ghana in accordance with the Stamp Duty Act, 2005 (Act 689) (as amended) (the Stamp Duty Act) in order to be admissible in evidence (and enforceable) in the courts of Ghana. The Prospectus is not subject to stamp duty under the Stamp Duty Act.

2.10 Registrations and Filings.

2.10.1. No registration or filing is required at any registry for any Programme Document to be valid, binding and enforceable in accordance with their respective terms.

2.10.2. However, the Prospectus is required to be filed with the Companies Registry, in accordance with the Companies Act. There will be no legal effect on the Prospectus if it is not duly filed.

2.11. Immunity.

2.11.1 Neither the Issuer nor Cocobod (or any of their assets) is entitled to any right of immunity from service of process, jurisdiction, suit, judgment, execution, attachment (whether before judgment, in aid of execution or otherwise), set-off, counterclaim or other legal process in respect of any of its obligations under the Programme Documents.

2.11.2 Cocobod and the Cocoa Marketing Company are subject to civil and commercial law with respect to their obligations under the Forward Contracts Assignment

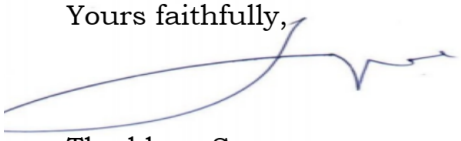

Agreement. The execution and performance by Cocobod and the Cocoa Marketing Company of their obligations under the Forward Contracts Assignment Agreement constitute private and commercial acts and are not governmental or public acts.

2.11.3 Cocobod and the Cocoa Marketing Company (or any of their assets) are not entitled to any right of immunity from service of process, jurisdiction, suit, judgment, execution, attachment (whether before judgment, in aid of execution or otherwise), set-off, counterclaim or other legal process in respect of any of their obligations under the Forward Contracts Assignment Agreement.

2.12 No Adverse Consequences.

Under the laws of Ghana, no non-resident Noteholder will be deemed to be resident, domiciled or carrying on business in, or subject to taxation in Ghana by reason only of the purchase of the Notes.

Yours faithfully,

Thaddeus Sory

Dear Sirs

Independent practitioner's review report on the historical financial information of Ghana Cocoa Board and the unaudited statement of affairs of Cocoa Capital Plc.

We have reviewed the accompanying historical financial information of Ghana Cocoa Board. This historical financial information is on revenue for the years ended 30 September 2021, 30 September 2022, 30 September 2023, 30 September 2024 and 30 September 2025, and the unaudited statement of affairs of Cocoa Capital Plc as at 8 September 2026, and notes, comprising material accounting policy information and other explanatory information.

Management's responsibility for the historical financial information

The directors of Ghana Cocoa Board and Cocoa Capital Plc are responsible for the preparation of the historical financial information that give a true and fair view in accordance with Ghana Cocoa Board 's basis of accounting described in Note 1 which are based on IFRS Accounting Standards and for such internal control as management determines is necessary to enable the preparation of historical financial information that are free from material misstatement, whether due to fraud or error.

Practitioner's responsibility

Our responsibility is to express a conclusion on the accompanying historical financial information. We conducted our review in accordance with International Standard on Review Engagements (ISRE) 2400 (Revised), Engagements to Review Historical Financial Statements. ISRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the historical financial information, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial information in accordance with ISRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing. Accordingly, we do not express an audit opinion on this historical information.

Independence

We are independent of Ghana Cocoa Board and Cocoa Capital Plc in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) as applicable to reviews of financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying historical information do not present fairly, in all material respect, the revenues of Ghana Cocoa Board for the years ended 30 September 2021, 30 September 2022, 30 September 2023, 30 September 2024 and 30 September 2025, and the unaudited statement of affairs of Cocoa Capital Plc as at 8 September 2026, in accordance with Cocoa Capital Plc and Ghana Cocoa Board's basis of accounting described in Note 1.

Emphasis of matter – Basis of preparation

Without modifying our conclusion, we draw attention to Note 1 to the historical information, which describes the basis of accounting. The historical information has been prepared for inclusion in the prospectus of Cocoa Capital Plc in connection with the proposed issuances of local financial securities under a GHS 16.3 billion note programme. As a result, the historical financial information may not be suitable for another purpose.

The engagement partner responsible for the assurance engagement resulting in this independent reporting accountant's report is Destiny Selorm Attatsitsey (ICAG/P/1619). Ghana Cocoa Board

Historical Financial Information on Revenue

Historical Statement of Income (Revenue Extract)

Ghana Cocoa Board (COCOBOD), through its special purpose vehicle, Cocoa Capital Plc, is issuing Notes to raise funding for the purchase of cocoa beans during the 2026/2027 cocoa season and to refinance and repay some existing cocoa-related bond obligations. The repayment of funds borrowed is fundamentally dependent on the issuing entity's ability to generate sufficient cash flows from cocoa sales contracts and export proceeds. Consequently, COCOBOD has assigned enough receivables to Cocoa Capital Plc backed by already existing forward contracts for the 2026/2027 cocoa season. Such assignments will be supported with subsequent forward contracts year on year to 2031.

The historical report therefore assesses COCOBOD's historical revenue generation ability over the last five financial years to back the assignment of receivables to support this transaction going forward, with particular emphasis on cocoa sales volumes, realised cocoa prices, production trends, profitability, and debt servicing capacity. About 45% to 50% of total revenue of COCOBOD is expected to be assigned to support this transaction every year. The analysis also considers the impact of COCOBOD's ongoing turnaround and debt restructuring initiatives, improvements in operational performance, and prevailing market conditions to determine whether projected cocoa revenues are likely to be sufficient to meet the obligations arising from the proposed Note issuance and other outstanding debt commitments as they fall due.

	Financial Year Ended 30 September

Notes

1. Purpose of historical financial information on revenue

The historical financial information on revenue has been prepared by Ghana Cocoa Board (the "Company") to meet the Securities and Exchange Commission's prospectus requirements in connection with the proposed issuance of notes under a GH₵16.3bn Cocoa Note Facility to support the purchases of cocoa.

Ghana Cocoa Board is a corporate domiciled in Ghana which was established by the Ghana Cocoa Board Act, 1984 (PNDCL 81) as amended.

Ghana Cocoa Board as set out in Section 2 of the Ghana Cocoa Board act as amended includes amongst others:

a. To purchase, market and export cocoa produced in Ghana, which is graded under the Cocoa Industry Regulation (Consolidation) Act, 1968 (NLCD 278) or any other enactment as suitable for export:
b. To establish or encourage the establishment of industrial processing factories for the processing of cocoa and cocoa waste into marketable cocoa products; and
c. To regulate the marketing and export of cocoa, coffee and shea nuts.

Basis of preparation

The historical financial information on revenue has been prepared in accordance with the accounting policies of Ghana Cocoa Board, which are based on IFRS Accounting Standards.

Going concern

The Company's management has assessed its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern. Therefore, the financial information continues to be prepared on the going concern basis.

2. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in the financial information:

Foreign currency

Transactions denominated in foreign currencies are translated to COCOBOD's functional currency at exchange rates ruling at the dates of the transactions. Exchange differences arising on translation are recognised in profit or loss and presented in administrative expenses.

Revenue from contracts with customers

Revenue from contracts with customers is recognised when performance obligation has been satisfied and control of the goods or services are transferred to the customer at an amount that reflects the consideration to which COCOBOD expects to be entitled in exchange for those goods or services. COCOBOD has generally concluded that it is the principal in its revenue arrangements, except for the procurement services below, because it typically controls the goods or services before transferring them to the customer.

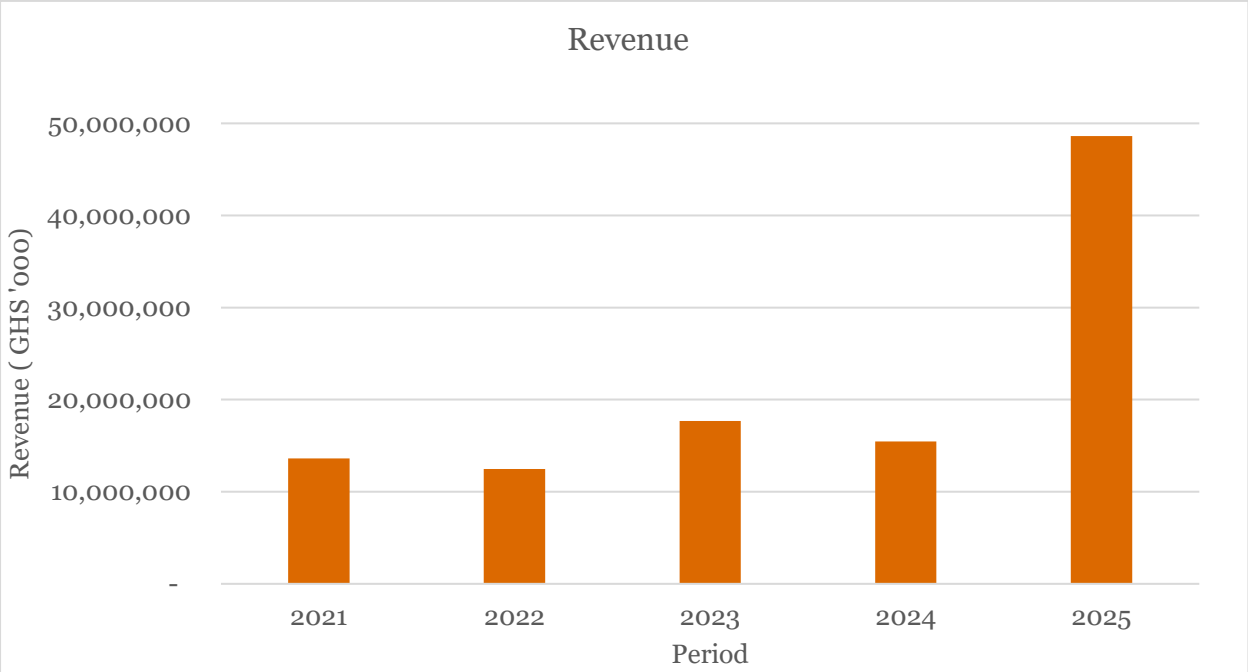

Ghana Cocoa Board

Historical Financial Information on Revenue

3. Commentary

Historical Revenue Analysis (FY2021-FY2025)

Revenue

Revenue increased from GHS 13.6 billion in 2021 to GHS 48.6 billion in 2025, representing a compound annual growth rate (CAGR) of approximately 37.4% over the review period. Revenue performance was volatile between 2021 and 2025, reflecting significant fluctuations in cocoa sales volumes, international cocoa prices and exchange rates. Revenue declined by 8.4% from GHS 13.6 billion in 2021 to GHS 12.5 billion in 2022, increased by 41.7% to GHS 17.7 billion in 2023, declined by 12.6% to GHS 15.5 billion in 2024, and then increased sharply by 214.8% to GHS 48.6 billion in 2025.

The movement in revenue closely mirrored changes in cocoa sales volumes over the period. Total cocoa sales declined from 937,094 tonnes in 2021 to 785,034 tonnes in 2022, 668,181 tonnes in 2023 and further to 457,973 tonnes in 2024, before recovering to 628,996 tonnes in 2025. The reduction in cocoa sales volumes between 2021 and 2024 reflected lower national cocoa production arising from adverse weather conditions, the impact of Cocoa Swollen Shoot Virus Disease (CSSVD), rehabilitation and replanting programmes, illegal mining activities within cocoa-growing regions and increased cross-border smuggling. The recovery in 2025 reflected improved liquidity for cocoa purchases, favourable weather conditions and the continued implementation of productivity enhancement programmes.

Exchange rate movements were a major driver of revenue growth throughout the review period. Cocoa exports are predominantly denominated in US dollars, while COCOBOD reports its financial performance in Ghana cedis. Accordingly, the depreciation of the Ghana cedi significantly increased reported revenue when export proceeds were translated into local currency. The average exchange rate increased from approximately GHS 6.63/US$ in 2021/22 to GHS 10.78/US$ in 2022/23, GHS 12.49/US$ in 2023/24, and GHS 14.94/US$ in 2024/25. Consequently, even where export volumes declined, the cedi value of cocoa sales remained comparatively robust because each US dollar earned translated into a significantly larger amount in Ghana cedi terms.

International cocoa prices became increasingly favourable over the review period, although pricing conditions evolved differently across each financial year. During 2021/22, cocoa prices remained relatively subdued, with COCOBOD achieving a weighted average sales price of approximately US$2,365 per tonne. Prices improved modestly to US$2,478 per tonne in 2022/23, reflecting tighter global market conditions. The upward trend continued in 2023/24, when the weighted average sales price increased to US$2,746 per tonne, notwithstanding the significant decline in cocoa production. Global supply shortages in Ghana and Côte d'Ivoire, driven by adverse weather conditions, Cocoa Swollen Shoot Virus Disease (CSSVD), illegal mining activities, ageing tree stocks and other structural supply constraints, resulted in a substantial tightening of the global cocoa market. These conditions intensified during 2024/25, causing the weighted average sales price to rise sharply to US$5,174 per tonne, an increase of approximately 88% over the previous year. The exceptional increase in cocoa prices during 2025, together with higher sales volumes and favourable exchange-rate movements, was the single largest contributor to the significant growth in revenue recorded during the year.

Production trends during the review period highlight the extent to which revenue growth became increasingly disconnected from production volumes. Cocoa output declined significantly from 1.05 million tonnes in 2020/21 to 683,564 tonnes in 2021/22, before falling further to 672,500 tonnes in 2022/23. The decline continued in 2023/24, when production dropped to 448,996 tonnes, representing one of the lowest crop outturns recorded in recent years and significantly below historical production levels. COCOBOD attributed the deterioration in production to unfavourable weather conditions, the spread of Cocoa Swollen Shoot Virus Disease (CSSVD), rehabilitation and replanting programmes, illegal mining activities, liquidity constraints and cross-border smuggling. Although production recovered to 597,377 tonnes in 2024/25 following improved liquidity, favourable weather conditions and ongoing productivity enhancement programmes, output remained well below levels achieved earlier in the decade. While these developments negatively affected production volumes throughout much of the review period, they also contributed to sustained global cocoa shortages, particularly in Ghana and Côte d'Ivoire, which pushed international cocoa prices sharply higher. As a result, the increase in cocoa prices more than offset the decline in production volumes and significantly increased the value of Ghana's cocoa exports and COCOBOD's revenues between 2021 and 2025.

COCOBOD also implemented a number of strategic measures to support the cocoa sector during the review period. Producer prices were periodically increased between 2021 and 2025 to improve farmer incomes, reduce cross-border smuggling and maintain cocoa supplies within the formal marketing system. The producer price was maintained at GHS 10,560 per tonne in 2021/22, before being increased to GHS 12,800 per tonne in 2022/23. In response to widening price differentials with neighbouring producing countries and rising international cocoa prices, the producer price was further increased to GHS 20,928 per tonne at the commencement of the 2023/24 season and subsequently revised upward to GHS 33,120 per tonne during the season. During 2024/25, COCOBOD announced further increases in producer prices, raising the farmgate price to GHS 49,600 per tonne and subsequently GHS 58,000 per tonne as global cocoa prices reached unprecedented levels. These interventions were intended to improve farmer remuneration, discourage smuggling and ensure adequate cocoa deliveries into the official marketing system. Although the higher producer prices increased procurement costs, they also supported cocoa purchases and helped retain volumes within Ghana's official cocoa marketing channels.

Overall, COCOBOD's revenue performance between 2021 and 2025 was principally driven by changes in international cocoa prices, exchange rate movements and strategic sector interventions rather than production growth. While cocoa sales volumes declined significantly between 2021 and 2024 before partially recovering in 2025, favourable cocoa market conditions and the depreciation of the Ghana cedi more than compensated for lower volumes. The sharp increase in 2025 revenue demonstrates the extent to which pricing and exchange-rate effects influenced financial performance during the review period.

Dear Sirs

Independent Reporting Accountant's Report on the Projected Financial Information of Cocoa Capital Plc.

We have undertaken a limited assurance engagement in respect of the accompanying projected financial information of Cocoa Capital Plc for the two-month period ending 30 September 2026, and the years ending 30 September 2027, 30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031 comprising the projected statement of comprehensive income, projected statement of financial position and projected statement of cash flows (together "the Projected Financial Information").

Directors' responsibility for the Projected Financial Information and for the assumptions used to prepare the Projected Financial Information

The directors of Cocoa Capital Plc are responsible for the preparation and presentation of the projected financial information, including the reasonableness of the assumptions set out in Note 1 on which they are based. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the projected financial information on the basis of those assumptions that is free from material misstatement, whether due to fraud or error.

Inherent limitations

Actual results are likely to be different from the projected financial information since anticipated events frequently do not occur as expected and the variation may be material. Consequently, readers are cautioned that this projected financial information may not be appropriate for purposes other than described in the purpose of the report paragraph below.

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standard Board for Accountants (IESBA Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Independent Reporting Accountant's Report on the Projected Financial Information of Cocoa Capital Plc (continued)

Reporting accountant's responsibility

Our responsibility is to express a limited assurance conclusion, based on the procedures we have performed and the evidence we have obtained, whether anything has come to our attention that causes us to believe that:

- the directors' assumptions do not provide a reasonable basis for the preparation and presentation of the projected financial information for the two-month period ending 30 September 2026, and the years ending 30 September 2027, 30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031.
- the projected financial information has not been properly prepared and presented on the basis of the assumptions disclosed in Note 1.

We conducted our limited assurance engagement in accordance with International Standard on Assurance Engagements (ISAE) 3400, The Examination of Prospective Financial Information (ISAE 3400), issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform this engagement to obtain limited assurance about whether the directors' assumptions provide a reasonable basis for the preparation and presentation of the projected financial information and whether the projected financial information has not been properly prepared and presented on the basis of those assumptions.

A limited assurance engagement undertaken in accordance with ISAE 3400 involves assessing the source and reliability of the evidence supporting the directors' assumptions. Sufficient appropriate evidence supporting such assumptions would be obtained from internal and external sources including consideration of the assumptions in the light of historical information and an evaluation of whether they are based on plans that are within the entity's capacity. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgement and included inquiries, observations of processes performed, inspection of documents, analytical procedures, evaluating the reasonableness of best-estimate assumptions and agreeing or reconciling with underlying records.

Our procedures included evaluating the directors' best-estimate assumptions on which the projected financial information is based for reasonableness and inspecting whether the projected financial information is properly prepared on the basis of the assumption set out in Note 1.

The procedures performed in a limited assurance engagement vary in nature from, and are less in extent than for, a reasonable assurance engagement. As a result, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether the directors' assumptions provide a reasonable basis for the preparation and presentation of the projected financial information.

Conclusion

Based on the procedures we have performed and evidence we have obtained, nothing has come to our attention that causes us to believe that:

- the directors' assumptions do not provide a reasonable basis for the preparation and presentation of the projected financial information for the two-month period ending 30 September 2026, and the years ending 30 September 2027, 30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031.
- the projected financial information has not been properly prepared and presented on the basis of the assumptions disclosed in Note 1.

Independent Reporting Accountant's Report on the Projected Financial Information of Cocoa Capital Plc (continued)

Purpose of the report

This report has been prepared on the projected financial information of Cocoa Capital Plc, for inclusion in the prospectus of Cocoa Capital Plc in connection with Cocoa Capital Plc issuing a prospectus regarding the proposed issuances of local financial securities under a GHS 16.3 billion note programme, and for no other purpose.

The engagement partner responsible for the assurance engagement resulting in this independent reporting accountant's report is Destiny Selorm Attatsitsey (ICAG/P/1619).

Cocoa Capital Plc Projected Financial Information for the two-months ending 30 September 2026, and the financial years ending 30 September 2027, 30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031

Note 1

Basis of Preparation

The directors of Cocoa Capital Plc ("the Company") have prepared the projected financial information for the two-months ending 30 September 2026, and the financial years ending 30 September 2027, 30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031 based on the assumptions described below.

The basis of accounting adopted is consistent with the accounting policies expected to be applied by the Company and is in accordance with IFRS Accounting Standards.

Nature of operations

Cocoa Capital Plc has been established as a Special Purpose Vehicle ("SPV") to facilitate funds raising through the issuance of Commercial Papers ("CP") and Medium-Term Notes ("MTNs") for the financing of cocoa purchases and refinancing of designated legacy debt obligations of the Ghana Cocoa Board ("COCOBOD"). The Company's obligations are expected to be serviced from Assigned Cocoa Contracts/Receivables generated from forward cocoa sales contracts entered into by COCOBOD through the Cocoa Marketing Company ("CMC").

Cocoa production forecast

The projected cocoa production volumes are based on forecasts prepared by COCOBOD's Research, Monitoring and Evaluation Department. Production is projected at approximately 650,000 tonnes for the 2026/2027 crop year and is expected to increase to approximately 718,000 tonnes by the 2030/2031 crop year. The projected growth is supported by management's expectation of:

- Reintroduction of the nationwide Hi-Tech fertiliser programme;
- Continued implementation of Productivity Enhancement Programmes including pruning and hand pollination;
- Increased application of flower inducers;
- Ongoing pest and disease control programmes;
- Rehabilitation of farms affected by Cocoa Swollen Shoot Virus Disease (CSSVD); and
- Reduced cross-border smuggling due to regional producer price harmonisation initiatives.

Cocoa prices

Projected cocoa prices have been based on market intelligence obtained by Cocoa Marketing Company and external industry forecasts. Average Free On Board (FOB) prices are projected to increase from US$4,500 per tonne in 2026 to approximately US$5,681 per tonne by 2030. For 2031, management has assumed a conservative growth rate of 1% above the 2030 projected FOB price. Management's projections reflect expectations that although cocoa prices may normalise from the exceptional highs recorded in 2024 and 2025, the market will continue to operate within a structurally higher pricing environment due to supply constraints, climate-related risks, ageing tree stock and sustainability compliance costs.

Exchange rate assumptions

Exchange rates have been projected based on historical Bank of Ghana trends and management's assessment of Ghana's macroeconomic outlook. The average exchange rate is projected to increase from GHS11.95 per US dollar in 2026 to approximately GHS12.09 per US dollar by 2030, with a further modest increase to approximately GHS12.13 per US dollar by 2031, reflecting management's expectation of continued but gradual currency depreciation over the forecast period.

(Note 1 continued)

Gross FOB revenue

Projected Gross FOB revenue for COCOBOD is derived from forecast production volumes and projected FOB prices. Gross FOB revenue in United States Dollars represents projected cocoa production multiplied by projected FOB prices per tonne. Gross FOB revenue in Ghana Cedis is derived by translating projected United States Dollar revenue using the forecast exchange rates. Projected Gross FOB revenue is expected to increase from approximately GHS 35.0 billion in the first full year to approximately GHS49.3 billion by 2031.

Funding requirements

The funding requirements represent the total amount to be raised by Cocoa Capital Plc through the issuance of Commercial Papers and Medium-Term Notes to finance cocoa purchasing operations and refinance designated legacy debt obligations of COCOBOD. The annual funding programme is structured to align with COCOBOD's seasonal financing needs and debt refinancing requirements, with repayment supported by Assigned Cocoa Contracts/Receivables.

Total funding requirements are projected to increase from approximately GHS 6.5 billion for the two-month period ending 30 September 2026 to GHS 17.0 billion, GHS 19.1 billion, 18.2 billion, GHS 19.3 billion and GHS 13.8 billion for the financial years ending 30 September 2027,30 September 2028, 30 September 2029, 30 September 2030 and 30 September 2031 respectively. The funding programme comprises a combination of Commercial Paper issuances for cocoa purchase financing and Medium-Term Note issuances for the refinancing of legacy debt obligations.

Medium-Term Note programme

The Company assumes the refinancing of specified cocoa bond obligations through the issuance of Medium-Term Notes. Management expects approximately GHS 2.3 billion of legacy cocoa bond obligations to be refinanced in 2026, GHS 2.18 billion in 2027 and GHS 2.06 billion in 2028, with the refinanced obligations for each of the respective years being repaid in equal annual instalments over a five-year period.

Commercial Paper programme

The Company assumes annual issuances of Commercial Paper to finance cocoa purchasing operations. Commercial Paper issuances are expected to be made in seasonal tranches, in September, October and November of each cocoa season, reflecting the timing of cocoa procurement activities. Each issuance is assumed to have a tenor of 270 days.

Interest rates on funding requirements

The projected financing costs are based on the following assumptions:

i. Commercial Paper instruments attract a coupon rate of 10% per annum.
ii. Medium-Term Notes attract a coupon rate of 12% per annum.

These assumptions have been benchmarked against prevailing domestic market yields and recent medium-term Ghanaian debt issuances.

Note 1 (continued)

Assignment of receivables and security arrangements

The projections assume that CMC will assign the related receivables arising from the selected executed forward contracts to Cocoa Capital Plc, with those receivables serving as the source of repayment for the SPV's financing obligations. Collections from assigned contracts are expected to be paid directly into designated collection accounts established under the transaction structure.

All debt instruments issued by the SPV are assumed to be secured by the Assigned Cocoa Contracts/Receivables. The model assumes an annual Debt Service Coverage Ratio ("DSCR") in excess of the annual principal and interest obligations. This is determined on the aggregate of debt service obligations (principal and interest) and transaction and service fees due within each financial year. This security margin is maintained as an additional credit enhancement mechanism to provide protection for investors and support the timely servicing of debt obligations.

Collections received from the assigned receivables will be applied in accordance with the transaction waterfall, with principal repayments, interest payments and the maintenance of the required security margin taking priority.

This structure aligns the SPV's repayment obligations with cash flows generated from COCOBOD's forward cocoa sales contracts while providing additional credit protection through the maintenance of the required security margin.

Interest income

Interest income comprises amounts recoverable from COCOBOD in respect of interest obligations incurred by the SPV on Commercial Paper and Medium-Term Note issuances and interest accrued on cash balances.

Under the transaction structure, the SPV incurs financing costs on debt raised to fund cocoa purchases and refinance designated legacy debt obligations, while corresponding interest amounts are recoverable from COCOBOD through Assigned Cocoa Contracts/Receivables and related settlement arrangements.

The SPV's is also assumed to earn interest income on investments made with cash balances into short-term Government of Ghana securities.

Interest expense

Interest expense represents the coupon and financing costs associated with the Commercial Papers and Medium-Term Notes issued by the SPV to finance cocoa purchasing operations and refinance designated legacy debt obligations.

Administrative expenses

Administrative expenses comprise SPV administration costs, governance costs and related overheads. Administrative expenses are projected to be 0.1296% of the principal amounts for Commercial Papers and Medium-Term Notes outstanding per year..

Transaction and service fees

The Company assumes total transaction and issuance-related service fees are capped at 0.6652% of the amount raised per the approved transaction structure. The provision for transaction and service fees is expected to cover transaction advisory fees, legal fees, bond market specialist fees, rating agency fees, reporting accountant fees, SPV management fees and regulatory charges. Transaction and service fees are projected as a proportion to annual funding requirements.

Note 1 (continued)

Other income

Other income represents the security buffer maintained under the transaction structure. The buffer is determined on the aggregate of debt service obligations (principal and interest) and transaction and service fees due within each financial year. For the 2027 financial year, a buffer of 2% is applied to the aggregate of the annual debt service obligation and transaction and service fees. Thereafter, the buffer is adjusted in line with the change in the SPV's debt and other liabilities service obligations. The security buffer provides an additional layer of credit enhancement against potential timing mismatches in debt and other liabilities servicing.

Taxation

The Company assumes a corporate income tax rate of 25% throughout the projection period. In addition, Growth and Sustainability Levy is assumed at 2.5% based on the expected tax treatment of the Company during the forecast period.

Accounting period

The Company was incorporated in August 2026. The first reporting period is assumed to be for the two-months period from the date of incorporation to 30 September 2026. Thereafter, the Company will prepare annual financial statements for the twelve-month periods ending 30 September each year.

Stated capital

The projections assume an initial paid-up capital contribution of GHS 5 million by the shareholder. No further equity contributions have been assumed during the projection period.

Dividends

No dividend distributions have been assumed during the forecast period.

Forecast Income Statement

Interest income

Interest income represents amounts recovered from COCOBOD in respect of financing costs incurred by the SPV on Commercial Paper and Medium-Term Note issuances and interest earned on cash balances which are assumed to be invested into short-term Government of Ghana securities.

Under the transaction structure, the SPV incurs interest expense on the debt instruments issued to fund cocoa purchases and refinance legacy debt, while equivalent amounts are receivable from COCOBOD through Assigned Cocoa Contracts/Receivables and related settlement arrangements.

The projected collections are primarily driven by:

- Forecast cocoa production increasing from approximately 650,000 tonnes in the 2026/27 crop year to approximately 718,000 tonnes by the 2030/31 crop year;
- Continued implementation of Productivity Enhancement Programmes including rehabilitation, hand pollination, disease control and fertiliser application;
- Projected growth in cocoa export proceeds generated under assigned forward sales contracts; and
- The expansion of collateral receivable pools assigned to the SPV to support annual commercial paper and medium-term note issuances.

Interest income on cash balances is calculated using an assumed annual yield of 5%, applied to the aggregate of opening cash balances and 50% of closing cash balances. The inclusion of 50% of year-end cash balances is intended to reflect the timing and variability of cash inflows throughout the year. Interest earned on the cash balances invested is assumed to be received in cash and is not reinvested.

Interest expense

Interest expense represents coupon and finance costs associated with the Commercial Papers and Medium-Term Notes issued by the SPV. Interest expense is projected to increase from GHS49 million in 2026 to a peak of approximately GHS1.93 billion in 2029 before declining to GHS1.72 billion by 2031.

The increase reflects the growth in financing activities, higher outstanding debt obligations, and rising annual debt service requirements associated with the SPV's Commercial Paper and Medium-Term Note issuances. The decline towards the end of the forecast period is driven by the gradual amortisation and repayment of outstanding debt instruments, resulting in a lower overall debt balance.

The increase reflects:

- Additional annual Commercial Paper issuances required to finance cocoa purchasing operations;
- Refinancing of designated legacy cocoa bond obligations;
- Growth in the underlying production volumes and funding requirements over the projection period; and
- Accumulation of multiple note issuances outstanding simultaneously before gradual amortisation reduces overall interest costs in later years.

The decline after 2029 reflects the reduction in unpaid debt obligations driven by repayments of outstanding debt obligations and a reduction in financing needs.

Transaction and service fees

Service fees comprise trustee fees, transaction advisory fees, SPV administration fees, regulatory charges, legal fees, reporting accountant fees, rating agency fees and other issuance-related costs.

Service fees are projected to increase from GHS 43 million in 2026 to approximately GHS 128 million in 2030 and reduces to GHS 92 million in 2031.

Transaction and service Fees (continued)

The increase is primarily driven by higher annual funding requirements and the corresponding increase in debt issuance volumes throughout the projection period.

Administrative expenses

Administrative expenses consist mainly of SPV management costs, governance expenses, independent administrator costs, annual reporting costs and other operating overheads and are estimated at 0.1296% of principal amounts for Commercial Papers and Medium-Term Notes outstanding per year.

Administrative expenses increase marginally throughout the projected period reflecting the nature of Cocoa Capital Plc as a special purpose vehicle whose activities are largely administrative and do not require significant operational infrastructure.

Other income

Other income represents income earned on the security buffer maintained under the transaction structure to support the SPV's debt servicing obligations. The security buffer is determined by applying a security margin to the total debt service obligations (principal and interest) payable within each financial year. For the 2027 financial year, the model assumes a buffer of 2% on the aggregate of the annual debt service obligation and transaction and service fees, which is recognised as other income recognised. Thereafter, other income grows in line with changes in the SPV's outstanding liabilities and debt service requirements. The security buffer serves as an additional layer of credit enhancement, providing protection against potential timing mismatches in receivable collections and debt repayments while strengthening the overall security available to investors.

Profit after tax

The Company's after-tax performance is projected to improve from a break-even position in 2026 to approximately GHS 423 million by 2031. The performance in the first year is due to start-up costs, establishment expenses and interest obligations incurred before significant income is generated. Following the establishment year, profitability improves steadily as income generated from cash balances as well as the security buffer maintained to support the SPV's debt obligations increase over the forecast period, while financing costs and operating expenses are substantially recovered from COCOBOD. Consequently, profit after tax is projected at approximately GHS 259 million in 2027, GHS 331million in 2028, GHS 370 million in 2029, GHS 404 million in 2030 and GHS 423 million in 2031.

Forecast Statement of Financial Position

Total assets

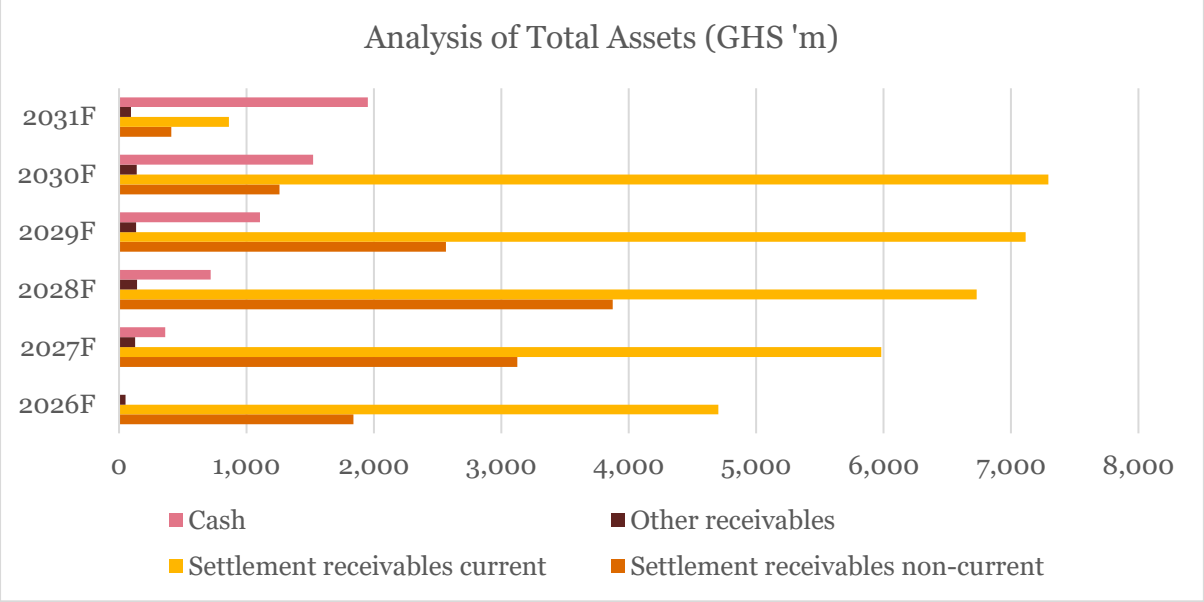

Total assets are projected to increase from approximately GHS6.6 billion in 2026 to a peak of approximately GHS11.5 billion in 2028, before declining to approximately GHS3.3 billion by 2031. The projected movement reflects changes in the level of settlement receivables and cash balances over the forecast period.

The increase in total assets through 2028 is primarily driven by:

- Growth in settlement receivables arising from amounts recoverable in respect of outstanding Commercial Papers and Medium-Term Notes and related interest under the transaction structure;
- The accumulation of cash and cash equivalents generated from retained collections and investment income earned; and
- Other receivables recognised in connection with the operation of the SPV.

Total settlement receivables are projected to increase from approximately GHS 6.5 billion in 2026 to approximately GHS10.6 billion in 2028, before declining to approximately GHS 1.3 billion by 2031. Over the same period, cash and cash equivalents are projected to increase from approximately GHS 5 million to GHS 1.9 billion.

The reduction in total assets after 2028 is primarily attributable to the decline in settlement receivables as outstanding obligations under the programme are settled and the need for funding declines. As receivable balances reduce, cash and cash equivalents constitute an increasing proportion of the SPV's asset base due to cumulative impact of buffers which are received from COCOBOD and interest earned on them after investment in short-term Government of Ghana securities.

Cocoa Capital Plc Receivables

Receivables represent amounts recoverable from COCOBOD to back funds borrowed by the SPV and related interest obligations as well as receivables due for the settlement of other liabilities under the transaction structure. These receivables are supported by Assigned Cocoa Contracts/Receivables generated from COCOBOD's forward cocoa sales contracts and constitute the primary source of repayment for the SPV's obligations.

Forecast Statement of Financial Position (continued)

Cocoa Capital Plc Receivables (continued)

Total receivables are projected to increase from approximately GHS 6.6 billion in 2026 to a peak of GHS10.6 billion in 2028 before declining to approximately GHS 1.4 billion by 2031. The increase in the early years reflects higher funding requirements, additional Commercial Paper issuances for cocoa purchases, the issuance of Medium-Term Notes to refinance legacy debt obligations, and the build-up of settlement receivables arising from the financing programme.

The decline after 2028 reflects the scheduled repayment of Commercial Papers and Medium-Term Notes, the collection of outstanding receivables, and the gradual amortisation of the financing programme as debt obligations mature over the forecast period.

Cash and cash equivalents

Cash and cash equivalents are projected to grow throughout the projected period from approximately GHS 5 million in 2026 to GHS 2 billion in 2031. Under the transaction structure, funds raised by the SPV are advanced to COCOBOD and amounts received from COCOBOD are applied to meet debt service obligations and other contractual commitments. In addition, the SPV is expected to accumulate cash reserves through the annual buffer mechanism, as well as from interest income earned on the investment of surplus funds in short-term Government of Ghana securities.

Total liabilities

Total liabilities are projected to increase from approximately GHS6.6 billion in 2026 to a peak of GHS 10.9 billion in 2028 before declining to approximately GHS 1.5 billion by 2031. The liability profile reflects outstanding Commercial Papers, Medium-Term Notes and related obligations arising from the SPV's activities.

The increase during the initial years is driven by additional Commercial Paper issuances to finance cocoa purchasing operations and the issuance of Medium-Term Notes to refinance legacy cocoa debt obligations. As the financing programme matures, liabilities decline due to the scheduled repayment and amortisation of outstanding debt instruments.

The movement in total liabilities mirrors the corresponding receivable balances, reflecting the structured nature of the transaction whereby financing obligations are supported by Assigned Cocoa Contracts/Receivables and related settlement arrangements.

Medium-Term-Notes payables and commercial papers

Notes Payable and Commercial Papers represent the SPV's outstanding financing obligations arising from the issuance of Medium-Term Notes and Commercial Papers used to support Cocoa Capital Plc's financing requirements.

Total outstanding principal obligations for Medium-Term Notes are projected to increase from approximately GHS1.9 billion in 2026 to a peak of approximately GHS 3.8 billion in 2028, before declining to approximately GHS 0.4 billion by 2031. This movement reflects the issuance of additional instruments during the early years of the programme and the subsequent repayment of outstanding obligations in accordance with the projected debt servicing schedule.

Commercial Papers are projected to increase from approximately GHS4.2 billion in 2026 to approximately GHS6.0 billion in 2030 with no balances in 2031 with all issuances being closed, reflecting the seasonal funding requirements associated with cocoa purchasing activities.

The debt for Commercial Papers issued is projected to be fully repaid by 2031. In contrast, Medium-Term-Notes are projected to increase from approximately GHS2.3 billion in 2026 to approximately GHS5.2 billion in 2028 as additional refinancing notes are issued, before declining progressively to approximately GHS1.3 billion by 2031 as scheduled principal repayments are made.

Forecast Statement of Financial Position (continued)

Interest payable on Medium-Term-Notes and Commercial Papers

The interest payable represents accrued interest obligations on outstanding Commercial Papers and Medium-Term Notes issued by the SPV as at the financial year end. The balance is projected to increase from approximately GHS49 million in 2026 to a peak of approximately GHS 89 million in 2028, before declining to approximately GHS 14.9 million in 2031.

The projected increase through 2029 reflects the growth in outstanding financing obligations following successive issuances of Commercial Papers and Medium-Term Notes under the programme. As the volume of outstanding debt increases, the associated accrued interest balance also increases.

The subsequent decline in bond interest payable from 2030 onwards reflects the expected repayments of outstanding financing obligations, resulting in lower accrued interest balances towards the end of the forecast period. The movement in the interest payable is therefore consistent with the profile of the underlying debt obligations across the projected period.

Equity

Total equity is projected to increase from approximately GHS 5.0 million in 2026 to approximately GHS 1.79 billion by 2031. The projected growth is driven primarily by the accumulation of retained earnings over the forecast period, with no additional equity injections assumed beyond the initial capitalisation of Cocoa Capital Plc.

Retained earnings are projected to increase from an approximate nil position in 2026 to approximately GHS1.79 billion in 2031, reflecting the cumulative effect of projected profits recognised over the forecast period.

Accordingly, the increase in total equity reflects the projected retention of earnings generated under the transaction structure, resulting in a gradual increase in the equity position of Cocoa Capital Plc over the forecast period.

Funding Requirements Analysis

The funding requirements of Cocoa Capital Plc represent the amounts required to finance COCOBOD's annual cocoa purchasing operations and refinance designated legacy debt obligations through Commercial Paper ("CP") and Medium-Term Note ("MTN") issuances. The financing programme has been structured to align with COCOBOD's annual crop financing cycle, with repayment expected to be supported by receivables assigned to the SPV from selected forward cocoa sales contracts.

The initial issuance programme is expected to raise approximately GHS6.5 billion in 2026, comprising GHS4.19 billion for funding for cocoa purchases and GHS2.3 billion for the refinancing of maturing cocoa bond obligations. Thereafter, funding requirements are projected to increase in line with expected production volumes to be purchased and annual refinancing requirements. The projections assume cocoa production increases from approximately 650,000 tonnes in the 2026/27 crop year to approximately 718,000 tonnes in the 2030/31 crop year.

Under the transaction structure, a defined portion of COCOBOD's projected export receivables based on forward sales agreements is expected to be assigned to the SPV. Accordingly, the programme does not rely on the entirety of COCOBOD's forecast export proceeds. Rather, the assigned receivables, which represent about 40% of the projected export revenues and associated receivables, are expected to provide the primary source of repayment for the SPV's obligations.

The funding structure consists primarily of:

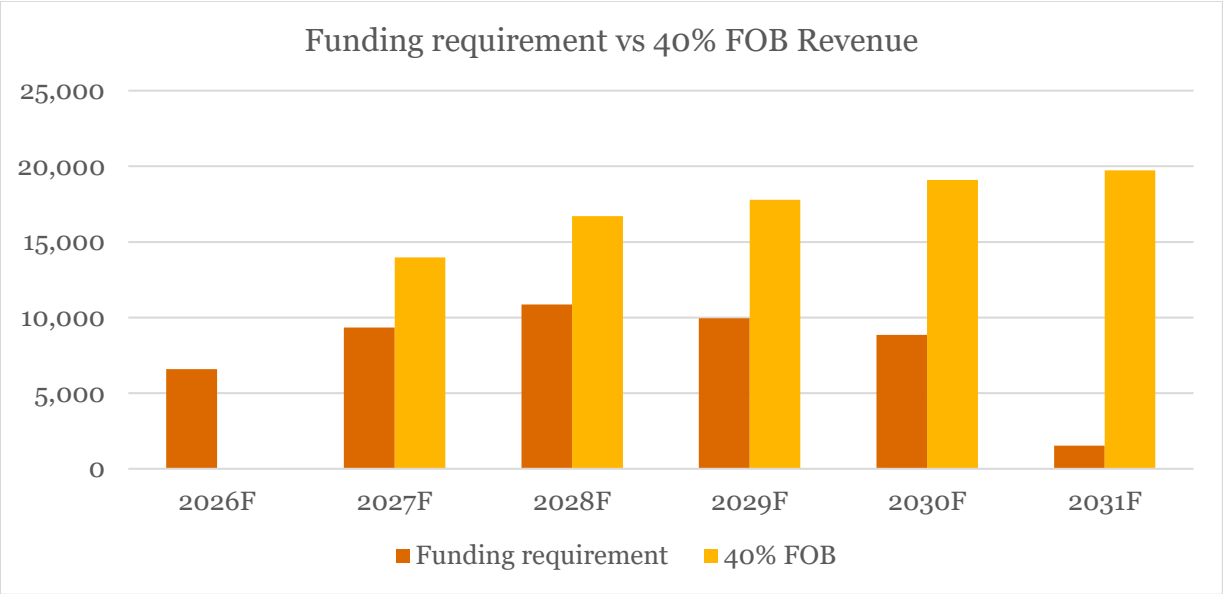

i. Commercial Papers issued to finance seasonal cocoa purchases;

ii. Medium-Term Notes issued to refinance designated legacy cocoa debt obligations;

iii. Assigned Cocoa Contracts/Receivables serving as the primary source of repayment; and

iv. Debt Service Accounts and other transaction accounts established in accordance with the transaction structure.

The transaction assumes that cocoa purchase funding revolves within each crop season, with collections arising from the assigned receivables being applied. As a result, the funding requirements have been structured by reference to the level of receivables expected to be available for assignment rather than COCOBOD's total projected export revenue.

NB: *The 2026F is based on a 2-month period and no projected revenue for COCOBOD has been assumed on this.*

Ratios and Credit Considerations

Asset Coverage Ratio

The Asset Coverage Ratio measures the extent to which the Company's assets are sufficient to cover its outstanding liabilities. The ratio is projected to improve from 1.00x in 2026 to 2.17x in 2031, reflecting the gradual build-up of receivables and cash balances and the amortisation of outstanding debt obligations over the forecast period.

The ratio remains above 1.0x throughout the projection period, indicating that total assets are expected to exceed total liabilities at all times. The improvement in later years is driven primarily by the scheduled repayment of Commercial Papers and Medium-Term Notes, resulting in a faster decline in liabilities relative to assets. This trend demonstrates adequacy of the asset coverage ratio strengthening creditor protection across the projected period, and an increasingly robust asset position as the financing programme approaches maturity.

Year	Total assets (GHS'm)	Total liabilities (GHS'm)	Asset Coverage Ratio (x)
2026F	6,601	6,596	1.00x
2027F	9,596	9,332	1.03x
2028F	11,464	10,869	1.05x
2029F	10,920	9,955	1.10x
2030F	10,213	8,844	1.15x
2031F	3,320	1,528	2.17x

Cash-to-Debt Ratio

The Cash-to-Debt Ratio measures the extent to which projected cash and cash equivalent balances are available relative to outstanding debt obligations.

Based on the projected financial information, cash and cash equivalents are expected to increase from approximately GHS 5 million in 2026 to approximately GHS 2 billion in 2031, while outstanding debt obligations are projected to increase during the earlier years of the programme before declining towards the end of the forecast period as Commercial Papers and Medium-Term Notes are repaid.

The projected movement in the ratio reflects changes in both cash balances and debt obligations over the forecast period. Debt obligations are projected to peak during the middle years of the programme before reducing as scheduled repayments occur, while cash balances are projected to increase over the forecast period.

Accordingly, the Cash-to-Debt Ratio is projected to increase over the forecast period, from close to nil in the initial years to approximately 1.28x by 2031. The increase is primarily driven by the projected reduction in outstanding debt obligations in the later years of the forecast period together with the increase in projected cash balances.

Interest Coverage Ratio

The Interest Coverage Ratio measures the extent to which projected earnings before interest and tax expenses are sufficient to cover projected interest obligations.

Based on the projected financial information, the ratio is expected to increase from 1.00x in 2026 to 1.27x in 2027 and remain relatively stable thereafter, ranging between 1.26x and 1.36x over the remainder of the forecast period. The projected movement reflects the relationship between projected earnings and financing costs under the assumptions applied in the model.

Interest expense is projected to increase from approximately GHS 49 million in 2026 to a peak of approximately GHS1.93 billion in 2029, before declining in the later years of the forecast period. At the same time, projected profit before tax increases from approximately GHS 358 million in 2027 to GHS 584 million in 2031, contributing to the gradual increase in the ratio.

The increase in the ratio in the later years of the forecast period primarily reflects the combined effect of higher projected earnings and lower projected financing costs relative to earlier years.

Year	Profit before tax (GHS'm)	Interest expense (GHS'm)	Earnings before interest and tax (GHS'm)	Interest Coverage Ratio (x)
2026F	-	49	49	1.00x
2027F	358	1,333	1,691	1.27x
2028F	456	1,736	2,192	1.26x
2029F	511	1,927	2,438	1.27x
2030F	557	1,865	2,422	1.30x
2031F	584	1,715	2,299	1.34x

Cocoa Capital Plc
(Incorporated On 7 August 2026)

Report of the directors
For the one-month period ended 8 September 2026

The directors present herewith the Statement of Affairs of Cocoa Capital Plc (the company') for the period 7 August 2026 to 8 September 2026 and their report thereon.

Statement of Directors' Responsibilities

The directors are responsible for the preparation of financial statements which gives a true and fair view of the state of affairs of the company. In preparing this financial statements, the directors have selected suitable accounting policies and then applied them consistently, made judgements and estimates that are reasonable and prudent and followed International Financial Reporting Standards.

The directors are responsible for ensuring that the company keeps proper accounting records that disclose with reasonable accuracy at any time the financial position of the company. The directors are also responsible for safeguarding the assets of the company and taking reasonable steps for the prevention and detection of fraud and other irregularities.

Principal activities

Cocoa Capital Plc is authorised to transact business as a Security and commodity contracts brokerage entity.

Date of incorporation

Cocoa Capital Plc was incorporated on 7 August 2026 as a Public Limited Company under the Companies Code 2019, (Act 992).

Corporate social responsibility

The company did not engage in any corporate social responsibility during the one-month period under review.

Auditor and auditor's remuneration

In accordance with Section 139 of the Companies Act, 2019 (Act 992) the auditors, Messrs. Deloitte & Touche, commenced in office as auditors of the Company. The Directors have agreed an audit fee of GHS 50,000 with the auditors for the one-month period ended 8 September 2026 audit.

Approval of the report of directors and statement of affairs

The report of the directors and statement of affairs of Cocoa Capital Plc were approved by the board of directors on .....and signed on behalf of the Board by:

Director

Independent auditor's report
To the members of Cocoa Capital Plc

Report on the Audit of the Statements of Affairs

Opinion

We have audited the statement of Affairs of Cocoa Capital PLC, set out on pages 8 to 13, which comprise the statement of financial position as at 8 September 2026, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the one month period then ended, the notes to the financial statements, including a summary of significant accounting policy information and other explanatory disclosures.

In our opinion, the financial statements give a true and fair view of the financial position of Cocoa Capital PLC as at 8 September 2026, and of its financial performance and cash flows for the one-month period then ended, in accordance with the IFRS Accounting Standard as issued by the International Accounting Standards Board and the requirements of the Companies Act, 2019 (Act 992).

Basis of Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the requirements of the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA code) and other independence requirements applicable to performing audits of financial statements in Ghana. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and other ethical requirements that are relevant to our audit of financial statements in Ghana.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The directors are responsible for the other information. The other information comprises the Report of the Directors and the Statement of Directors' Responsibilities, which we obtained prior to the date of this report. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

CLASSIFICATION: CONFIDENTIAL

In connection with our audit of the statement of affairs, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained on the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Statement of Affairs

The directors are responsible for the preparation and fair presentation of the statement of affairs in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act, 2019 (Act 992) for such internal control as the directors determine is necessary to enable the preparation of statement of affairs that are free from material misstatement, whether due to fraud or error.

In preparing the statement of affairs, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of Statement of Affairs

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the statement of affairs, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

CLASSIFICATION: CONFIDENTIAL

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Report on Other Legal and Regulatory Requirements

In accordance with the Seventh Schedule of the Companies Act, 2019 (Act 992) we expressly state that:

1. We have obtained the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of the audit.

2. In our opinion:
   - proper books of accounts have been kept by the Company, so far as appears from our examination of those books.

   - the information and explanations given to us, were in the manner required by the Companies Act, 2019 (Act 992) and give a true and fair view of the:

     a. statement of financial position of the Company at the end of the financial year, and
     b. statement of comprehensive income for the financial year.

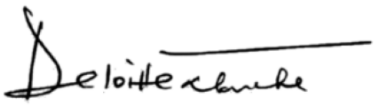

CLASSIFICATION: CONFIDENTIAL

Independent auditor's report
To the members of Cocoa Capital Plc

3. The Company's statement of financial position and statement of comprehensive income are in agreement with the accounting records and returns.

4. We are independent of the Company, pursuant to Section 143 of the Companies Act, 2019 (Act 992).

The engagement partner on the audit resulting in this independent auditor's report is **Daniel Kwadwo Owusu (ICAG/P/1327).**

Cocoa Ghana Plc

Notes to the statements of affairs

For the one-month period ended 8 September 2026

1. General information

Cocoa Capital Plc is a public limited company incorporated and domiciled in Ghana. The registered office is located at Cocoa House, No.41 Kwame Nkrumah Avenue, Accra.

2. Basis of preparation and accounting policies

The statement of affairs have been prepared in accordance with the accounting policies of Cocoa Capital Plc, which are based on IFRS Accounting Standards as issued by the International Accounting Standards.

2.1 Cash and cash equivalents

Cash and cash equivalents as presented in the statement of financial position comprise cash on hand, bank balances and highly liquid investments with maturities of three months or less in money market instruments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

2.2 Stated capital

Ordinary shares: Ordinary shares are classified as 'stated capital' in equity where the company has no obligation to deliver cash or other assets to shareholders. All shares are issued at no par value.

3. Receivables - Shareholder

	2026 GHS
Capital Contribution from Cocoa Board	5,000,000
	5,000,000

This represents contribution of capital by the Ghana Cocoa Board towards the establishmer of the Company.

4. Stated Capital

	2026 GHS
Authorised Number of ordinary shares of no-par value	5,000,000

Issued for cash consideration	Number	Value GHs
Issued for cash consideration	5,000,000	5,000,000

As at the reporting date, an amount of GH¢5,000,000 remained outstanding and is due to be received from the Ghana Cocoa Board (COCOBOD). Management expects the balance to be recovered in the ordinary course of business.

Cocoa Ghana Plc

Notes to the statements of affairs

For the one-month period ended 8 September 2026

5. General and administrative expenses

	2026 GHS
Auditors' remuneration	**50,000**
Stamp duty	**50,000**
	100,000

6. Trade and other payables

	2026 GHS
Amount due to Cocoa Board	**50,000**
Accruals	**50,000**
	100,000

7. Going Concern

Management has made an assessment of the Company's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Management is also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company. Therefore, the financial statements have been prepared on the going concern basis.

8. Commitments

There were no contingent liabilities at the end of the period under review.

9. Pre incorporation expenses

The Directors have determined that all pre-incorporation expenses incurred prior to the establishment of Cocoa Capital PLC will not be charged to the Company. Accordingly, such costs will not be recognised in the financial statements of Cocoa Capital PLC and will instead be borne and recorded by the Ghana Cocoa Board (COCOBOD).

10. Event after the reporting period

Events subsequent to the reporting date are reflected in the financial statements only to the event that they relate directly to the financial statements and the effect is material. There were no events after 8 September 2026 that require disclosure in the financial statements.
